(2) In the sole discretion of the judge, he or she may suspend up to one-half of the fine imposed under subsection (c) of this Code section conditioned upon the defendant's undergoing treatment in a substance abuse treatment program as defined in Code Section 40–5–1.

Such notices of conviction shall be published in the manner of legal notices in the legal organ of the county in which such person resides or, in the case of nonresidents, in the legal organ of the county in which the person was convicted. § 40–6–391.1. Plea of nolo contendere by persons charged with driving under the influence of alcohol or drugs

(a) The decision to accept a plea of nolo contendere to a charge of violating Code Section 40–6–391 shall be at the sole discretion of the judge but, if such plea is accepted, the penalties provided for in subsection (c) of Code Section 40–6–391 shall be imposed; provided, however, that no such plea of nolo contendere shall be accepted if the person charged with violating Code Section 40–6–391 had an alcohol concentration of more than 0.15 at any time within three hours after driving or being in control of any moving vehicle from alcohol consumed before such driving or being in control ended.

(b) If the defendant has not been convicted of or had a plea of nolo contendere accepted to a charge of violating Code Section 40–6–391 within the previous five years and if the plea of nolo contendere shall be used as provided in paragraph (1) of subsection (a) of Code Section 40–5–63, no such plea shall be accepted unless, at a minimum, the following conditions are met:

(1) The defendant has filed a verified petition with the court requesting that such plea be accepted and setting forth the facts and special circumstances necessary to enable the judge to determine that accepting such plea is in the best interest of justice; and

(2) The judge has reviewed the defendant's driving records that are on file with the Department of Driver Services.

(c) The judge, as part of the record of the disposition of the charge, shall set forth, under seal of the court, his or her reasons for accepting the plea of nolo contendere.

(d) The record of the disposition of the case, including the ruling required in subsection (c) of this Code section, shall be forwarded to the Department of Driver Services within ten days after disposition.

(e) If a plea of nolo contendere is accepted under the conditions set forth in subsection (b) of this Code section, the defendant's driver's license shall be forwarded to the Department of Driver Services as provided in subsection (c) of Code Section 40–5–67.

Historical and Statutory Notes

The 2000 amendment inserted gender neutral language and substituted for Department of "Public Safety" the Department of "Motor Vehicle Safety".

The 2005 amendment by Act 68, in subsecs. (b)(2), (d), and (e), substituted "Department of Driver Services" for "Department of Motor Vehicle Safety".

§ 40–6–391.2. Forfeiture of motor vehicle operated by person who has been declared habitual violator and whose license has been revoked and who has been arrested for driving under the influence

(a) Except as provided in this Code section, any motor vehicle operated by a person who has been declared a habitual violator for three violations of Code Section 40–6–391 and whose license has been revoked and who is arrested and charged with a violation of Code Section 40–6–391, is declared to be contraband and subject to forfeiture to the state, as provided in this Code section, provided that said forfeiture shall not be absolute unless the defendant is finally convicted of such offense.

(b) Any motor vehicle subject to forfeiture under subsection (a) of this Code section shall be seized immediately upon discovery by any law enforcement officer, peace officer, or law enforcement agency of this state or any political subdivision thereof who has the power to make arrests and whose duty it is to enforce this article, that said motor vehicle has been declared contraband. Said motor vehicle shall be delivered within 20 days to the district attorney whose circuit includes the county in which a seizure is made or to his duly authorized agent. At any time subsequent to the seizure, the chief officer of the seizing agency, his designee, or the district attorney may release the vehicle upon bond being posted in like manner as authorized in subsection (e) of this Code section.

(c) Within 60 days from the date of the seizure, the district attorney of the judicial circuit, or the director on his behalf, shall cause to be filed in the superior court of the county in which the motor vehicle is seized or detained an action for condemnation of such motor vehicle. The proceedings shall be brought in the name of the state by the district attorney of the circuit in which the motor vehicle was seized, and the action shall be verified by a duly authorized agent of the state in a manner required by the law of this state. The action shall describe the motor vehicle and state its location, present custodian, and the name of the owner, if known, to the duly authorized agent of the state; allege the essential elements of the violation which is claimed to exist; and conclude with a prayer of due process to enforce the forfeiture. Upon the filing of such an action, the court shall promptly cause process to issue to the present custodian in possession of the motor vehicle described in the action, commanding him to seize the motor vehicle in the action and to hold that motor vehicle for further order of the court. The owner, lessee, or any person having a duly recorded security interest in or lien on such motor vehicle shall be notified by any means of service provided for in Title 9 or by delivery of a copy of the complaint and summons by certified mail or statutory overnight delivery to said owner or lienholder or a person of suitable age or discretion having charge of said owner's premises. For purposes of this subsection, where forfeiture of a motor vehicle titled or registered in Georgia is sought, notice to the titleholder shall be deemed adequate if a copy of the complaint and summons is mailed by certified mail or statutory overnight delivery to the titleholder at the address set out in the title and an additional copy is mailed by certified mail or statutory overnight delivery to the firm, person, or corporation which holds the current registration for said motor vehicle, who shall be deemed agent for service for said titleholder, and said complaint is advertised once a week for two weeks as set out in this subsection. If the owner, lessee, or person having a duly recorded security interest in or lien on the contraband motor vehicle is unknown or resides out of the state or departs the state or cannot after due diligence be found within the state or conceals himself so as to avoid notice, notice of the proceedings shall be published once a week for two weeks in the newspaper in which the sheriff's advertisements are published. Such publication shall be deemed notice to any and all persons having an interest in or right affected by such proceeding and any sale of the motor vehicle resulting therefrom, but shall not constitute notice to any person having a duly recorded security interest in or lien upon such motor vehicle and required to be served under this Code section unless that person is unknown or resides out of the state or departs the state or cannot after due diligence be found within the state or conceals himself to avoid notice.

(d)(1) Any party at interest may appear, by answer under oath, and file an intervention or defense within 30 days from the date of service on the condemnee of the action for condemnation. The owner, lessee, security interest holder, or lienholder shall be permitted to defend by showing that the motor vehicle seized was not subject to forfeiture under this Code section.

(2) A rented or leased vehicle shall not be subject to forfeiture unless it is established in the forfeiture proceedings that the owner of the rented or leased vehicle knew or should have

known of or consented to the operation of such motor vehicle in a manner which would subject the vehicle to forfeiture. Upon learning of the address or phone number of the rental or leasing company which owns such vehicle, the district attorney shall immediately contact the company to inform it that the vehicle is available for the company to take possession.

(e) The court to which any such petition for condemnation may be referred may, in its discretion, allow any party at interest, after making said defense under subsection (d) of this Code section, to give bond and take possession of the motor vehicle seized. Such motor vehicle shall not be sold or leased without prior approval of the court. In the event the court approves such sale or lease, the proceeds arising therefrom shall be deposited in the registry of the court, pending final adjudication of the forfeiture proceeding. The court shall determine whether the bond shall be a forthcoming bond or an eventual condemnation money bond and shall also determine the amount of the bond. The enforcement of any bond so given shall be regulated by the general law applicable to such cases.

(f) If no defense or intervention is filed within 30 days from the date of service on the condemnee of the petition, judgment shall be entered by the court and the motor vehicle shall be sold. The court may direct that such property be sold by:

(1) Judicial sale as provided in Article 7 of Chapter 13 of Title 9; provided, however, that the court may establish a minimum acceptable price for such property; or

(2) Any commercially feasible means.

(g) The proceeds arising from such sale shall be deposited into the general treasury of the state or any other governmental unit whose law enforcement agency it was that originally seized the motor vehicle. It is the intent of the General Assembly that, where possible, proceeds deposited into the state treasury should be used and that proceeds vested in any local governmental unit shall be applied to fund alcohol or drug treatment, rehabilitation, and prevention and education programs, after making the necessary expenditures for:

(1) Any costs incurred in the seizure;

(2) The costs of the court and its officers; and

(3) Any cost incurred in the storage, advertisement, maintenance, or care of the motor vehicle.

(h) The interest of an owner, lessee, security interest holder, or lienholder shall not be subject to forfeiture unless the condemnor shows by a preponderance of evidence that such person knew or reasonably should have known that the operator was a habitual violator as set forth in subsection (a) of this Code section and knew or reasonably should have known that such person would operate or was operating the vehicle while in violation of Code Section 40–6–391.

(i) In any case where a vehicle which is the only family vehicle is determined to be subject to forfeiture, the court may, if it determines that the financial hardship to the family as a result of the forfeiture and sale outweighs the benefit to the state from such forfeiture, order the title to the vehicle transferred to such other family member who is a duly licensed operator and who requires the use of such vehicle for employment or family transportation purposes. Such transfer shall be subject to any valid liens and shall be granted only once.

Historical and Statutory Notes

The 2000 amendment substituted in two instances in subsec. (c) "certified mail or statutory overnight delivery" for "certified mail".

§ 40–6–391.3. Punishment for school bus driver convicted of driving under influence of alcohol or drugs while driving school bus

A school bus driver licensed pursuant to Article 7 of Chapter 5 of this title shall upon a conviction of a violation of Code Section 40–6–391 while driving a school bus be punished by imprisonment for a period of not less than one year nor more than five years or by a fine of not less than $1,000.00 nor more than $5,000.00, or both.

Laws 1991, p. 1140, § 3.

§ 40–6–392. Chemical tests

(a) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person in violation of Code Section 40–6–391, evidence of the amount of alcohol or drug in a person's blood, urine, breath, or other bodily substance at the alleged time, as determined by a chemical analysis of the person's blood, urine, breath, or other bodily substance shall be admissible. Where such a chemical test is made, the following provisions shall apply:

(1)(A) Chemical analysis of the person's blood, urine, breath, or other bodily substance, to be considered valid under this Code section, shall have been performed according to methods approved by the Division of Forensic Sciences of the Georgia Bureau of Investigation on a machine which was operated with all its electronic and operating components prescribed by its manufacturer properly attached and in good working order and by an individual possessing a valid permit issued by the Division of Forensic Sciences for this purpose. The Division of Forensic Sciences of the Georgia Bureau of Investigation shall approve satisfactory techniques or methods to ascertain the qualifications and competence of individuals to conduct analyses and to issue permits, along with requirements for properly operating and maintaining any testing instruments, and to issue certificates certifying that instruments have met those requirements, which certificates and permits shall be subject to termination or revocation at the discretion of the Division of Forensic Sciences.

(B) In all cases where the arrest is made on or after January 1, 1995, and the state selects breath testing, two sequential breath samples shall be requested for the testing of alcohol concentration. For either or both of these sequential samples to be admissible in the state's or plaintiff's case-in-chief, the readings shall not differ from each other by an alcohol concentration of greater than 0.020 grams and the lower of the two results shall be determinative for accusation and indictment purposes and administrative license suspension purposes. No more than two sequential series of a total of two adequate breath samples each shall be requested by the state; provided, however, that after an initial test in which the instrument indicates an adequate breath sample was given for analysis, any subsequent refusal to give additional breath samples shall not be construed as a refusal for purposes of suspension of a driver's license under Code Sections 40–5–55 and 40–5–67.1. Notwithstanding the above, a refusal to give an adequate sample or samples on any subsequent breath, blood, urine, or other bodily substance test shall not affect the admissibility of the results of any prior samples. An adequate breath sample shall mean a breath sample sufficient to cause the breath-testing instrument to produce a printed alcohol concentration analysis.

(2) When a person shall undergo a chemical test at the request of a law enforcement officer, only a physician, registered nurse, laboratory technician, emergency medical technician, or other qualified person may withdraw blood for the purpose of determining the alcoholic content therein, provided that this limitation shall not apply to the taking of breath or urine specimens. No physician, registered nurse, or other qualified person or employer thereof shall incur any civil or criminal liability as a result of the medically proper obtaining of such blood specimens when requested in writing by a law enforcement officer;

(3) The person tested may have a physician or a qualified technician, chemist, registered nurse, or other qualified person of his own choosing administer a chemical test or tests in

addition to any administered at the direction of a law enforcement officer. The justifiable failure or inability to obtain an additional test shall not preclude the admission of evidence relating to the test or tests taken at the direction of a law enforcement officer; and

(4) Upon the request of the person who shall submit to a chemical test or tests at the request of a law enforcement officer, full information concerning the test or tests shall be made available to him or his attorney. The arresting officer at the time of arrest shall advise the person arrested of his rights to a chemical test or tests according to this Code section.

(b) Except as provided in subsection (c) of this Code section, upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person in violation of Code Section 40–6–391, the amount of alcohol in the person's blood at the time alleged, as shown by chemical analysis of the person's blood, urine, breath, or other bodily substance, may give rise to inferences as follows:

(1) If there was at that time an alcohol concentration of 0.05 grams or less, the trier of fact in its discretion may infer therefrom that the person was not under the influence of alcohol, as prohibited by paragraphs (1) and (4) of subsection (a) of Code Section 40–6–391; or

(2) If there was at that time an alcohol concentration in excess of 0.05 grams but less than 0.08 grams, such fact shall not give rise to any inference that the person was or was not under the influence of alcohol, as prohibited by paragraphs (1) and (4) of subsection (a) of Code Section 40–6–391, but such fact may be considered by the trier of fact with other competent evidence in determining whether the person was under the influence of alcohol, as prohibited by paragraphs (1) and (4) of subsection (a) of Code Section 40–6–391.

(c)(1) In any civil or criminal action or proceeding arising out of acts alleged to have been committed in violation of paragraph (5) of subsection (a) of Code Section 40–6–391, if there was at that time or within three hours after driving or being in actual physical control of a moving vehicle from alcohol consumed before such driving or being in actual physical control ended an alcohol concentration of 0.08 or more grams in the person's blood, breath, or urine, the person shall be in violation of paragraph (5) of subsection (a) of Code Section 40–6–391.

(2) In any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person in violation of subsection (i) of Code Section 40–6–391, if there was at that time or within three hours after driving or being in actual physical control of a moving vehicle from alcohol consumed before such driving or being in actual physical control ended an alcohol concentration of 0.04 grams or more in the person's blood, breath, or urine, the person shall be in violation of subsection (i) of Code Section 40–6–391.

(3) In any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person in violation of subsection (k) of Code Section 40–6–391, if there was at that time or within three hours after driving or being in actual physical control of a moving vehicle from alcohol consumed before such driving or being in actual physical control ended an alcohol concentration of 0.02 grams or more in the person's blood, breath, or urine, the person shall be in violation of subsection (k) of Code Section 40–6–391.

(d) In any criminal trial, the refusal of the defendant to permit a chemical analysis to be made of his blood, breath, urine, or other bodily substance at the time of his arrest shall be admissible in evidence against him.

(e)(1) A certification by the office of the Secretary of State or by the Department of Community Health that a person who drew blood was a licensed or certified physician, physician assistant, registered nurse, practical nurse, medical technologist, medical laboratory technician, or phlebotomist at the time the blood was drawn;

(2) Testimony, under oath, of the blood drawer; or

(3) Testimony, under oath, of the blood drawer's supervisor or medical records custodian that the blood drawer was properly trained and authorized to draw blood as an employee of the medical facility or employer

shall be admissible into evidence for the purpose of establishing that such person was qualified to draw blood as required by this Code section.

(f) Each time an approved breath-testing instrument is inspected, the inspector shall prepare a certificate which shall be signed under oath by the inspector and which shall include the following language:

"This breath-testing instrument (serial no. _____) was thoroughly inspected, tested, and standardized by the undersigned on (date _____) and all of its electronic and operating components prescribed by its manufacturer are properly attached and are in good working order."

When properly prepared and executed, as prescribed in this subsection, the certificate shall, notwithstanding any other provision of law, be self-authenticating, shall be admissible in any court of law, and shall satisfy the pertinent requirements of paragraph (1) of subsection (a) of this Code section and subparagraph (g)(2)(F) of Code Section 40–5–67.1.

"(b) Except as provided in subsection (c) of this Code section, upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person in violation of Code Section 40–6–391, the amount of alcohol in the person's blood at the time alleged, as shown by chemical analysis of the person's blood, urine, breath, or other bodily substance, shall give rise to the following presumptions:

"(1) If there was at that time an alcohol concentration of 0.05 grams or less, it shall be presumed that the person was not under the influence of alcohol, as prohibited by paragraphs (1), (2), and (4) of subsection (a) of Code Section 40–6–391;

"(2) If there was at that time an alcohol concentration in excess of 0.05 grams but less than 0.08 grams, such fact shall not give rise to any presumption that the person was or was not under the influence of alcohol, as prohibited by paragraphs (1), (2), and (4) of subsection (a) of Code Section 40–6–391, but such fact may be considered with other competent evidence in determining whether the person was under the influence of alcohol, as prohibited by paragraphs (1), (2), and (4) of subsection (a) of Code Section 40–6–391;

"(3) If there was at that time an alcohol concentration of 0.08 grams or more, it shall be presumed that the person was under the influence of alcohol, as prohibited by paragraphs (1), (2), and (4) of subsection (a) of Code Section 40–6–391; and

(1) There shall be an uppermost distribution of light, or composite beam, so aimed and of such intensity as to reveal persons and vehicles at a distance of at least 350 feet ahead for all conditions of loading;

(2) There shall be a lowermost distribution of light, or composite beam, so aimed and of sufficient intensity to reveal persons and vehicles at a distance of at least 100 feet ahead; and on a straight level road under any condition of loading none of the high intensity portion of the beam shall be directed to strike the eyes of an approaching driver;

(3) Every new motor vehicle other than a motorcycle or a motor driven cycle registered in this state which has multiple-beam road lighting equipment shall be equipped with a beam indicator which shall be lighted whenever the uppermost distribution of light from the headlights is in use and shall not otherwise be lighted. (1) Whenever a driver of a vehicle approaches an oncoming vehicle within 500 feet, such driver shall use a distribution of light, or composite beam, so aimed that the glaring rays are not projected into the eyes of the oncoming driver. The lowermost distribution of light, or composite beam, specified in paragraph (2) of Code Section 40–8–30 shall be deemed to avoid glare at all times, regardless of road contour and loading; and

(2) Whenever the driver of a vehicle follows another vehicle within 200 feet to the rear, except when engaged in the act of overtaking and passing, such driver shall use a distribution of light permissible under this chapter other than the uppermost distribution of light specified in paragraph (1) of Code Section 40–8–30.

Part 3

Brakes

§ 40–8–50. Equipment required

(a) As used in this Code section, the term:

(1) "Gross combination weight rating (GCWR)" means the combined gross vehicle weight ratings of all vehicles in a combination of vehicles.

(2) "Gross vehicle weight rating (GVWR)" means the value specified by the manufacturer or manufacturers as the maximum loaded weight of a single or a combination (articulated) vehicle, the actual gross weight, or registered gross weight, whichever is greater.

(3) "Hazardous material" has the meaning provided by Chapter 51 of Title 49 of the United States Code Annotated.

(4) "Surge brakes" means a self-contained, permanently closed hydraulic brake system for trailers that relies on inertial forces, developed in response to the braking action of the towing vehicle, applied to a hydraulic device mounted on or connected to the tongue of the trailer to slow down or stop the towed vehicle.

(b) Every motor vehicle, other than a motorcycle or motor driven cycle, when operated upon a highway shall be equipped with brakes adequate to control the movement of and to stop and hold such vehicle, including two separate means of applying the brakes, each of which means shall be effective to apply the brakes to at least two wheels. If these two separate means of applying the brakes are connected in any way, they shall be so constructed that failure on any one part of the operating mechanism shall not leave the motor vehicle without brakes on at least two wheels.

(c) Every motorcycle and motor driven cycle manufactured after January 1, 1974, when operated upon a highway, shall be equipped with at least two brakes which may be operated by hand or foot.

(d) Except as otherwise provided in subsection (e) of this Code section, every trailer or semitrailer of 3,000 pounds gross weight or more shall be equipped with brakes on all wheels. Any farm trailer with two or more wheels, pulled from a tongue, used in or operated for farm purposes, including transporting fertilizer and agricultural materials to the farm, shall not be required to have an independent braking system thereon, provided such farm trailer shall not weigh over 4,000 pounds when empty.

(e) Any trailer or semitrailer may utilize surge brakes, subject to the following conditions and limitations:

(1) The gross vehicle weight rating or the actual gross weight of any surge brake equipped trailer or semitrailer does not exceed 20,000 pounds;

(2) For trailers and semitrailers with a gross vehicle weight rating of 12,000 pounds or less, the gross vehicle weight rating of any such trailer shall not exceed 1.75 times the gross vehicle weight rating of the towing vehicle;

(3) For trailers and semitrailers with a gross vehicle weight rating greater than 12,000 pounds, but less than 20,001 pounds, the gross vehicle weight rating of any such trailer shall not exceed 1.25 times the gross vehicle weight rating of the towing vehicle;

(4) The actual gross weight of the trailer or semitrailer and load does not exceed the manufacturer's gross vehicle weight rating;

(5) The trailer or semitrailer brakes must be designed and connected in such a manner that in case of accidental breakaway of the towed vehicle the brakes shall apply automatically; and

(6) For vehicles used for commercial purposes, the vehicle or combination of vehicles complies in all other respects with licensing, insurance, registration, identification, driver and vehicle safety, and hazardous materials regulations of the Department of Public Safety and United States Department of Transportation applicable to such vehicles or combination of vehicles.

(f) Where there is no manufacturer's gross vehicle weight rating or the manufacturer's gross vehicle weight rating is exceeded in violation of paragraph (4) of subsection (e) of this Code section, then the actual gross weight of the trailer or semitrailer shall be used to determine compliance with paragraphs (2) and (3) of subsection (e) of this Code section.

§ 40–8–51. Mechanical connection from operating lever to brake shoes or bands

(a) One of the means of brake operation shall consist of a mechanical connection from the operating lever to the brake shoes or bands, and this brake shall be capable of holding the vehicle or combination of vehicles stationary under any condition of loading on any upgrade or downgrade upon which it is operated.

§ 40–8–52. Parking brakes

Every 1966 model motor vehicle and all subsequent model motor vehicles shall be equipped with parking brakes adequate to hold the vehicle on any grade on which it is operated, under all conditions of loading, on a surface free from snow, ice, or loose material. The parking brakes shall be capable of being applied in conformance with the foregoing requirements by the driver's muscular effort or by spring action or by equivalent means. Their operation may be assisted by the service brakes or other source of power, provided that failure of the service brake actuation system or other power assisting mechanism will not prevent the parking brakes from being applied in conformance with the foregoing requirements. The parking brakes shall be so designed that when once applied they shall remain applied with the required effectiveness despite exhaustion of any source of energy or leakage of

any kind. The same brake drums, brake shoes and lining assemblies, brake shoe anchors, and mechanical brake shoe actuation mechanism normally associated with the wheel brake assemblies may be used for both the service brakes and the parking brakes. If the means of applying the parking brakes and the service brakes are connected in any way, they shall be so constructed that failure of any one part shall not leave the vehicle without operative brakes.

§ 40–8–73.1. Material affixed to front windshield or front door windows which obstructs vision into vehicle; penalty for violation

(a) As used in this Code section, the term:

(1) "Light reflectance" means the ratio of the amount of total light that is reflected outward by a product or material to the amount of total light falling on the product or material.

(2) "Light transmission" means the ratio of the amount of total light, expressed in percentages, which is allowed to pass through a surface to the amount of light falling on the surface.

(3) "Manufacturer" means a person who produces or assembles a vehicle glass–coating material or who fabricates, laminates, or tempers a safety-glazing material, which material reduces light transmission.

(4) "Material" means any transparent product or substance which reduces light transmission.

(5) "Multipurpose passenger vehicle" means a motor vehicle designed to carry ten persons or less which is constructed on a truck chassis or with special features for occasional off-road operation.

(b) Except as provided in this Code section, it shall be unlawful for any person to operate a motor vehicle in this state:

(1) Which has material and glazing applied or affixed to the front windshield, which material and glazing when so applied or affixed reduce light transmission through the windshield; or

(2) Which has material and glazing applied or affixed to the rear windshield or the side or door windows, which material and glazing when so applied or affixed reduce light transmission through the windshield or window to less than 32 percent, plus or minus 3 percent, or increase light reflectance to more than 20 percent.

(c) The provisions of subsection (b) of this Code section shall not apply to:

(1) Adjustable sun visors which are mounted forward of the side windows and are not attached to the glass;

(2) Signs, stickers, or other matter which is displayed in a seven-inch square in the lower corner of the windshield farthest removed from the driver or signs, stickers, or other matter which is displayed in a five-inch square in the lower corner of the windshield nearest the driver;

(3) Direction, destination, or termination signs upon a passenger common carrier motor vehicle if the signs do not interfere with the driver's clear view of approaching traffic;

(4) Any transparent item which is not red or amber in color which is placed on the uppermost six inches of the windshield;

(5) Any federal, state, or local sticker or certificate which is required by law to be placed on any windshield or window;

(d) The Department of Public Safety may, upon application from a person required for medical reasons to be shielded from the direct rays of the sun and only if such application is supported by written attestation of such fact from a person licensed to practice medicine under Chapter 34 of Title 43 or a person certified as an optometrist under Chapter 30 of Title 43, issue an exemption from the provisions of this Code section for any motor vehicle owned by such person or in which such person is a habitual passenger. The exemption shall be issued with such conditions and limitations as may be prescribed by the Department of Public Safety.

(e) No person shall install any material upon the windshields or windows of any motor vehicle, the installation of which would result in a reduction of light transmission or an increase in light reflectance in violation of subsection (b) of this Code section.

Historical and Statutory Notes

The 2005 amendment by Act 67, in subsec. (b), deleted "from and after January 1, 1990," following "in this Code section," and deleted "resident" preceding "person" in the introductory paragraph, and added ", plus or minus 3 percent," in par. (2); in subsec. (c), added "; or" at the end of subpar. (6)(D), deleted par. (7) which had read "Any motor vehicle not registered in this state; or", and designated existing par. (8) as new par. (7); rewrote subsec. (e); deleted subsec. (f); designated existing subsecs. (g) and (h) as new subsecs. (f) and (g); and in newly designated subsec. (f), substituted "Motor Vehicle Safety" for "Public Safety". Prior to amendment subsec. (e) had read:

"(e) From and after January 1, 1990, each manufacturer of material designed to be affixed or applied to the windows or windshields of a motor vehicle shall, before shipping such material into this state, apply to the commissioner of public safety for approval and registration of its material and the label for identification and certification of compliance. No material shall be approved by the commissioner unless the manufacturer demonstrates that such material, when applied or affixed to a window, shall not reduce light transmission or increase light reflectance in violation of subsection (b) of this Code section. The manufacturer of any material shipped into this state on or after January 1, 1990, shall provide labels of a size and type approved by the commissioner, written instructions for the placement of such labels, and a notice that the improper installation of material to a window or windshield or the failure to display a label as provided in this subsection is a violation of state law. It shall be unlawful

for any person to alter or reproduce any label approved by the commissioner or to knowingly use any approved label except as authorized by this Code section."

The 2005 amendment by Act 68 in subsec. (d) substituted "Department of Public Safety" for "Department of Motor Vehicle Safety" twice.

In 2005, the Code Commission, due to irreconcilable conflicts, treated the amendment of this section by Laws 2005, Act 67, § 1, as superseded by Laws 2005, Act 68, § 19. See Butts County v. Strahan, 107 S.E. 163, 151 Ga. 417 (1921). Also, the Code Commission substituted "Department of Public Safety" for "Department of Motor Vehicle Safety" in subsec. (f).

The 2006 amendment by Act 761, in subsec. (d), inserted "a person certified as an optometrist under Chapter 30 of Title 43" preceding "issue an exemption from the provisions of this Code section".

The 2007 amendment by Act 119, in subsec. (c), added pars. (8) through (10).

§ 40–8–74. Tires

(a) No vehicle equipped with solid rubber tires shall be used or transported on the highways, unless every solid rubber tire on such vehicle shall have rubber on its entire traction surface at least one inch thick above the edge of the flange on the entire periphery.

(b) No person shall operate or move on any highway any motor vehicle, trailer, or semitrailer having any metal tire in contact with the roadway.

(c) No tire on a vehicle moved on a highway shall have on its periphery any block, stud, flange, cleat, or spike or any other protuberance of any material other than rubber which projects beyond the tread of the traction surface of the tire, except that it shall be permissible to use:

(1) Farm machinery with tires having protuberances which will not injure the highway; and

(2) Tire chains of reasonable proportions or tires equipped with safety metal spike studs upon any vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid.

(d) The transportation board and local authorities in their respective jurisdictions may in their discretion issue special permits authorizing the operation upon a highway of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of such movable tracks, or of farm tractors or other farm machinery, the operation of which upon a highway would otherwise be prohibited under this Code section.

(e) All tires:

(1) Shall have not less than 2/32 inch tread measurable in all major grooves with the exception of school buses which shall have not less than 4/32 inch tread measurable in all major grooves on the front tires and not less than 2/32 inch tread measurable in all major grooves on the rear tires when there are at least four tires on the rear otherwise the tread on the rear tires shall be not less than 4/32 inch;

(2) Shall be free from any cuts, breaks, or snags on tread and sidewall deep enough to expose body cord; and

(3) Shall be free from bumps, bulges, or separations.

(f) No motor vehicle shall be operated on a public street or highway with tires that have been marked "not for highway use," "for racing purposes only," or "unsafe for highway use."

(g) Retreaded tires shall not be used upon the front wheels of buses.

§ 40–8–75. Tire covers

Every bus, truck, full trailer, semitrailer, and pole trailer, with the exception of local haul pulpwood trucks and local haul waste collection dumping trailers, shall be equipped with suitable metal protectors or substantial flexible flaps on the rearmost wheels to prevent, as far as practicable, such wheels from throwing dirt, gravel, rocks, water, or other materials on the windshields of following vehicles. Such protectors or flaps shall have a ground clearance of not more than one-half of the distance from the center of the rearmost axle to the center of the protector or flap under any conditions of loading of the vehicle and shall be at least as wide as the tires they are covering; provided, however, that if any such bus, truck, full trailer, semitrailer, or pole trailer is so designed and constructed that the foregoing requirements are accomplished by means of fenders, body construction, or other enclosures, then the protectors or flaps provided for in this Code section shall not be required.

§ 40–8–76. Safety belts; child passenger restraining systems; penalty for violation

(a) No new private passenger automobile manufactured after January 1, 1964, shall be sold to the general public in this state unless such automobile shall be equipped with two sets of safety belts for the front seat thereof. The safety belts may be installed by the manufacturer prior to delivery to the dealer, or they may be installed by the dealer.

(b)(1) Every driver who transports a child under six years of age in a passenger automobile, van, or pickup truck, other than a taxicab as defined by Code Section 33–34–5.1 or a public transit vehicle as defined by Code Section 16–5–20, shall, while such motor vehicle is in motion and operated on a public road, street, or highway of this state, provide for the proper restraint of such child in a child passenger restraining system appropriate for such child's height and weight and approved by the United States Department of Transportation under provisions of Federal Motor Vehicle Safety Standard 213 in effect on January 1, 1983, or at the time of manufacture, subject to the following specific requirements and exceptions:

(A) Any such child weighing at least 40 pounds may be secured by a lap belt when:

(i) The vehicle is not equipped with both lap and shoulder belts; or

(ii) Not including the driver's seat, the vehicle is equipped with one or more lap and shoulder belts that are all being used to properly restrain other children;

(B) Any such child shall be properly restrained in a rear seat of the motor vehicle consistent with the requirements of this paragraph. If the vehicle has no rear seating position appropriate for correctly restraining a child or all appropriate rear seating positions are occupied by other children, any such child may be properly restrained in a front seat consistent with the requirements of this paragraph;

(C) A driver shall not be deemed to be complying with the provisions of this paragraph unless any child passenger restraining system required by this paragraph is installed and being used in accordance with the manufacturer's directions for such system; and

(D) The provisions of this paragraph shall not apply when the child's parent or guardian either obtains a physician's written statement that a physical or medical condition of the child prevents placing or restraining him or her in the manner required by this paragraph. If the parent or guardian can show the child's height is over 4 feet and 9 inches, such child shall be restrained in a safety belt as required in Code Section 40–8–76.1.

(2) Upon a first conviction of an offense under this subsection, the defendant shall be punished by a fine of not more than $50.00, except in the case of a child who is five years of age, if the defendant shows to the court having jurisdiction of the case that a child passenger restraining system meeting the applicable requirements of this subsection has been purchased by him or her after the time of the offense and prior to the court appearance, the court may waive or suspend the fine for such first conviction. § 40–9–32. Department to determine amount of security required; hearing; judicial review

(a) The department, not less than 30 days after receipt of an accident report or notice of an accident with respect to which a person claims under oath to have suffered damages and requests determination of security, shall determine the amount of security sufficient in its judgment to satisfy any judgment or judgments for damages resulting from such accident that may be recovered against each operator and owner. Such determination shall be made on the basis of the reports or other information submitted. Notwithstanding any other provisions of this chapter, the department shall not consider or take any action with respect to an accident report, notice of accident, or any claim filed under this Code section which is received more than six months after the date of the accident.

(b) The department, upon determining the amount of security required, shall give written notice to each operator and owner of the amount of security required to be deposited by him or her. Such notice shall state that each operator's license shall be suspended on the thirtieth day from the date of mailing of notice unless within that time the required security is deposited and such owner or operator shall give proof of financial responsibility for the future. The license of the one depositing the security will not then be suspended.

(c)(1) Any person so notified may, within ten days after receipt of such notification, make a written request to the department for a hearing. Such request shall operate as a stay of any suspension pending the outcome of such hearing. The scope of such hearing, for the purposes of this Code section, shall cover the issues of whether there is a reasonable possibility that a judgment could be rendered against such person in an action arising out of the accident and whether such person is exempt from the requirement of depositing security under Code Section 40–9–34. The department may also consider at such hearing the amount of security required. The requirements of depositing security under this Code section shall not apply to any person against whom the department has found that there is not a reasonable possibility of a judgment being rendered.

(2) For the purposes of this Code section, a hearing may consist of a department determination of such issues, such determination to be based solely on written reports submitted by the operator or owner and by investigatory officers, provided that the owner or operator in his or her request to the department for a hearing has expressly consented to this type of hearing and that the department has also consented thereto.

(d) Any person required to give security after a hearing as provided in subsection (c) of this Code section may petition for judicial review of the decision of the department, but suspension of such person's driver's license or operating privilege shall not be stayed while such appeal is pending. The superior court upon such appeal may consider the written reports considered by the department at the hearing as authorized by subsection (c) of this Code section.

(8) To a resident of this state involved in an accident with a nonresident of this state when the damage is less than $300.00, except upon the written request of any party in interest;

(9) If, prior to the date that the department would otherwise suspend a license and registration or a nonresident's operating privilege under Code Section 40–9–33, there shall be filed with the department evidence satisfactory to it that the person who would otherwise have to file security has been released from liability or finally adjudicated not to be liable.

(b) The department may, upon written notice to all parties involved, reduce or increase the amount of security ordered in any case within six months after the date of the accident if in its judgment the amount ordered is excessive or inadequate. Historical and Statutory Notes

The 2000 amendment rewrote subsec. (a).

§ 40–9–38. Surety bonds and real property bonds; requirements; increase or decrease of security; actions; departmental action

(a) Security under this chapter may also be provided for by a surety bond executed by the person and by a surety company duly authorized to transact business in this state or by the person giving proof of his ownership of real property and by one or more individual sureties owning real property within this state and having an equity therein in at least the amount of the bond. The commissioner may not accept any real property bond unless the real property is scheduled in an affidavit attached thereto setting forth a description of such property and the title thereto, including any liens and encumbrances and amounts thereof, market value and value of such sureties' interest therein, executed by the owner or owners of such interest, and such bond and affidavit shows thereon that a duplicate original of such bond and affidavit has been recorded in the office of the clerk of the superior court where deeds are admitted to record in the county where the real property is located. The clerk shall provide a separate book for such purpose. The bond shall be approved by the clerk in the same manner as a supersedeas bond is approved. The fee of the clerk for recording and approving such affidavit and bond shall be $2.50.

(b) The commissioner shall not accept any such bond unless it is conditioned for payments in amounts requested by the commissioner, subject to the maximum amounts of security as specified under this chapter.

(c) No such bond shall be canceled unless 20 days' prior written notice of cancellation is given the commissioner, and cancellation of the bond shall not prevent recovery thereon with respect to any cause of action which necessitated the filing of such bond.

(d) A bond with individual sureties shall constitute a lien upon the real property of the principal and any individual surety in favor of the Governor of Georgia for the use of any holder of any final judgment arising out of the cause of action which necessitated the filing of the bond, against the principal on account of damage to property or injury to or death of any person or persons, upon the recording of the bond in the office of the clerk of the court where deeds are admitted to record in the county where the real property is located.

(e) When a bond with individual sureties filed with the commissioner is no longer required under this chapter, the commissioner shall, upon request, cancel it as to liability for damage to property or injury to or death of any person or persons; and, when a bond has been canceled by the commissioner, he shall, upon request, furnish a certificate of cancellation with the seal of the department thereon. The certificate, notwithstanding any other provision of law, may be recorded in the office of the clerk of the court in which the bond was admitted to record.

(f) When the certificate of cancellation with the seal of the department thereon has been filed in the office of the clerk of the superior court in which the bond was admitted to record, and when there are no claims or judgments against the principal in the bond on account of damage to property or injury to or death of any person or persons resulting from the ownership or operation of a motor vehicle by the principal arising out of the cause of action which necessitated the filing of the bond, the clerk of the superior court of the county in which the bond was admitted to record shall thereupon record the certificate of cancellation, which shall discharge the lien of the bond on the real property of the sureties. The cost of such recording shall be upon such sureties.

(g) If a final judgment rendered against the principal on the bond filed with the commissioner is not satisfied within 30 days after its rendition, the judgment creditor may, for his own use and benefit and at his sole expense, bring an action on the bond in the name of the state against the company or persons issuing the bond.

(h) When the sureties on the bond are individuals, the judgment creditor may proceed against any or all parties to the bond at law for a judgment or in equity for a decree and foreclosure of the lien on the real property of the sureties. The proceeding whether at law or in equity may be against one, all, or any intermediate number of parties to the bond; and, when less than all are joined, another or others may be impleaded in the same proceeding; and, after final judgment or decree, other proceedings may be instituted until full satisfaction is obtained.

(i) The department may, upon written notice to all parties involved, reduce or increase the amount of security ordered in any case within six months after the date of the accident if in its judgment the amount ordered is excessive or inadequate. In case the security originally ordered has been deposited, the excess deposit over the reduced amount ordered shall be returned to the depositor or his personal representative.

(j) Whenever erroneous information is given the department with respect to the matters set forth in paragraph (1), (2), or (3) of Code Section 40–9–34, the department shall take appropriate action as provided in Code Section 40–9–32 after receipt of correct information with respect to such matters.

§ 40–9–39. Custody, disposition, and return of deposit

(a) The department shall place any security deposited with it under this chapter in the general fund of the state treasury. Such security shall be applicable and available only:

(1) For the payment of any settlement agreement covering any claim arising out of the accident upon instruction of the person who made the deposit; or

(2) For the payment of a judgment or judgments for damages arising out of the accident rendered against the person required to make the deposit in an action at law begun not later than one year after the deposit of such security or within one year after the date of deposit of any security following failure to make payments under an agreement to pay.

(b) Upon the expiration of one year from the date of any deposit of security, any security remaining on deposit shall be returned to the person who made such deposit or to his legal representative, if evidence satisfactory to the department has been filed with it:

(1) That no action for damages arising out of the accident for which deposit was made is pending against any person on whose behalf the deposit was made; and

(2) That there does not exist any unpaid judgment rendered against any such person in any such action.

In any case where the depositor shall die while security is on deposit with the department, the commissioner is authorized to return such security to the executor or administrator of the estate of the deceased depositor, or, if there is no executor or administrator and the amount on deposit is $1,000.00 or less, the commissioner is authorized to pay over such deposit to the surviving spouse or heirs at law of the deceased depositor. In any event, no deposit shall be returned unless and until satisfactory evidence has been filed by the person seeking such return, under the same conditions as provided in paragraph (1) of this subsection for the filing of such evidence by the depositor.

(c) In any case where, after the expiration of one year from the date of any deposit of security, the commissioner is unable to contact the depositor by mail or receives no response from the depositor, the commissioner shall have a notice printed in the local newspaper in which legal notices are usually printed, in the county of the last known address of the depositor, once each week for four consecutive weeks. Such notice shall specify that the depositor is eligible for the return of the security subject to the provisions of this Code section and shall further specify that, if no response is received from the notice within one year from the date on which the last notice is printed, the security will be deposited in the general fund of the state treasury. If no response to the notice is received by the commissioner, the commissioner shall dispose of the security as provided in this subsection. The cost of the publication shall be deducted from the security on deposit, regardless of whether the security is returned to the depositor or his legal representative or deposited in the state treasury. After such security is deposited in the general fund of the state treasury, the state treasurer is authorized to return such security to the proper person as provided in this Code section as a refund, in the event proof is furnished to the commissioner that such person is the proper person to whom such security should be refunded. The state treasurer shall make no such refund without a certification by the commissioner of the name of the person to whom the refund should be made.

(d) Upon receiving a certificate from the clerk of any court wherein a judgment has been obtained against the person in whose behalf the deposit was made, which certificate shall set forth the parties to the litigation, the time, place, and date of the accident, and the fact that the judgment is unsatisfied of record and that the time for appeal has expired, it shall be the duty of the commissioner to transmit immediately to the clerk of such court any cash security held by the department, to be applied to the satisfaction of the judgment and any accrued interest and court costs. Any additional security over and above the amount required to satisfy the foregoing shall be returned by the department to the depositor.

The local law enforcement agency shall furnish such information to the person removing such vehicle within three business days after receipt of such request.

(c) If any motor vehicle removed under conditions set forth in subsection (a) or (b) of this Code section is determined to be a stolen motor vehicle, the local law enforcement officer or agency shall notify the Georgia Crime Information Center of the location of such motor vehicle within 72 hours after receiving notice that such motor vehicle is a stolen vehicle.

(d) If any motor vehicle removed under conditions set forth in subsection (a) or (b) of this Code section is determined not to be a stolen vehicle or is not a vehicle being repaired by a repair facility or is not being stored by an insurance company providing insurance to cover damages to the vehicle, the person removing or storing such motor vehicle shall, within seven calendar days of the day such motor vehicle was removed or one business day after the information is furnished to the remover or storer pursuant to subsection (a) or (b) of this Code section, whichever is later, notify all owners, if known, by written acknowledgment signed thereby or by certified or registered mail or statutory overnight delivery, of the location of such motor vehicle, the fees connected with removal and storage of such motor vehicle, and the fact that such motor vehicle will be deemed abandoned under this chapter unless the owner, security interest holder, or lienholder redeems such motor vehicle within 30 days of the day such vehicle was removed.

(e) If none of the owners redeems such motor vehicle as described in subsection (d) of this Code section, or if a vehicle being repaired by a repair facility or being stored by an insurance company providing insurance to cover damages to the vehicle becomes abandoned, the person removing or storing such motor vehicle shall, within seven calendar days of the day such vehicle became an abandoned motor vehicle, give notice by electronic means as provided by the State of Georgia through its agencies and authorities, in writing, or by sworn statement, on the form prescribed by the state revenue commissioner, to the Department of Revenue with a research fee as fixed by rule or regulation payable to the Department of Revenue, stating the manufacturer's vehicle identification number, the license number, the fact that such vehicle is an abandoned motor vehicle, the model, year, and make of the vehicle, the date the vehicle became an abandoned motor vehicle, the date the vehicle was removed, and the present location of such vehicle and requesting the name and address of all owners of such vehicle. If the form submitted is rejected because of inaccurate or missing information, the person removing or storing the vehicle shall resubmit, within seven calendar days of the date of the rejection, a corrected notice form together with an additional research fee as fixed by rule or regulation payable to the Department of Revenue. Each subsequent corrected notice, if required, shall be submitted with an additional research fee as fixed by rule or regulation payable to the Department of Revenue. If a person removing or storing the vehicle has knowledge of facts which reasonably indicate that the vehicle is registered or titled in a certain other state, such person shall check the motor vehicle records of that other state in the attempt to ascertain the identity of the owner of the vehicle. Research requests may be submitted and research fees made payable to the office of the tax commissioner and deposited in the general fund for the county in which the remover's or storer's place of business is located in lieu of the Department of Revenue, but in like manner, if such office processes motor vehicle records of the Department of Revenue.

(f) Upon ascertaining the owners of such motor vehicle, the person removing or storing such vehicle shall, within five calendar days, by certified or registered mail or statutory overnight delivery, notify all known owners of the vehicle of the location of such vehicle and of the fact that such vehicle is deemed abandoned and shall be disposed of if not redeemed.

(g) If the identity of the owners of such motor vehicle cannot be ascertained, the person removing or storing such vehicle shall place an advertisement in a newspaper of general circulation in the county where such vehicle was obtained or, if there is no newspaper in such county, shall post such advertisement at the county courthouse in such place where other public notices are posted. Such advertisement shall run in the newspaper once a week for two consecutive weeks or shall remain posted at the courthouse for two consecutive weeks. The advertisement shall contain a complete description of the motor vehicle, its license and manufacturer's vehicle identification numbers, the location from where such vehicle was initially removed, the present location of such vehicle, and the fact that such vehicle is deemed abandoned and shall be disposed of if not redeemed.

(h) The Department of Revenue shall provide to the Georgia Crime Information Center all relevant information from sworn statements described in subsection (e) of this Code section for a determination of whether the vehicles removed have been entered into the criminal justice information system as stolen vehi-

cles. The results of the determination shall be provided electronically to the Department of Revenue.

(i) Any person storing a vehicle under the provisions of this Code section shall notify the Department of Revenue if the vehicle is recovered, is claimed by the owner, is determined to be stolen, or for any reason is no longer an abandoned motor vehicle. Such notice shall be provided within seven calendar days of such event.

(j) If vehicle information on the abandoned motor vehicle is not in the files of the Department of Revenue, the department may require such other information or confirmation as it determines is necessary or appropriate to determine the identity of the vehicle.

(k) Any person who does not provide the notice and information required by this Code section shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished as for a misdemeanor, shall not be entitled to any storage fees, shall not be eligible to contract with or serve on a rotation list providing wrecker services for this state or any political subdivision thereof, and shall not be licensed by any municipal authority to provide removal of improperly parked cars under Code Section 44–1–13.

(*l*) Any person who knowingly provides false or misleading information when providing any notice or information as required by this Code section shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished as for a misdemeanor.

Historical and Statutory Notes

The 2005 amendment by Act 68 rewrote subsec. (e); and in subsecs. (h), (i) and (j) substituted "Department of Revenue" for "Department of Motor Vehicle Safety". Prior to amendment, subsec. (e) had read:

"(e) If none of the owners redeems such motor vehicle as described in subsection (d) of this Code section, or if a vehicle being repaired by a repair facility or being stored by an insurance company providing insurance to cover damages to the vehicle becomes abandoned, the person removing or storing such motor vehicle shall, within seven calendar days of the day such vehicle became an abandoned motor vehicle, give notice in writing, by sworn statement, on the form prescribed by the commissioner, to the Department of Motor Vehicle Safety with a research fee of $ 2.00 payable to the Department of Motor Vehicle Safety, stating the manufacturer's vehicle identification number, the license number, the fact that such vehicle is an abandoned motor vehicle, the model, year, and make of the vehicle, the date the vehicle became an abandoned motor vehicle, the date the vehicle was removed, and the present location of such vehicle and requesting the name and address of all owners of such vehicle. If the form submitted is rejected because of inaccurate or missing information, the person removing or storing the vehicle shall resubmit, within seven calendar days of the date of the rejection, a corrected notice form together with an additional research fee of $ 2.00 payable to the Department of Motor Vehicle Safety. Each subsequent corrected notice, if required, shall be submitted with an additional research fee of $ 2.00 payable to the Department of Motor Vehicle Safety. If a person removing or storing the vehicle has knowledge of facts which reasonably indicate that the vehicle is registered or titled in a certain other state, such person shall check the motor vehicle records of that other state in the attempt to ascertain the identity of the owner of the vehicle. Research requests may be submitted and research fees made payable to the office of the tax commissioner and deposited in the general fund for the county in which the remover's or storer's place of business is located in lieu of the Department of Motor Vehicle Safety, but in like manner, if such office processes motor vehicle records of the Department of Motor Vehicle Safety."

The 2008 amendment by Act 711, in subsecs. (a) and (b), inserted "or from the State of Georgia by direct electronic access as provided through its agencies and authorities"; and, in subsec. (e), inserted "by electronic means as provided by the State of Georgia through its agencies and authorities".

§ 40–11–3. Peace officers authorized to remove vehicles from public property; liability for gross negligence; notification of removal

(a) Any peace officer who finds a motor vehicle which has been left unattended on a public street, road, or highway or other public property for a period of at least five days shall be authorized to cause such motor vehicle to be removed to a garage or other place of safety, if such peace officer reasonably believes that the person who left such motor vehicle unattended does not intend to return and remove such motor vehicle.

(b) Any law enforcement officer who finds a motor vehicle which has been left unattended on the state highway system shall be authorized to cause such motor vehicle to be removed immediately to a garage or other place of safety when such motor vehicle poses a threat to public health or safety or to mitigate congestion. Any peace officer who finds a motor vehicle which has been left unattended on a public street, road, or highway or other public property, other than the state highway system, shall be authorized immediately to cause such motor vehicle to be removed immediately to a garage or other place of safety when such motor vehicle poses a threat to public health or safety or to mitigate congestion.

(c) Any peace officer who, under this Code section, causes any motor vehicle to be removed to a garage or other place of safety shall be liable for gross negligence only.

(d)(1) Any peace officer or the law enforcement agency which causes a motor vehicle to be removed to a garage or other place of safety or which is notified of the removal of a motor vehicle from private property shall within 72 hours from the time of removal or notice and if the owner is unknown attempt to determine vehicle ownership through official inquiries to the Department of Revenue vehicle registration and vehicle title files. These inquiries shall be made from authorized criminal justice information system network terminals.

(2) If the name and address of the last known registered owner of the motor vehicle is obtained from the Georgia Crime Information Center, the peace officer who causes the motor vehicle to be removed shall, within three calendar days, make available to the person removing such motor vehicle the name and address of the last known registered owner of such motor vehicle, the owner of the motor vehicle as recorded on the title of such vehicle, and all security interest holders or lienholders. If such information is not available, the peace officer shall, within three calendar days, notify the person removing or storing such vehicle of such fact.

(3) Law enforcement agencies shall make record entries in Georgia criminal justice information system files through authorized criminal justice information system network terminals after an unsuccessful attempt to obtain vehicle ownership information and shall remove the record entries when ownership is determined.

Historical and Statutory Notes

The 2005 amendment by Act 68 in subsec. (b) deleted "or employee of the Department of Motor Vehicle Safety to whom law enforcement authority has been designated pursuant to Code Section 40–16–4" prior to "who finds a motor vehicle" in the first sentence; and in subsec. (d)(1) substituted "Department of Revenue" for "Department of Motor Vehicle Safety".

§ 40–11–3.1. Peace officers authorized to perform unattended vehicle check on unattended vehicles

(a) It shall be the duty of any peace officer who discovers a motor vehicle which has been left unattended on a public street, road, or highway or other public property to immediately perform an unattended vehicle check on such motor vehicle, unless there is displayed on such motor vehicle an unattended vehicle check card indicating that another peace officer has already performed such an unattended vehicle check. For purposes of this Code section, an unattended vehicle check shall consist of such actions as are reasonably necessary to determine that the unattended vehicle does not contain an injured or incapacitated person and to determine that the unattended vehicle does not pose a threat to public health or safety.

(b) A peace officer completing an unattended vehicle check shall complete and attach to the vehicle an unattended vehicle check card. Unattended vehicle check cards shall be in such form, and shall be attached to vehicles in such manner, as may be specified by rule or regulation of the Department of Public Safety; and to the extent that sufficient funds are available to the department, the department may distribute such forms free of charge to law enforcement agencies in this state. Unattended vehicle check cards shall be serially numbered; shall be of a distinctive color and shape, so as to be readily visible to passing motorists; and shall contain spaces for the investigating police officer to indicate the location of the vehicle, the date and time of the completion of the unattended vehicle check, and the name of such peace officer's law enforcement agency. A detachable stub, which shall be filed with the investigating peace officer's law enforcement agency, shall bear the same serial number and shall contain the same information, together with the identity of the investigating peace officer and the license plate number and other pertinent identifying information relating to the abandoned vehicle.

(c) Nothing in the Code section shall limit the otherwise applicable authority of a peace officer to have an unattended motor vehicle removed to a garage or other place of safety.

(d) It shall be unlawful for any person other than a peace officer to attach a genuine or counterfeit unattended motor vehicle check card to a motor vehicle; and any person convicted of violating this subsection shall be guilty of a misdemeanor.

Laws 1988, p. 688, § 1; Laws 2000, p. 951, § 7–1.

§ 40–11–3.2. Unlawful to remove motor vehicle from certain paid private parking lots between midnight and noon of following day

(a) It shall be unlawful for the owner or operator of a paid private parking lot or paid private parking facility located within 500 feet of an establishment which serves alcoholic beverages for consumption on the premises to remove, tow, or immobilize or cause to be removed, towed, or immobilized a motor vehicle left in such lot or facility between midnight and noon of the following day. Nothing in this Code section shall prohibit the owner of such a parking lot or facility from charging a penalty not to exceed $ 25.00 in excess of normal parking fees for vehicles which remain on the property during such period without authorization. No owner or operator of such a parking lot or facility shall be liable for any damages to any motor vehicle remaining on the property during such period without authorization. Nothing in this Code section shall prohibit a resident or a business owner from towing or removing or causing to be towed or removed a motor vehicle left on private property. For purposes of this subsection, the terms "paid private parking lot" and "paid private parking facility" mean private parking lots where the owner or operator of a motor vehicle pays a valuable consideration for the right to park in such parking lot or parking facility.

(b) Any person violating the provisions of subsection (a) of this Code section shall be guilty of a misdemeanor.

Laws 2002, p. 563, § 3.

§ 40–11–4. Fees and liens for removal or storage; jurisdiction

(a) Any person who removes or stores any motor vehicle which is or becomes an abandoned motor vehicle shall have a lien on such vehicle for the reasonable fees connected with such removal or storage plus the cost of any notification or advertisement. Such lien shall exist if the person moving or storing such vehicle is in compliance with Code Section 40–11–2.

(b) The lien acquired under subsection (a) of this Code section may be foreclosed in any court which is competent to hear civil cases, including, but not limited to, magistrate courts. Liens shall be foreclosed in magistrate courts only when the amount of the lien does not exceed the jurisdictional limits established by law for such courts.

Laws 1972, p. 342, § 3; Laws 1980, p. 995, § 4; Laws 1981, p. 469, § 3; Laws 1983, p. 884, § 3–28; Laws 1984, p. 22, § 40; Laws 1998, p. 1305, § 2; Laws 2000, p. 951, § 7–1.

§ 40–11–5. Foreclosure of lien

All liens acquired under Code Section 40–11–4 shall be foreclosed as follows:

(1) Any proceeding to foreclose a lien on an abandoned motor vehicle must be instituted within one year from the time the lien is recorded or is asserted by retention;

(2) The person desiring to foreclose a lien on an abandoned motor vehicle shall, by certified or registered mail or statutory overnight delivery, make a demand upon the owners for the payment of the reasonable fees for removal and storage plus the costs of any notification or advertisement. Such written demand shall include an itemized statement of all charges and may be made concurrent with the notice required by subsection (f) of Code Section 40–11–2. Such demand shall be made on a form prescribed by rule or regulation of the Department of Revenue and shall notify the owner of his or her right to a judicial hearing to determine the validity of the lien. The demand shall further state that failure to return the written demand to the lien claimant, file with a court of competent jurisdiction a petition for a judicial hearing, and provide the lien claimant with a copy of such petition, all within ten days of delivery of the lien claimant's written demand, shall effect a waiver of the owner's right to such a hearing prior to sale. The form shall also provide the suspected owner with the option of disclaiming any ownership of the vehicle, and his or her affidavit to that effect shall control over anything contrary in the records of the Department of Revenue. No such written demand shall be required if the identity of the owner cannot be ascertained and the notice requirements of subsection (g) of Code Section 40–11–2 have been complied with;

(3)(A) If, within ten days of delivery to the appropriate address of the written demand required by paragraph (2) of this Code section, the owner of the abandoned motor vehicle fails to pay or file with the court a petition for a judicial hearing with a copy to the lien claimant in accordance with the notice provided pursuant to paragraph (2) of this Code section, or if the owner of the abandoned motor vehicle cannot be ascertained, the person removing or storing the abandoned motor vehicle may foreclose such lien. The person asserting such lien may move to foreclose by making an affidavit to a court of competent jurisdiction, on a form prescribed by rule or regulation of the Department of Revenue, showing all facts necessary to constitute such lien and the amount claimed to be due. Such affidavit shall aver that the notice requirements of Code Section 40–11–2 have been complied with, and such affidavit shall also aver that a demand for payment in accor-

dance with paragraph (2) of this Code section has been made without satisfaction or without a timely filing of a petition for a judicial hearing or that the identity of the owner cannot be ascertained. The person foreclosing shall verify the statement by oath or affirmation and shall affix his or her signature thereto.

(B) Regardless of the court in which the affidavit required by this paragraph is filed, the fee for filing such affidavit shall be $10.00 per motor vehicle upon which a lien is asserted;

(4) If no timely petition for a hearing has been filed with a court of competent jurisdiction, then, upon such affidavit's being filed by the lien claimant pursuant to paragraph (3) of this Code section, the lien will conclusively be deemed a valid one and foreclosure thereof allowed;

(5) If a petition for a hearing is filed with a court of competent jurisdiction within ten days after delivery of the lien claimant's demand, a copy of which demand shall be attached to the petition, the court shall set such a hearing within ten days of filing of the petition;

(6) Upon the filing of such petition by an owner, neither the lien claimant nor the court may sell the motor vehicle, although possession of the motor vehicle may be retained by the lien claimant or obtained by the court in accordance with the order of the court which sets the date for the hearing;

(7) If, after a full hearing, the court finds that a valid debt exists, then the court shall authorize foreclosure upon and sale of the motor vehicle subject to the lien to satisfy the debt if such debt is not otherwise immediately paid;

(8) If the court finds the actions of the person asserting the lien in retaining possession of the motor vehicle were not taken in good faith, then the court, in its discretion, may award damages to the owner, any party which has been deprived of the rightful use of the vehicle, or the lessee due to the deprivation of the use of the motor vehicle; and

(9) If an affidavit meeting the requirements of paragraph (3) of this Code section is filed and no petition for a hearing is timely filed, or if, after a full hearing, the court determines that a valid debt exists, the court shall issue an order authorizing the sale of such motor vehicle. However, the holder of a security interest in or a lien on the vehicle, other than the holder of a lien created by Code Section 40–11–4, shall have the right, in the order of priority of such security interest or lien, to pay the debt and court costs. If the holder of a security interest or lien does so pay the debt and court costs, he or she shall have the right to possession of the vehicle, and his or her security interest in or lien on such vehicle shall be increased by the amount so paid. A court order shall be issued to this effect, and in this instance there shall not be a sale of the vehicle.

The 2005 amendment by Act 68, in pars. (2) and (3)(A) substituted "Department of Revenue" for "Department of Motor Vehicle Safety" throughout.

Any person who fails to comply with the requirements of this subsection shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished as for a misdemeanor.

§ 40–11–9. Procedures for determination that vehicle is a derelict motor vehicle; disposition of derelict motor vehicles

(a) If a motor vehicle has been left unattended on private property for not less than two days or on public property for not less than three days without the owner or driver making any attempt to recover such vehicle or to leave a conspicuously placed note that such owner or driver intends to return for such vehicle; or, if a conspicuous note was left, if the motor vehicle has been left unattended for not less than five days and if because of damage, vandalism, theft, or fire the vehicle is damaged to the

extent that its restoration to an operable condition would require the replacement of one or more major component parts or involves any structural damage that would affect the safety of the vehicle; or if there is evidence that the vehicle was inoperable due to major mechanical breakdown at the time it was left on the property, such as the engine, transmission, or wheels missing, no coolant in the cooling system, no oil in the engine, or burned fluid in the transmission; or if the vehicle is seven or more years old; or if the vehicle is not currently tagged or is not verifiable by the state as to who is the current owner or lienholder of the vehicle; or if the vehicle has been abandoned to a wrecker service by an insurance company and the owner following the insurance company's making a total loss payment, then any person removing such vehicle shall within 72 hours of removing such vehicle obtain the identity of and address of the last known registered owner of the vehicle, the owner of the vehicle as recorded on the certificate of title of such vehicle, and any security interest holder or lienholder on such vehicle from the local law enforcement agency of the jurisdiction in which the vehicle was located. If the law enforcement agency shows no information on the vehicle, then a request for such information shall be sent to the Department of Revenue. Within 72 hours after obtaining such information, the person removing such vehicle shall, by certified mail or statutory overnight delivery, return receipt requested, notify the registered owner, title owner, and security interest holder or lienholder of the vehicle that such vehicle will be declared a derelict vehicle and the title to such vehicle will be canceled by the Department of Revenue if such person or persons fail to respond within ten days of receipt of such notice. The state revenue commissioner shall prescribe the form and content of such notice. If the registered owner, title owner, or security interest holder or lienholder fails to respond within 30 days from the date of such notice by certified mail or statutory overnight delivery, and if the vehicle is appraised as having a total value of less than $300.00, the vehicle shall be considered to be a derelict vehicle. The value of the vehicle shall be determined as 50 percent of the wholesale value of a similar car in the rough section of the *National Auto Research Black Book, Georgia Edition,* or if a similar vehicle is not listed in such book or, regardless of the model year or book value of the vehicle, if the vehicle is completely destroyed by fire, flood, or vandalism or is otherwise damaged to the extent that restoration of the vehicle to a safe operable condition would require replacement of more than 50 percent of its major component parts, the person shall obtain an appraisal of the motor vehicle from the local law enforcement agency's auto theft section with jurisdiction in the county or municipality where such vehicle is located. Any person removing a vehicle shall complete a form, to be provided by the Department of Revenue, indicating that the vehicle meets at least four of the above-stated eight conditions for being a derelict vehicle and shall file such form with the Department of Revenue and the law enforcement agency with jurisdiction from which such vehicle was removed.

(b) Upon determination that a vehicle is a derelict motor vehicle as provided in subsection (a) of this Code section, it may be disposed of by sale to a person who scraps, dismantles, or demolishes motor vehicles, provided that such vehicle may be sold for scrap or parts only and shall in no event be rebuilt or sold to the general public. Any person disposing of a derelict motor vehicle shall, prior to disposing of such vehicle, photograph such vehicle and retain with such photograph the appraisal required in subsection (a) of this Code section and the notice to the Department of Revenue required in this subsection for a period of three years after its disposition. Such person shall also notify the Department of Revenue of the disposition of such vehicle in such manner as may be prescribed by the state revenue commissioner. The Department of Revenue shall cancel the certificate of title for such vehicle and shall not issue a rebuilt or salvage title for such vehicle.

(c) For purposes of this Code section, the term "derelict vehicle" shall not include a vehicle which does not bear a manufacturer's vehicle identification number plate or a vehicle identification number plate assigned by a state jurisdiction.

(d) Any person who abandons a derelict motor vehicle on public or private property shall be guilty of a misdemeanor and upon conviction shall be fined not more than $500.00 and shall pay all costs of having such derelict motor vehicle removed, stored, and sold as provided for in this Code section. Notwithstanding any other provision of law to the contrary, such fines shall be disposed as follows:

(1) If the abandoned motor vehicle was removed other than at the request of a peace officer, the moneys arising from the fine shall be divided equally and paid into the general fund of the county in which the offense was committed and into the general fund of the municipality, if any, in which the offense was committed;

(2) If the abandoned motor vehicle was removed at the request of a police officer of a municipality, the moneys arising from the fine shall be paid into the general fund of the municipality;

(3) If the abandoned motor vehicle was removed at the request of a county sheriff, deputy sheriff, or county police officer, the moneys arising from the fine shall be paid into the general fund of the county in which the offense was committed; and

(4) If the abandoned motor vehicle was removed at the request of a member of the Georgia State Patrol or other employee of the State of Georgia, the moneys arising from the fine shall be paid into the general fund of the county in which the offense was committed.

(e) Any person removing a derelict motor vehicle who fails to comply with the requirements of this Code section or who knowingly provides false or misleading information when providing any notice or information required by this Code section shall be guilty of a misdemeanor.

(f) Neither the State of Georgia nor any state agency nor the person removing, storing, and processing the vehicle unless recklessly or grossly negligent shall be liable to the owner of a vehicle declared to be a derelict motor vehicle pursuant to this Code section or an abandoned motor vehicle.

Within 30 days from the date he or she receives such notice, the district attorney of the judicial circuit shall file in the superior court of the county in which the property is located an action for condemnation of the property. The proceedings shall be brought in the name of the state, and the action shall be verified by a duly authorized agent of the state in the manner required by law. The action shall describe the property, state its location, state its present custodian, state the name of the owner, if known, to the duly authorized agent of the state, allege the essential elements which are claimed to exist, and shall conclude with a prayer of due process to enforce the forfeiture. § 40–13–21. Jurisdiction of probate courts and municipal courts

(a) The probate courts and municipal courts of the incorporated towns and cities of this state, acting by and through the judges or presiding officers thereof, shall have the right and power to conduct trials, receive pleas of guilty, and impose sentence, in the manner required by law, upon defendants violating any and all criminal laws of this state relating to traffic upon the public roads, streets, and highways of this state where the penalty for the offense does not exceed that of the grade of misdemeanor.

(b) The probate court shall have jurisdiction to issue warrants, try cases, and impose sentence thereon in all misdemeanor cases arising under the traffic laws of this state in all counties of this state in which there is no city, county, or state court, provided the defendant waives a jury trial. Notwithstanding any provision of law to the contrary, all municipal courts are granted jurisdiction to try and dispose of misdemeanor traffic offenses arising under state law except violations of Code Section 40–6–393 and to impose any punishment authorized for such offenses under general state law, whether or not there is a city, county, or state court in such county, if the defendant waives a jury trial and the offense arises within the territorial limits of the respective jurisdictions as now or hereafter fixed by law.

(c) In any traffic misdemeanor trial, a judge of the probate court, upon his or her own motion, may request the assistance of the district attorney of the circuit in which the court is located or solicitor-general of the state court of the county to conduct the trial on behalf of the state. If the defendant wishes a trial by jury, he shall notify the court and, if reasonable cause exists, he shall be immediately bound over to the court in the county having jurisdiction to try the offense, wherein a jury may be impaneled. Where a cash bond, property bond, or driver's license in lieu of bond has been posted, the bond shall be transferred to the court assuming jurisdiction, and the defendant shall not be required to post a new bond by the court assuming jurisdiction.

(b) No waiver of a trial by jury may be withdrawn when such waiver has been interposed for the purpose of delay. Except with approval of the court, no waiver of a trial by jury may be

withdrawn after the commencement of the trial or the filing of motions on behalf of the defendant, whichever comes first.

Such docket shall be the same in each probate court handling traffic misdemeanor cases and shall be on a form to be prescribed by the Department of Law. Such docket shall be paid for from the treasury of the county in which such court is located. § 40–13–26. Sentences, costs, fines, fees; urban interstate system violations

(a) Defendants who plead guilty or who are convicted under this article shall be required to serve their sentences in such manner as is provided for by law in misdemeanor cases. In case a fine is imposed and paid, the officers of court, where on fee basis, shall first be paid their costs arising in such case. After the payment of all costs, the remainder of such fine shall be paid into the county treasury in the event the case is disposed of by the probate court; if the case is disposed of by the municipal court of an incorporated municipality, the remainder of such fine or fines shall be paid into the treasury of the municipality where the court is located, except that where such courts have jurisdiction beyond the corporate limits of a municipality, and the offense occurs outside the municipality, the fine shall be paid into the county treasury; provided, however, that in any case where a fine was imposed for violation of any traffic offense provided in or authorized by Chapter 6 of this title on any "urban interstate system" if the arrest or citation in such case was made or issued by a member of the Uniform Division of the Department of Public Safety's motorcycle enforcement unit, the remainder of such fine shall be remitted to the Department of Public Safety for the maintenance and enhancement of the Department's motorcycle program. The judge of the probate court or the person presiding over the municipal court must pay into the county treasury, municipal treasury, or Department of Public Safety by the fifteenth day of each month the remainder of all fines for the preceding month. Such payment must be accompanied by a list showing the name of the defendant in each case, the fine imposed in each case, the costs in each case and to whom paid, and the balance which is being paid into the treasury. The official making such payment must be given a written receipt by the person receiving the payment. No officer receiving a salary will receive any fees for arresting or attending court in any case arising under this article, but the usual fees must be assessed, and, if the arresting officer is not entitled to the costs, they must go to the county or city to which the fine is paid or Department of Public Safety as required by this Code section.

(b) As used in this Code section, the term "urban interstate system" means a portion of the national system of interstate and defense highways which:

After the payment of all costs, the remainder of such fine shall be paid into the county treasury in the event the case is disposed of by the probate court; if the case is disposed of by the municipal court of an incorporated municipality, the remainder of such fine or fines shall be paid into the treasury of the municipality where the court is located, except that where such courts have jurisdiction beyond the corporate limits of a municipality, and the offense occurs outside the municipality, the fine shall be paid into the county treasury. The judge of the probate court or the person presiding over the municipal court must pay into the county treasury or municipal treasury by the fifteenth day of each month the remainder of all fines for the preceding month. Such payment must be accompanied by a list showing the name of the defendant in each case, the fine imposed in each case, the costs in each case and to whom paid, and the balance which is being paid into the treasury. The official making such payment must be given a written receipt by the person receiving the payment. No officer receiving a salary will receive any fees for arresting or attending court in any case arising under this article, but the usual fees must be assessed, and, if the arresting officer is not entitled to the costs, they must go to the county or city to which the fine is paid."

Laws 2006, Act 470, § 3, as amended by Laws 2007, Act 18, § 15A; Laws 2010, Act 368, 2–1, provides:

entered from the probate court to the superior court, provided that the defendant shall be entitled to bail and shall be released from custody upon giving the bond as is provided for appearances in criminal cases in the courts of this state. Such bond shall have the same conditions as appearance bonds in criminal cases. The appeal to the superior court shall not be a de novo investigation before a jury but shall be on the record of the hearing as certified by the judge of that court who presided at the hearing below.

(c) Except for orders correcting clerical errors, the Department of Driver Services shall not recognize as valid any change or modification order nor make any changes to a driver's history unless such change or modification as submitted to the department is in strict compliance with the requirements set forth in subsections (a) and (b) of this Code section.

(d) In the case of municipal courts, notice to the city attorney, or to the solicitor in those cases where the municipal court has a solicitor, shall be deemed to be notice as provided for in this Code section.

(e) In all cases wherein notice is required in this Code section, same shall be deemed sufficient if sent by certified mail or statutory overnight delivery, return receipt requested, with adequate postage thereon, to the correct address of the prosecuting official.

(f) Notwithstanding other laws and specifically notwithstanding Code Section 17–7–93, a motion to change or modify a traffic law sentence or judgment may, at any time prior to the expiration of the term of court following the term at which judgment and sentence were pronounced or within 90 days of the time judgment and sentence were pronounced, whichever time period is greater, be made by the defendant and accepted by the court as provided in this Code section.

In every court of this state having jurisdiction over the violation of traffic laws or traffic ordinances, the judge, or the judges where there is more than one judge, may provide by written order for the establishment of a traffic violations bureau for the handling or disposition of certain traffic cases in substantial compliance with this article. The court shall promulgate and provide to the clerk of the traffic violations bureau a list of the traffic offenses which shall be handled and disposed of by the traffic violations bureau. However, nothing in this article shall authorize the judge of such court to employ any person or persons to administer this article.

Laws 1966, p. 381, § 1; Laws 1992, p. 2785, § 29.

§ 40–13–51. Clerk appointed to receive money; bond

(a) The court may appoint a clerk or deputy clerk or deputy clerks, who shall be named in the order establishing the traffic violations bureau, for the purpose of receiving money as provided in this article. Any deputy clerk so appointed shall be under the direct supervision of and attached to the office of the clerk of the court.

Upon each traffic offense card shall appear: the name and address of the person charged with a traffic offense; the date of the birth of such person; the sex of such person; and his driver's license number. The card shall be numbered so that it may show any previous traffic offense, giving the date of the offense, the trial date, the citation number, the disposition of the case, and the amount of any fine paid.

Laws 1966, p. 381, § 5.

§ 40–13–53. Release of offenders upon citation and complaint; excepted offenses

If such officer has reasonable and probable grounds to believe that the person will not obey such citation and agreement to appear, the officer may require such person to surrender his driver's license in accordance with Code Section 17–6–11.

(b) The following offenses shall not be handled or disposed of by a traffic violations bureau:

(1) Any offense for which a driver's license may be suspended by the commissioner of driver services;

(2) Any motor vehicle registration violation;

(3) A violation of Code Section 40–5–20;

(4) Speeding in excess of 30 miles per hour over the posted speed limit; or

(5) Any offense which would otherwise be a traffic violations bureau offense but which arose out of the same conduct or occurred in conjunction with an offense which is excluded from the jurisdiction of the traffic violations bureau. Any such offense shall be subject to the maximum punishment set by law.

Laws 1966, p. 381, § 3; Laws 1983, p. 1000, § 16; Laws 1992, p. 2785, § 29; Laws 2000, p. 951, § 7A–4; Laws 2005, Act 68, § 22–5, eff. July 1, 2005.

§ 40–13–54. Disposition of original and copies of citations

The original citation and complaint shall be sent by the officer issuing it to the traffic violations bureau of the court within 24 hours of the arrest. The defendant named in the citation shall be given the second copy. The officer issuing the citation and complaint shall retain one copy for himself or herself, and the court may, by order, provide that an additional copy shall be made for the use of any municipality in the county or the Department of Driver Services.

Laws 1966, p. 381, §§ 7, 8; Laws 2000, p. 951, § 7A–5; Laws 2005, Act 68, § 22–6, eff. July 1, 2005.

§ 40–13–55. Cash bonds to be accepted

Any person cited for any traffic offense under the jurisdiction of the traffic violations bureau of the court shall be permitted to give a cash bond for his appearance under the terms and conditions as set forth upon the citation and complaint given to him at the time he is cited by the arresting officer for a traffic violation.

Laws 1966, p. 381, § 10.

§ 40–13–56. Officers prohibited from accepting cash bonds

§ 40–13–57. Discretion of arresting officer to bring offender before bureau; cash bond

In the event an officer has authority to issue citation and complaint as set forth in Code Section 40–13–53 but declines to do so because of his belief that such person will not obey the citation and agreement to appear, such officer may bring such person to the traffic violations bureau and such person may be allowed to post a cash bond for his appearance in accordance with the schedule established by the court.

Laws 1966, p. 381, § 4; Laws 1992, p. 2785, § 29.

§ 40–13–58. Cash bonds; effect of forfeiture

Where a defendant cited for a traffic violation posts a cash bond according to the schedule set up by court order and fails to appear in court at the term of court and on the day set in the original citation and complaint, then and in that event, such failure shall be construed as an admission of guilt and the cash bond may be forfeited without the necessity for the statutory procedure provided for the forfeiture of statutory bail bonds. A judgment of guilty may be entered accordingly, ordering the case disposed of and settled. The proceeds of the cash bond shall be applied and distributed as any fine imposed by said court would be. Nothing in this Code section shall be construed as preventing the judge from ordering the defendant to appear and stand trial.

Laws 1966, p. 381, § 10.

§ 40–13–59. Information to be recorded on summons and driver history cards; filing citation and complaint; recording of forfeiture order

(a) The traffic violations bureau of the court shall record on the prescribed form, as set out in Code Section 40–13–52, the driving record of the defendant. If there is no previous record of the driver's history, the citation appearing on the original citation and complaint shall be entered on the driver's traffic offense card; and each traffic offense thereafter shall be entered thereon, with the disposition thereof, up to a period of four years.

(b) All the pending cases which appear on the citation and complaint issued by the arresting officer, as provided for in this article, shall be filed at the cashier's desk in the traffic violations bureau of the court and shall be retained there up until 72 hours, or such other period of time as the judge shall fix by order, prior to the time the case is set for trial in the court. If cash bond is posted according to the schedules prescribed by order of the judge at any time up to 72 hours, or such other period of time as the judge shall fix by order, prior to the date of the court appearance, as specified in the citation and complaint, the same shall be entered on the driver's traffic offense card and an entry shall be made thereon that the driver has posted a cash bond.

(c) Within 72 hours after the date set for a hearing in the court on the citation and complaint given, where the defendant has posted a cash bond and has failed to appear for the hearing, the court shall enter an order that the cash bond has been forfeited in accordance with this article. Such order shall be recorded on the back of the citation and complaint which is maintained in the traffic violations bureau of the court and shall also be recorded on the defendant's traffic offense card.

Laws 1966, p. 381, § 11.

§ 40–13–60. Traffic violations distinguished from misdemeanors; handling of cases

Any traffic violation under the jurisdiction of the traffic violations bureau shall be characterized and classified as a traffic violation and shall not be considered as a misdemeanor. Whenever any traffic violation is transferred from another court to a court which has a traffic violations bureau, if such offense is classified as a traffic violation on the traffic violations bureau schedule of the receiving court, such violation shall be handled and disposed of by such traffic violations bureau. Where a defendant demands a trial on a traffic violation, it shall be tried before a judge of the court which established the traffic violations bureau. The request for a trial shall not result in a loss of jurisdiction by the traffic violations bureau.

Laws 1966, p. 381, § 12; Laws 1992, p. 2785, § 29.

Validity

This section has been held unconstitutional in the case of Geng v. State, 2003, 276 Ga. 428, 578 S.E.2d 115.

§ 40–13–61. Maintenance of records; accusations not entered on misdemeanor docket; failure to post bond or appear as grounds for accusation

All records other than those excepted in this article shall be maintained at the traffic violations bureau of the court. No accusation of an offense for which citation and complaint may be issued shall be entered on the misdemeanor docket maintained by the clerk of the court. No accusation for any offense coming under the jurisdiction of the traffic violations bureau of the court shall be taken by the prosecuting attorney of the court or maintained in his office unless said person to whom the said summons was issued fails to post a cash bond as defined in this article or fails to appear on the date specified in the summons to answer said complaint.

Laws 1966, p. 381, § 9; Laws 1985, p. 149, § 40.

§ 40–13–62. Procedure on failure of person cited to appear

When any person cited for a traffic violation pursuant to this article fails to appear in court on the date specified in the citation and in accordance with his written promise to appear, unless such person has posted a cash bond as provided in this article, the traffic violations bureau thereupon loses jurisdiction and the citation shall be forwarded to the prosecuting attorney of the court who shall have an accusation issued against such person. Upon motion of the prosecuting attorney, a bench warrant shall issue based on the accusation for the arrest of the defendant. The defendant's case shall be docketed by the clerk of the court and handled as all other misdemeanors.

Laws 1966, p. 381, § 12; Laws 1992, p. 2785, § 29.

§ 40–13–63. Penalty for failure of person cited to appear

The willful failure of any person to appear in accordance with the written promise contained on the citation and complaint and served upon such person shall constitute an offense which shall be punishable by fine in an amount not to exceed $200.00 or by confinement in jail for a period not to exceed three days.

Laws 1966, p. 381, § 13; Laws 1999, p. 334, § 4.

§ 40–13–64. Bureau to have charge of suspended sentence division of court

The court may provide that its traffic violations bureau, in addition to the duties set out in this article, shall have charge of what shall be called and designated in the court as the "Suspended Sentence Division of the _____ Court." This division of the court shall be responsible for collecting fines imposed upon persons convicted in the court, where the sentence is suspended upon the payment of a fine. The person or persons in the division shall be authorized, where the judge imposing the sentence stipulates the same therein, to permit such persons receiving suspended sentences, in addition to the other conditions imposed in the suspended sentence, to pay the suspended sentence fine in installments. The person or persons responsible for the administration of the suspended sentence division shall be responsible for collecting the suspended sentence fine by installments and shall also be responsible for the arrest of persons who fail in this respect to comply with the conditions of the suspended sentence.

Speed Detection Devices

§ 40–14–2. Approval of governing authority or president of college or university; use prohibited when arresting officer or court officials paid by fee system; use by certified peace officers

(a) The law enforcement officers of the various counties, municipalities, colleges, and universities may use speed detection devices only if the sheriffs of such counties, or the governing authorities of such counties, or the governing authorities of such municipalities, or the president of such college or university shall approve of and desire the use of such devices and shall apply to the Department of Public Safety for a permit to use such devices in accordance with this chapter.

(b) No county sheriff, county or municipal governing authority, college, or university shall be authorized to use speed detection devices where any arresting officer or official of the court having jurisdiction of traffic cases is paid on a fee system. This subsection shall not apply to any official receiving a recording fee.

(c) A permit shall not be issued by the Department of Public Safety to an applicant under this Code section unless the applicant provides law enforcement services by certified peace officers 24 hours a day, seven days a week on call or on duty or allows only peace officers employed full time by the applicant to operate speed detection devices. Speed detection devices can only be operated by registered or certified peace officers of the county sheriff, county, municipality, college, or university to which the permit is applicable. Persons operating the speed detection devices must be registered or certified by the Georgia Peace Officer Standards and Training Council as peace officers and certified by the Georgia Peace Officer Standards and Training Council as operators of speed detection devices.

Law enforcement agencies are authorized to use speed detection devices on streets and roads for which an application is pending as long as all other requirements for the use of speed detection devices are met. Nothing in this subsection shall be construed to affect the provisions of Code Section 40–14–9.

(b) The Department of Public Safety is authorized to prescribe by appropriate rules and regulations the manner and procedure in which applications shall be made for such permits and to prescribe the required information to be submitted by the applicants. Each such test shall be made in accordance with the manufacturer's recommended procedure. Any radar unit not meeting the manufacturer's minimum accuracy requirements shall be removed from service and thereafter shall not be used by the state, county, municipal, or campus law enforcement agency until it has been serviced, calibrated, and recertified by a technician with the qualifications specified in Code Section 40–14–4.

(b) Each county, municipal, or campus law enforcement officer using a radar device shall notify each person against whom the officer intends to make a case based on the use of the radar device that the person has a right to request the officer to test the radar device for accuracy. The notice shall be given prior to the time a citation and complaint or ticket is issued against the person and, if requested to make a test, the officer shall test the radar device for accuracy. In the event the radar device does not meet the minimum accuracy requirements, the citation and complaint or ticket shall not be issued against the person, and the radar device shall be removed from service and thereafter shall not be used by the county, municipal, or campus law enforcement agency until it has been serviced, calibrated, and recertified by a technician with the qualifications specified in Code Section 40–14–4.

Such signs shall be at least 24 by 30 inches in area and shall warn approaching motorists that speed detection devices are being employed. No such devices shall be used within 500 feet of any such warning sign erected pursuant to this subsection.

(b) In addition to the signs required under subsection (a) of this Code section, each county, municipality, college, and university using speed detection devices shall erect speed limit warning signs on every highway which comprises a part of the state highway system at that point on the highway which intersects the corporate limits of the municipality, the county boundary, or the boundary of the college or university campus. Such signs shall be at least 24 by 30 inches in area, shall warn approaching motorists of changes in the speed limit, shall be visible plainly from every lane of traffic, shall be viewable in any traffic conditions, and shall not be placed in such a manner that the view of such sign is subject to being obstructed by any other vehicle on such highway. No such devices shall be used within 500 feet of any such warning sign erected pursuant to this subsection.

§ 40–14–7. Visibility to approaching motorists

No stationary speed detection device shall be employed by county, municipal, college, or university law enforcement officers where the vehicle from which the device is operated is obstructed from the view of approaching motorists or is otherwise not visible for a distance of at least 500 feet.

§ 40–14–8. Use in school and residential districts

(a) No county, city, or campus officer shall be allowed to make a case based on the use of any speed detection device, unless the speed of the vehicle exceeds the posted speed limit by more than ten miles per hour and no conviction shall be had thereon unless such speed is more than ten miles per hour above the posted speed limit.

(b) The limitations contained in subsection (a) of this Code section shall not apply in properly marked school zones one hour before, during, and one hour after the normal hours of school operation, in properly marked historic districts, and in properly marked residential zones. For purposes of this chapter, thoroughfares with speed limits of 35 miles per hour or more shall not be considered residential districts. For purposes of this Code section, the term "historic district" means a historic district as defined in paragraph (5) of Code Section 44–10–22 and which is listed on the Georgia Register of Historic Places or as defined by ordinance adopted pursuant to a local constitutional amendment.

§ 40–14–9. Where use permitted; evidence

Evidence obtained by county or municipal law enforcement officers in using speed detection devices within 300 feet of a reduction of a speed limit inside an incorporated municipality or within 600 feet of a reduction of a speed limit outside an incorporated municipality or consolidated city-county government shall be inadmissible in the prosecution of a violation of any municipal ordinance, county ordinance, or state law regulating speed; nor shall such evidence be admissible in the prosecution of a violation as aforesaid when such violation has occurred within 30 days following a reduction of the speed limit in the area where the violation took place, except that this 30 day limitation shall not apply to a speeding violation within a highway work zone, as defined in Code Section 40–6–188, or in an area with variable speed limits, as defined in Code Section 40–6–182. No speed detection device shall be employed by county, municipal, or

campus law enforcement officers on any portion of any highway which has a grade in excess of 7 percent.

§ 40–14–10. Use without permit or where permit has been suspended or revoked

It shall be unlawful for speed detection devices to be used in any county or municipality or on any campus for which a permit authorizing such use has not been issued or for which a permit authorizing such use has been suspended or revoked and not reissued. It shall be unlawful for any official of such county, municipality, college, or university to order such speed detection devices to be used. It shall be unlawful for any law enforcement officer of any such county, municipality, college, or university to use any such speed detection devices. Any such official or law enforcement officer violating this Code section shall be guilty of a misdemeanor.

§ 40–14–11. Revocation of permits; investigation

(a) Upon a complaint being made to the commissioner of public safety that any county, municipality, college, or university is employing speed detection devices for purposes other than the promotion of the public health, welfare, and safety or in a manner which violates this chapter or violates its speed detection device permit, the commissioner or the commissioner's designee is authorized and empowered to conduct an investigation into the acts and practices of such county, municipality, college, or university with respect to speed detection devices. If, as a result of this investigation, the commissioner or the commissioner's designee finds that there is probable cause to suspend or revoke the speed detection device permit of such county, municipality, college, or university, he or she shall issue an order to that effect.

(b) Upon the suspension or revocation of any speed detection device permit for the reasons set forth in this Code section, the commissioner of public safety shall notify the executive director of the Georgia Peace Officer Standards and Training Council of the action taken.

(c) Upon receipt from the executive director of the Georgia Peace Officer Standards and Training Council that an officer's certification to operate speed detection devices has been withdrawn or suspended pursuant to Code Section 35–8–12, the commissioner of public safety or the commissioner's designee shall suspend the speed detection device permit for the employing agency. The period of suspension or revocation shall be consistent with the action taken by the Georgia Peace Officer Standards and Training Council.

(d) There shall be a rebuttable presumption that a law enforcement agency is employing speed detection devices for purposes other than the promotion of the public health, welfare, and safety if the fines levied based on the use of speed detection devices for speeding offenses are equal to or greater than 40 percent of that law enforcement agency's budget; provided, however, that fines for speeding violations exceeding 17 miles per hour over the established speed limit shall not be considered when calculating total speeding fine revenue for the agency.

§ 40–14–12. Revocation of permits; hearing

Upon issuance by the commissioner of public safety of an order suspending or revoking the speed detection device permit of any county, municipality, college, or university, the county, municipality, college, or university affected shall be afforded a hearing, to be held within ten days of the effective date of the order. The hearing shall be held before the commissioner or deputy commissioner of public safety, and, following the hearing, the county, municipality, college, or university affected shall be served with a written decision announcing whether the permit shall remain revoked or whether it shall be reinstated.

§ 40–14–13. Revocation of permits; appeal

Any county, municipality, college, or university aggrieved by a decision of the commissioner or deputy commissioner of public safety suspending or revoking its speed detection device permit may appeal that decision within 30 days of its effective date to the Board of Public Safety, which shall schedule a hearing with respect thereto before the board. Following a hearing before the board, the county, municipality, college, or university affected shall be served with a written decision announcing whether the permit shall remain revoked or whether it shall be reinstated. An adverse decision of the board may be appealed by the county, municipality, college, or university to the superior court with appropriate jurisdiction, but the municipality, county, college, or university shall be denied the use of the speed detection device until after such appeal is decided by the court.

§ 40–14–15. Change of circumstances; hearing; application for rehearing

The Governor, in his discretion, may direct the commissioner of public safety, or his delegate, to inquire into such change of circumstances and report the same to him together with any recommendations he might have. The Governor, in his discretion, may order a new hearing on the matter before the Board of Public Safety or may, without hearing, issue his order directing the commissioner to grant a permit to such a county, municipality, college, or university to use speed detection devices. If a county, municipality, college, or university shall not be granted a permit to use such devices, it shall not apply for a rehearing until the expiration of six months.

§ 40–14–16. Revocation of drivers' licenses

No speeding violation of less than ten miles per hour above the legal speed limit in the county or municipality or on a college or university campus in which a person is given a speeding ticket shall be used by the Department of Driver Services for the purpose of suspending or revoking the driver's license of the violator. No speeding violation report by a county, municipality, or college or university campus to the Department of Driver Services which fails to specify the speed of the violator shall be used by the Department of Driver Services to revoke the driver's license of a violator.

§ 40–14–17. Laser speed detection devices; admissibility of results

Evidence of speed based on a speed detection device using the speed timing principle of laser which is of a model that has been approved by the Department of Public Safety shall be considered scientifically acceptable and reliable as a speed detection device and shall be admissible for all purposes in any court, judicial, or administrative proceedings in this state. A certified copy of the Department of Public Safety list of approved models of such laser devices shall be self-authenticating and shall be admissible for all purposes in any court, judicial, or administrative proceedings in this state.

Article 3

Traffic–Control Signal Monitoring Devices

§ 40–14–20. Definitions

As used in this article, the term:

(1) "Governing authority" means any county, municipality, or consolidated government.

(2) "Recorded images" has the meaning provided in subparagraph (f)(1)(B) of Code Section 40–6–20.

(3) "Traffic-control signal monitoring device" has the meaning provided in subparagraph (f)(1)(C) of Code Section 40–6–20.

Laws 2001, p. 770, § 4.; Laws 2008, Act 799, § 3, eff. Dec. 31, 2008.

§ 40–14–21. Permit to operate traffic-control signal monitoring system; public hearing; rules and regulations; application process; conditions of use; amendment; review; fees

(a) A governing authority must obtain an operating permit from the Department of Transportation prior to using any traffic-control signal monitoring device. The governing authority shall not use traffic-control signal monitoring devices unless the chief law enforcement officer of such governing authority desires the use of such devices and such use is approved by a properly adopted resolution of the governing authority.

(b) The governing authority shall also conduct a public hearing on the proposed use of such devices prior to entering any contract on or after July 1, 2001, for the use or purchase of such devices.

(c) The Department of Transportation is authorized to prescribe by appropriate rules and regulations the manner and procedure in which applications shall be made for traffic-control signal monitoring device permits and to prescribe the required information to be submitted by an applicant consistent with the requirements of this title. The Department of Transportation may deny an application or suspend or revoke a permit for failure of the governing authority to provide requested information or documentation or for any other violation of this article or violation of the rules and regulations of the department.

(d) An application for the operation of a traffic-control signal monitoring device by a governing authority shall name the intersection at which the device is to be used and provide demonstrable evidence that there is a genuine safety need for the use of such device at the designated intersection. The documented safety need for each designated intersection shall be approved by the Department of Transportation in accordance with nationally recognized safety standards. For each designated intersection, the governing authority shall conduct a traffic engineering study to determine whether, in addition to or as an alternative to the traffic-control signal monitoring device, there are other possible design or operational changes likely to reduce the number of accidents or red light violations at that intersection. This report shall be submitted with the application for an operation permit required under these provisions and any request to amend the operation permit to include an additional intersection.

(e) The revenue generated by the use of a traffic-control signal monitoring device shall not be considered when determining whether to issue a permit for the operation of such devices at a designated intersection. The only consideration shall be the increased life-saving safety value by the use of such a device at the designated intersection.

(f) Permits shall be issued by the Department of Transportation within three months of receiving a completed permit application from a governing authority where such governing authority is otherwise in compliance with the provisions of this article. An application for amendment to an existing permit and an application for a renewal permit following a suspension or revocation of a permit shall also be processed within three months of receipt of such application, provided that the application is complete and complies with the provisions of this article. A permit shall authorize use of a traffic-control signal monitoring device for only those designated intersections approved as having a documented life-saving safety need by the Department of Transportation.

(g) No governing authority shall be authorized to use traffic-control signal monitoring devices where any arresting officer or official of the court having jurisdiction of traffic cases is paid on a fee system. This subsection shall not apply to any official receiving a recording fee.

(h) If a governing authority elects to use traffic-control signal monitoring devices, no portion of any civil monetary penalty collected through the use of such devices may be paid to the manufacturer or vendor of the traffic-control signal monitoring devices. The compensation paid by the governing authority for such devices shall be based on the value of such equipment and shall not be based on the number of citations issued or the revenue generated by such devices.

(i) Charges for violations based on evidence obtained from a traffic-control signal monitoring device shall not be made by a law enforcement agency unless the law enforcement agency employs at least one full-time certified peace officer.

(j) A traffic-control signal monitoring device shall not be used to produce any photograph, microphotograph, electronic image, or videotape showing the identity of any person in a motor vehicle.

(k) A governing authority utilizing traffic-control signal monitoring devices shall at all times cooperate fully with the Department of Transportation. The department is authorized, at any time, to inspect traffic-control signal monitoring devices used by a

governing authority and any records pertaining to revenues collected from the use of such devices.

(*l*) A permit may be amended at any time by amended application submitted by a governing authority. The request to amend an application and to add a new intersection to the list of authorized intersections for the operation of a traffic-control signal monitoring device shall be considered by the department in the same manner as original permit applications.

(m) A permit shall be reviewed by the Department of Transportation once every three years from the date of issuance or date of the most recent extension unless the permit has been revoked or suspended by the department. The review shall be conducted in the same manner as the original permit application.

(n) The department is authorized to set reasonable application fees to compensate the department for necessary costs in issuing, amending, or reviewing a permit to operate traffic-control signal monitoring devices.

(*o*) Any governing authority operating a traffic-control signal monitoring device on December 31, 2008, shall have until January 1, 2010, to obtain a permit for the operation of such device as required by this Code section.

Laws 2001, p. 770, § 4; Laws 2003, Act 246, § 3, eff. July 1, 2003; Laws 2004, Act 530, § 2, eff. July 1, 2004; Laws 2008, Act 799, § 4, eff. Dec. 31, 2008.

§ 40–14–22. Timing of signal testing of devices for accuracy

The timing of any traffic-control signal which is being monitored by a traffic-control signal monitoring device shall conform to regulations promulgated by the Department of Transportation pursuant to Code Section 32–6–50. The duration of the yellow or red light of any traffic-control device at which a traffic-control signal monitoring device is installed shall not be decreased prior to the installation of a device or during the time for which the device is operated. The Department of Transportation shall establish minimal yellow light change interval times for traffic-control devices at intersections where a traffic-control signal monitoring device is utilized. The minimal yellow light change interval time shall be established in accordance with nationally recognized engineering standards, and any such established time shall not be less than the recognized national standard plus one additional second. Each governing authority using a traffic-control signal monitoring device shall at its own expense test the device for accuracy at regular intervals and record and maintain the results of each test. Such test results shall be public records subject to inspection as provided by Article 4 of Chapter 18 of Title 50. Each such test shall be made in accordance with the manufacturer's recommended procedure. Any such device not meeting the manufacturer's minimum accuracy requirements shall be removed from service and thereafter shall not be used by the governing authority, nor shall any charges for violations based on evidence from such device be made by a law enforcement agency, until such device has been serviced and calibrated at the expense of the governing authority by a qualified technician.

Laws 2001, p. 770, § 4; Laws 2008, Act 799, § 5, eff. Dec. 31, 2008.

§ 40–14–23. Warning signs that traffic-control signal monitoring devices are being employed

Each governing authority using traffic-control signal monitoring devices shall erect signs on every highway which comprises a part of the state highway system at that point on the highway which intersects the jurisdictional limits of the governing authority. A sign shall be erected also by such entity on each public road on the approach to the next traffic-control signal for such road when a traffic-control signal monitoring device is monitoring such next signal for such road and signs shall also be erected at any other location required by the Department of Transportation. Such signs shall be of a design specified by the Department of Transportation in accordance with nationally recognized standards.

Laws 2001, p. 770, § 4; Laws 2008, Act 799, § 6, eff. Dec. 31, 2008.

§ 40–14–24. Reports on use of devices

(a) Each governing authority using any traffic-control signal monitoring device shall submit not later than February 1 of each year a report on such use during the preceding calendar year to the Department of Transportation. Such report shall include, without limitation:

(1) A description of the locations where traffic-control signal monitoring devices were used;

(2) The number of violations recorded at each location and in the aggregate on a monthly basis;

(3) The total number of citations issued;

(4) The number of civil monetary penalties and total amount of such penalties paid after citation without contest;

(5) The number of violations adjudicated and results of such adjudications, including a breakdown of dispositions made;

(6) The total amount of civil monetary penalties paid; and

(7) The quality of the adjudication process and its results.

(b) If any governing authority fails to provide the report provided for in subsection (a) of this Code section all revenues generated from the operation of any traffic-control signal monitoring device from the date the report was due shall be forwarded to the general fund of the state. The governing authority shall not be entitled to retain any revenue until the annual report is filed and accepted by the Department of Transportation.

(c) The Department of Transportation shall forward copies of all reports to the offices of the Governor, Lieutenant Governor, and the Speaker of the House by March 1 of each year. The department shall also forward to the offices of the Governor, Lieutenant Governor, and the Speaker of the House a complete list of all traffic-control signal monitoring devices currently in use.

Laws 2001, p. 770, § 4; Laws 2003, Act 246, § 4, eff. July 1, 2003; Laws 2008, Act 799, § 7, eff. Dec. 31, 2008.

§ 40–14–25. Complaints; presumptions; violations by governing authorities

(a) Complaints surrounding the use and operation of traffic-control signal monitoring devices by governing authorities, including the use by a governing authority for any purpose other than the promotion of the public health, welfare, and safety or in a manner which violates this article or violates its operating permit, may be made to the commissioner of transportation. The commissioner or the commissioner's designee is authorized to conduct an investigation into the acts and practices of the governing authority with respect to the use of traffic-control signal monitoring devices. If, as a result of this investigation, there is evidence to substantiate a violation of this article or the rules and regulations of the Department of Transportation, the department may take any action deemed necessary to prevent further misconduct or violations, including denying an application for a permit or suspension or revocation of a permit.

(b) There shall be a rebuttable presumption that a governing authority is using traffic-control signal monitoring devices for purposes other than the promotion of the public health, welfare, and safety if such devices are used by a governing authority without a valid permit issued by the Department of Transportation or in violation of any requirement of this article or the rules and regulations of the department.

(c) Where a violation of this article by a governing authority or any law enforcement agency enforcing the use of traffic-control signal monitoring devices on behalf of such governing authority is

substantiated, the Department of Transportation may order that revenues generated from the use of traffic-control signal monitoring devices during the time of such violation or misconduct shall be remitted to the state's general fund. The department's order to remit funds shall be a continuous order until the violation is corrected by the governing authority as determined by the department. Any governing authority failing to abide by such order shall be liable for interest and costs, including reasonable attorney fees, incurred in the enforcement of the order. Jurisdiction for enforcing the department's order shall be in the Superior Court of Fulton County.

Laws 2008, Act 799, § 8, eff. Dec. 31, 2008; Laws 2009, Act 8, § 40, eff. April 14, 2009.

§ 40–14–26. Denial or revocation of permit; reconsideration of revoked permit

(a) Upon issuance by the commissioner of transportation of an order denying an application for or suspending or revoking a traffic-control signal monitoring device permit, the governing authority affected shall be afforded a hearing, to be held within 30 days of the effective date of the order. The hearing shall be held before the commissioner of the department or his or her designee, and, within 30 days following the hearing, the governing authority affected shall be served with a written decision announcing whether the permit shall remain denied, suspended, or revoked or whether it shall be granted or reinstated.

(b) Only after the expiration of three years following the revocation of a traffic-control signal monitoring device permit shall the governing authority make application, upon a change of circumstances being shown, to the commissioner of transportation for a reconsideration of whether the governing authority should be permitted to use traffic-control signal monitoring devices.

The report shall be requested as a matter of course for any offender with a history of sexually violent offenses. The court shall provide the Sexual Offender Registration Review Board with any information available to assist the board in rendering an opinion. The board shall have 60 days from receipt of the court's request to respond with its report. After receiving a recommendation from the Sexual Offender Registration Review Board that a convicted sexually violent offender be classified as a sexually violent predator, the sentencing court shall so inform the offender and shall set a date to conduct a hearing affording the offender the opportunity to present testimony or evidence relevant to the recommended classification. After the hearing and within 60 days of receiving the report, the court shall issue a ruling as to whether or not the offender shall be classified as a sexually violent predator. In addition, the sheriff or the sheriff's designee shall inform the person of the duty to report any change of address as otherwise required in this Code section. The Georgia Bureau of Investigation shall forward such information in the manner described in subsection (c) of this Code section.

"(v) Any person who is subject to the registration requirements of this Code section shall be required to register in Georgia for the remaining period of time established by the state of last registration, or for the period of time as set forth in subsection (g) of this Code section, whichever is longer.

No cause of action shall arise against any real estate broker or any affiliated licensee of the broker or any person or entity or its employees which own property or any person or entity or its employees who provide property management services as defined in paragraph (7) of Code Section 43–40–1 for revealing any information provided or maintained or required to be provided or maintained in accordance with this Code section.

Laws 2006, Act 571, §§ 1 and 30, provide:

"SECTION 1. The General Assembly finds and declares that recidivist sexual offenders, sexual offenders who use physical violence, and sexual offenders who prey on children are sexual predators who present an extreme threat to the public safety. Many sexual offenders are extremely likely to use physical violence and to repeat their offenses; and some sexual offenders commit many offenses, have many more victims than are ever reported, and are prosecuted for only a fraction of their crimes. The General Assembly finds that this makes the cost of sexual offender victimization to society at large, while incalculable, clearly exorbitant. The General Assembly further finds that the high level of threat that a sexual predator presents to the public safety, and the long-term effects suffered by victims of sex offenses, provide the state with sufficient justification to implement a strategy that includes:

"(1) Incarcerating sexual offenders and maintaining adequate facilities to ensure that decisions to release sexual predators into the community are not made on the basis of inadequate space;

"(2) Requiring the registration of sexual offenders, with a requirement that complete and accurate information be maintained and accessible for use by law enforcement authorities, communities, and the public;

"(3) Providing for community and public notification concerning the presence of sexual offenders;

"(4) Collecting data relative to sexual offenses and sexual offenders;

"(5) Requiring sexual predators who are released into the community to wear an electronic monitoring system for the rest of their natural life and to pay for such system; and

"(6) Prohibiting sexual predators from working with children, either for compensation or as a volunteer.

"The General Assembly further finds that the state has a compelling interest in protecting the public from sexual offenders and in protecting children from predatory sexual activity, and there is sufficient justification for requiring sexual offenders to register and for requiring community and public notification of the presence of sexual offenders. The General Assembly declares that in order to protect the public, it is necessary that the sexual offenders be registered and that members of the community and the public be notified of a sexual offender's presence. The designation of a person as a sexual offender is neither a sentence nor a punishment but simply a regulatory mechanism and status resulting from the conviction of certain crimes. Likewise, the designation of a person as a sexual predator is neither a sentence nor a punishment but simply a regulatory mechanism and status resulting from findings by the Sexual Offender Registration Review Board and a court if requested by a sexual offender."

"SECTION 30. (a) This Act shall become effective July 1, 2006.

"(b) Any person required to register pursuant to the provisions of Code Section 42–1–12, relating to the state sexual offender registry, and any person required not to reside within areas where minors congregate, as prohibited by Code Section 42–1–13 [see § 42–1–15], shall not be relieved of the obligation to comply with the provisions of said Code sections by the repeal and reenactment of said Code sections.

"(c) The provisions of this Act shall not affect or abate the status as a crime of any such act or omission which occurred prior to the effective date of the Act repealing, repealing and reenacting, or amending such law, nor shall the prosecution of such crime be abated as a result of such repeal, repeal and reenactment, or amendment."

In 2006, the Code Commission, due to irreconcilable conflicts, treated the amendment of this section by Laws 2006, Act 453, § 42, as superseded by Laws 2006, Act 571, § 24. See Butts County v. Strahan, 107 S.E. 163, 151 Ga. 417 (1921).

In 2007, the Code Commission, in subsec. (g), substituted "subsection" for "Code section" preceding "may petition" in the first sentence of par. (1). See § 28–9–5.

The 2008 amendment by Act 582, in subsec. (a), par. (3), inserted "public libraries,".

The 2008 amendment by Act 715, in subsec. (a), redesignated subpar. (K) as subpar. (L) and added a new subpar. (K) in par. (16), and added pars. (21.1) and (21.2).

The 2009 amendment by Act 8 was a provision contained in a correction bill.

The 2010 amendment by Act 389, in subsec. (a), rewrote pars. (1), (9), (10), (16), (20), and deleted pars. (21.1) and (21.2); in subsec. (b), substituted "prior to moving" for "after the change of information" at the end of par. (3); in subsec. (e), substituted "1996" for "2006" in par. (2), inserted "victim who is a" preceding "minor" in par. (3), inserted "or dangerous sexual offense" and "on or after July 1, 1996" in par. (4), substituted "1996" for "2006" in par. (5), and rewrote par. (6); rewrote subsecs. (f) and (g); in subsec. (i), substituted "business" for "working" in par. (2), substituted "provide list, manually or electronically," for "post a list" and inserted "so that it may be available for inspection" in par. (3), and substituted "business days of the receipt of such information" for "working days" in par. (4); and in subsec. (n), substituted "of the county where he or she resides or sleeps within 72 hours prior to" for "within 72 hours of", substituted "not less than one nor more than 30 years" for "not less than ten not more than 30 years" and substituted ""imprisonment for not less than five nor more than 30 years" for "imprisonment for life" in par. (3). Prior to amendment, pars. (a)(1), (a)(9), (a)(10), (a)(16), (a)(20), (a)(21.1), (a)(21.2), (e)(6), and subsecs. (f) and (g) had read:

"[(a)](1) 'Address' means the street or route address of the sexual offender's residence. For purposes of this Code section, the term does not mean a post office box, and homeless does not constitute an address."

"[(a)](9)(A) Criminal offense against a victim who is a minor" with respect to convictions occurring on or before June 30, 2001, means any criminal offense under Title 16 or any offense under federal law or the laws of another state or territory of the United States which consists of:

"(C) For purposes of subparagraph (a)(9)(B) of this Code section, conduct which is punished as for a misdemeanor or which is prosecuted in juvenile court shall not be considered a criminal offense against a victim who is a minor.

"[(a)](10)(A) "Dangerous sexual offense" with respect to convictions occurring after June 30, 2006, means any criminal offense under Title 16 as specified in this paragraph or any offense under federal law or the laws of another state or territory of the United States which consists of the same or similar elements of the following offenses:

§ 42–4–14. Nationality of confined person to be determined; verification of lawful status

(a) When any person is confined, for any period, in the jail of a county or municipality or a jail operated by a regional jail authority in compliance with Article 36 of the Vienna Convention on Consular Relations, a reasonable effort shall be made to determine the nationality of the person so confined.

(b) If the prisoner is a foreign national charged with a felony, driving under the influence pursuant to Code Section 40–6–391, driving without being licensed pursuant to subsection (a) of Code Section 40–5–20, or with a misdemeanor of a high and aggravated nature, the keeper of the jail or other officer shall make a reasonable effort to verify that the prisoner has been lawfully admitted to the United States and if lawfully admitted, that such lawful status has not expired. If verification of lawful status can not be made from documents in the possession of the prisoner, verification shall be made within 48 hours through a query to the Law Enforcement Support Center (LESC) of the United States Department of Homeland Security or other office or agency designated for that purpose by the United States Department of Homeland Security. If the prisoner is determined not to be lawfully admitted to the United States, the keeper of the jail or other officer shall notify the United States Department of Homeland Security.

(c) Nothing in this Code section shall be construed to deny a person bond or from being released from confinement when such person is otherwise eligible for release.

(d) The Georgia Sheriffs Association shall prepare and issue guidelines and procedures used to comply with the provisions of this Code section.

Historical and Statutory Notes

The 2008 amendment by Act 778, in subsec. (a), inserted "or convicted of driving without being licensed in violation of subsection (a) of Code Section 40–5–20" following the citation to § 40–6–391.

The 2009 amendment by Act 8 was a provision contained in a correction bill.

In 2009, the Code Commission, due to irreconcilable conflicts, treated the amendment of this section by Laws 2009, Act 8, § 42, as superseded by Laws 2009, Act 339, § 2. See Butts County v. Strahan, 107 S.E. 163, 151 Ga. 417 (1921).

Probation of First Offenders

§ 42–8–60. When applicable; violation of probation

(a) Upon a verdict or plea of guilty or a plea of nolo contendere, but before an adjudication of guilt, in the case of a defendant who has not been previously convicted of a felony, the court may, without entering a judgment of guilt and with the consent of the defendant:

(1) Defer further proceeding and place the defendant on probation as provided by law; or

(2) Sentence the defendant to a term of confinement as provided by law.

(b) Upon violation by the defendant of the terms of probation, upon a conviction for another crime during the period of proba-

tion, or upon the court determining that the defendant is or was not eligible for sentencing under this article, the court may enter an adjudication of guilt and proceed as otherwise provided by law. No person may avail himself or herself of this article on more than one occasion.

(c) The court shall not sentence a defendant under the provisions of this article and, if sentenced under the provisions of this article, shall not discharge the defendant upon completion of the sentence unless the court has reviewed the defendant's criminal record as such is on file with the Georgia Crime Information Center.

(d) The court shall not sentence a defendant under the provisions of this article who has been found guilty of or entered a plea of guilty or a plea of nolo contendere for:

(1) A serious violent felony as such term is defined in Code Section 17–10–6.1;

(2) A sexual offense as such term is defined in Code Section 17–10–6.2;

(3) Sexual exploitation of a minor as defined in Code Section 16–12–100;

(4) Electronically furnishing obscene material to a minor as defined in Code Section 16–12–100.1; or

(5) Computer pornography and child exploitation, as defined in Code Section 16–12–100.2.

Historical and Statutory Notes

The 2006 amendment by Act 571, in subsec. (b), added "or herself" in the last sentence; and added subsec. (d).

Laws 2006, Act 571, §§ 1 and 30, provide:

"SECTION 1. The General Assembly finds and declares that recidivist sexual offenders, sexual offenders who use physical violence, and sexual offenders who prey on children are sexual predators who present an extreme threat to the public safety. Many sexual offenders are extremely likely to use physical violence and to repeat their offenses; and some sexual offenders commit many offenses, have many more victims than are ever reported, and are prosecuted for only a fraction of their crimes. The General Assembly finds that this makes the cost of sexual offender victimization to society at large, while incalculable, clearly exorbitant. The General Assembly further finds that the high level of threat that a sexual predator presents to the public safety, and the long-term effects suffered by victims of sex offenses, provide the state with sufficient justification to implement a strategy that includes:

"(1) Incarcerating sexual offenders and maintaining adequate facilities to ensure that decisions to release sexual predators into the community are not made on the basis of inadequate space;

"(2) Requiring the registration of sexual offenders, with a requirement that complete and accurate information be maintained and accessible for use by law enforcement authorities, communities, and the public;

"(3) Providing for community and public notification concerning the presence of sexual offenders;

"(4) Collecting data relative to sexual offenses and sexual offenders;

"(5) Requiring sexual predators who are released into the community to wear an electronic monitoring system for the rest of their natural life and to pay for such system; and

"(6) Prohibiting sexual predators from working with children, either for compensation or as a volunteer.

"The General Assembly further finds that the state has a compelling interest in protecting the public from sexual offenders and in protecting children from predatory sexual activity, and there is sufficient justification for requiring sexual offenders to register and for requiring community and public notification of the presence of sexual offenders. The General Assembly declares that in order to protect the public, it is necessary that the sexual offenders be registered and that members of the community and the public be notified of a sexual offender's presence. The designation of a person as a sexual offender is neither a sentence nor a punishment but simply a regulatory mechanism and status resulting from the conviction of certain crimes. Likewise, the designation of a person as a sexual predator is neither a sentence nor a punishment but simply a regulatory mechanism and status resulting from findings by the Sexual Offender Registration Review Board and a court if requested by a sexual offender."

"SECTION 30. (a) This Act shall become effective July 1, 2006.

"(b) Any person required to register pursuant to the provisions of Code Section 42–1–12, relating to the state sexual offender registry, and any person required not to reside within areas where minors congregate, as prohibited by Code Section 42–1–13 [see § 42–1–15], shall not be relieved of the obligation to comply with the provisions of said Code sections by the repeal and reenactment of said Code sections.

"(c) The provisions of this Act shall not affect or abate the status as a crime of any such act or omission which occurred prior to the effective date of the Act repealing, repealing and reenacting, or amending such law, nor shall the prosecution of such crime be abated as a result of such repeal, repeal and reenactment, or amendment."

In 2006, the Code Commission, in subsec. (d), substituted "plea of guilty or" for "plea of guilty of" in the introductory paragraph. See § 28–9–5.

§ 42–8–61. Defendant to be informed of terms of law

The defendant shall be informed of the terms of this article at the time of imposition of sentence.

Laws 1968, p. 324, § 3; Laws 1982, p. 1807, § 2.

§ 42–8–62. Discharged defendant not to be considered to have criminal conviction; exception; records of probation

(a) Upon fulfillment of the terms of probation, upon release by the court prior to the termination of the period thereof, or upon release from confinement, the defendant shall be discharged without court adjudication of guilt. Except for the registration requirements under the state sexual offender registry and except as otherwise provided in Code Section 42–8–63.1, the discharge shall completely exonerate the defendant of any criminal purpose and shall not affect any of his or her civil rights or liberties; and the defendant shall not be considered to have a criminal conviction. It shall be the duty of the clerk of court to enter on the criminal docket and all other records of the court pertaining thereto the following:

> "Discharge filed completely exonerates the defendant of any criminal purpose and shall not affect any of his or her civil rights or liberties, except for registration requirements under the state sexual offender registry and except with regard to employment providing care for minor children or elderly persons as specified in Code Section 42–8–63.1; and the defendant shall not be considered to have a criminal conviction. O.C.G.A. 42–8–62."

Such entry shall be written or stamped in red ink, dated, and signed by the person making such entry or, if the docket or record is maintained using computer print-outs, microfilm, or similar means, such entry shall be underscored, boldface, or made in a similar conspicuous manner and shall be dated and include the name of the person making such entry. The criminal file, docket books, criminal minutes and final record, and all other records of the court relating to the offense of a defendant who has been discharged without court adjudication of guilt pursuant to this subsection shall not be altered as a result of that discharge, except for the entry of discharge thereon required by this subsection, nor shall the contents thereof be expunged or destroyed as a result of that discharge.

(b) Should a person be placed under probation or in confinement under this article, a record of the same shall be forwarded to the Georgia Crime Information Center. Without request of the defendant a record of discharge and exoneration, as provided in this Code section, shall in every case be forwarded to the Georgia Crime Information Center. In every case in which the record of probation or confinement shall have been previously forwarded to the Department of Corrections, to the Georgia Crime Information Center, and to the Identification Division of the Federal Bureau of Investigation and a record of a subsequent discharge

and exoneration of the defendant has not been forwarded as provided in this Code section, upon request of the defendant or his attorney or representative, the record of the same shall be forwarded by the clerk of court so as to reflect the discharge and exoneration.

Laws 1968, p. 324, § 2; Laws 1978, p. 1621, § 1; Laws 1982, p. 1807, § 3; Laws 1985, p. 283, § 1; Laws 1986, p. 442, § 1; Laws 1990, p. 735, § 1; Laws 2001, p. 1004, § 2; Laws 2003, Act 375, § 4, eff. July 1, 2004.

Historical and Statutory Notes

The 2001 amendment to subsec. (a) inserted at the beginning of the second sentence of the first paragraph "Except for the registration requirements under the state sexual offender registry," inserted in the second paragraph "except for registration requirements under the state sexual offender registry;" and inserted gender neutral language.

The 2003 amendment by Act 375, in subsec. (a), inserted "and except as otherwise provided in Code Section 42–8–63.1" and "and except with regard to employment providing care for minor children or elderly persons as specified in Code Section 42–8–63.1".

Laws 2003, Act 375, § 6, provides:

"This Act shall become effective on July 1, 2004, except that Section 3A shall become effective on July 1, 2003."

§ 42–8–63. Discharge not to be used to disqualify person for employment or appointment to office

Except as otherwise provided in this article, a discharge under this article is not a conviction of a crime under the laws of this state and may not be used to disqualify a person in any application for employment or appointment to office in either the public or private sector.

Laws 1978, p. 1621, § 2.

§ 42–8–63.1. Discharge used to disqualify person for employment

(a) A discharge under this article may be used to disqualify a person for employment if:

(1) The offender was discharged under this article on or after July 1, 2004; and either

(2) The employment is with a public school, private school, child welfare agency, or a person or entity that provides day care for minor children or after school care for minor children and the defendant was discharged under this article after prosecution for the offense of child molestation, sexual battery, enticing a child for indecent purposes, sexual exploitation of a child, pimping, pandering, or incest;

(3) The employment is with a nursing home, personal care home, or a person or entity that offers day care for elderly persons and the defendant was discharged under this article after prosecution for the offense of sexual battery, incest, pimping, pandering, or a violation of Code Section 30–5–8; or

(4) The request for information is an inquiry about a person who has applied for employment with a facility as defined in Code Section 37–3–1 or 37–4–2 that provides services to persons who are mentally ill as defined in Code Section 37–1–1 or developmentally disabled as defined in Code Section 37–1–1, and the person who is the subject of the inquiry to the center was prosecuted for the offense of sexual battery, incest, pimping, or pandering.

(b) Any discharge under this article may be used to disqualify a person from acquiring or maintaining a peace officer certification as provided for in Chapter 8 of Article 35 and also may disqualify a person from employment in a certified position with a law enforcement unit where the discharge under this article pertained to a felony offense or a crime involving moral turpitude.

Historical and Statutory Notes

Laws 2003, Act 375, § 6, provides:

"This Act shall become effective on July 1, 2004, except that Section 3A shall become effective on July 1, 2003."

The 2006 amendment by Act 473, designated the existing statute as subsec. (a) and added subsec. (b).

The 2009 amendment by Act 102, in subsec. (a), par. (4), substituted "Code Section 37–1–1 or developmentally disabled as defined in Code Section 37–1–1" for "Code Section 37–3–1 or mentally retarded as defined in Code Section 37–4–2".

§ 42–8–64. Right to appeal

A defendant sentenced pursuant to this article shall have the right to appeal in the same manner and with the same scope and same effect as if a judgment of conviction had been entered and appealed from.

Laws 1968, p. 324, § 5.

§ 42–8–65. Pleading and proof of finding of guilt on subsequent prosecutions; release of records

(a) If otherwise allowable by law in any subsequent prosecution of the defendant for any other offense, a prior finding of guilt may be pleaded and proven as if an adjudication of guilt had been entered and relief had not been granted pursuant to this article.

(b) The records of the Georgia Crime Information Center shall be modified, without a court order, to show a conviction in lieu of treatment as a first offender under this article whenever the conviction of a person for another crime during the term of probation is reported to the Georgia Crime Information Center. If a report is made showing that such person has been afforded first offender treatment under this article on more than one occasion, the Georgia Crime Information Center may report information on first offender treatments subsequent to the first such first offender treatment as if they were convictions. Such records may be disseminated by the Georgia Crime Information Center in the same manner and subject to the same restrictions as any other records of convictions.

(c) Notwithstanding any other provision of this article, any person who is sentenced to a term of confinement pursuant to paragraph (2) of subsection (a) of Code Section 42–8–60 shall be deemed to have been convicted of the offense during such term of confinement for all purposes except that records thereof shall be treated as any other records of first offenders under this article and except that such presumption shall not continue after completion of such person's confinement sentence. Upon completion of the confinement sentence, such person shall be treated in the same manner and the procedures to be followed by the court shall be the same as in the case of a person placed on probation under this article.

Laws 1998, p. 180, § 3.

Article 7

Ignition Interlock Devices as Probation Condition

§ 42–8–110. Definitions; applicability of law; charges and fees; use by indigent persons

(a) As used in this article, the term "ignition interlock device" means a constant monitoring device certified by the commissioner of driver services which prevents a motor vehicle from being started at any time without first determining the equivalent blood alcohol concentration of the operator through the taking of a deep lung breath sample. The system shall be calibrated so that the motor vehicle may not be started if the blood alcohol concentration of the operator, as measured by the device, exceeds 0.02 grams or if the sample is not a sample of human breath.

(b) As used in this article, the term "provider center" means a facility established for the purpose of providing and installing ignition interlock devices when their use is required by or as a result of an order of a court.

(c) Ignition interlock devices for provider centers may be purchased or leased by counties, municipalities, or private entities.

(d) A provider center shall be authorized to charge the person whose vehicle is to be equipped with an ignition interlock device such installation, deinstallation, and user fees as are approved by the Department of Driver Services. A provider center may also require such person to make a security deposit for the safe return of the ignition interlock device. Payment of any or all of such fees and deposits may be made a condition of probation under this order.

(e) If a county, municipality, or other political subdivision of this state purchases or leases ignition interlock devices from a private entity, such county or municipality shall allow persons who are found by the court to be indigent and unable to pay the fees or deposits for such an ignition interlock device to participate in the ignition interlock program.

Historical and Statutory Notes

The 2005 amendment by Act 68 in subsec. (a) substituted "commissioner of driver services" for "commissioner of motor vehicle safety"; and in subsec. (d) substituted "Department of Driver Services" for "Department of Motor Vehicle Safety".

§ 42–8–111. Condition of probation; DUI Alcohol or Drug Use Risk Reduction Program; Department records; driver's license fee

(a) In addition to any other provision of probation, upon a second or subsequent conviction of a resident of this state for violating Code Section 40–6–391 within five years, as measured from the dates of previous arrests for which convictions were obtained to the date of the current arrest for which a conviction is obtained, for which such person is granted probation, the court shall order as conditions of probation that:

(1) Such person shall have installed and shall maintain in each motor vehicle registered in such person's name throughout the applicable six-month period prescribed by subsection (b) of Code Section 42–8–112 a functioning, certified ignition interlock device, unless the court exempts the person from the requirements of this paragraph based upon the court's determination that such requirements would subject the person to undue financial hardship; and

(2) Such person shall have installed and shall maintain in any other motor vehicle to be driven by such person during the applicable six-month period prescribed by subsection (b) of Code Section 42–8–112 a functioning, certified ignition interlock device, and such person shall not during such six-month period drive any motor vehicle whatsoever that is not so equipped.

For the purposes of this subsection, a plea of nolo contendere shall constitute a conviction; and a conviction of any offense under the law of another state or territory substantially conforming to any offense under Code Section 40–6–391 shall be deemed a conviction of violating said Code section.

(b) Any resident of this state who is ordered to use an ignition interlock device, as a condition of probation, shall complete the DUI Alcohol or Drug Use Risk Reduction Program and submit to the court or probation department a certificate of completion of the DUI Alcohol or Drug Use Risk Reduction Program and certification of installation of a certified ignition interlock device to the extent required by subsection (a) of this Code section.

(c) In the case of any person subject to the provisions of subsection (a) of this Code section, the court shall include in the record of conviction or violation submitted to the Department of Driver Services notice of the requirement for, and the period of the requirement for, the use of a certified ignition interlock device. Such notice shall specify any exemption from the installation requirements of paragraph (1) of subsection (a) of this Code section and any vehicles subject to the installation requirements of paragraph (2) of said subsection. The records of the Department of Driver Services shall contain a record reflecting mandatory use of such device and the person's driver's license or limited driving permit shall contain a notation that the person may only operate a motor vehicle equipped with a functioning, certified ignition interlock device.

(d) Except as provided in Code Section 42–8–112, no provision of this article shall be deemed to reduce any period of driver's license suspension or revocation otherwise imposed by law.

(e) The fee for issuance of any driver's license indicating that use of an ignition interlock device is required shall be as prescribed for a regular driver's license in Code Section 40–5–25, and the fee for issuance of any limited driving permit indicating that use of an ignition interlock device is required shall be as prescribed for a limited driving permit in Code Section 40–5–64; except that, for habitual violators required to use an ignition interlock device as a condition of a probationary license, the fee shall be as prescribed for a probationary license in Code Section 40–5–58.

Historical and Statutory Notes

In 2001, the Code Commission added a period at the end of par. (a)(2). See § 28–9–5.

The 2003 amendment by Act 9, in subsec. (c), deleted "or its successor agency" each time it appeared.

The 2005 amendment by Act 68 in subsec. (c) substituted "Department of Driver Services" for "Department of Motor Vehicle Safety" twice.

§ 42–8–112. Restricted driving license; proof of compliance

(a) In any case where the court imposes the use of an ignition interlock device as a condition of probation on a resident of this state whose driving privilege is not suspended or revoked, the court shall require the person to surrender his or her driver's license to the court immediately and provide proof of compliance with such order to the court or the probation officer and obtain an ignition interlock device restricted driving license within 30 days. Upon expiration of the period of time for which such person is required to use an ignition interlock device, the person may apply for and receive a regular driver's license upon payment of the fee provided for in Code Section 40–5–25. If such person

fails to provide proof of installation to the extent required by subsection (a) of Code Section 42–8–111 and receipt of the restricted driving license within such period, absent a finding by the court of good cause for that failure, which finding is entered in the court's record, the court shall revoke or terminate the probation.

(b)(1) In any case where the court imposes the use of an ignition interlock device as a condition of probation on a resident of this state whose driving privilege is suspended or revoked, the court shall require the person to provide proof of compliance with such order to the court or the probation officer and the Department of Driver Services not later than ten days after the date on which such person first becomes eligible to apply for an ignition interlock device limited driving permit in accordance with paragraph (2) of this subsection or a habitual violator's probationary license in accordance with paragraph (3) of this subsection, whichever is applicable. If such person fails to provide proof of installation to the extent required by subsection (a) of Code Section 42–8–111 within the period required by this subsection, absent a finding by the court of good cause for that failure, which finding is entered on the court's record, the court shall revoke or terminate the probation if such is still applicable.

(2) If the person subject to court ordered use of an ignition interlock device as a condition of probation is authorized under Code Section 40–5–63 or 40–5–67.2 to apply for reinstatement of his or her driver's license during the period of suspension, such person shall, prior to applying for reinstatement of the license, have an ignition interlock device installed and shall maintain such ignition interlock device in a motor vehicle or vehicles to the extent required by subsection (a) of Code Section 42–8–111 for a period of six months running concurrently with that of an ignition interlock device limited driving permit, which permit shall not be issued until such person submits to the department proof of completion of a DUI Alcohol or Drug Use Risk Reduction Program, proof of having undergone any clinical evaluation and of having enrolled in any substance abuse treatment program required by Code Section 40–5–63.1, and proof of installation of an ignition interlock device on a vehicle or vehicles to the extent required by subsection (a) of Code Section 42–8–111. Such a person may apply for and be issued an ignition interlock device limited driving permit at the end of 12 months after the suspension of the driver's license. At the expiration of such six-month ignition interlock device limited driving permit, the driver may, if otherwise qualified, apply for reinstatement of a regular driver's license upon payment of the fee provided in Code Section 40–5–25.

(3) If the person subject to court ordered use of an ignition interlock device as a condition of probation is authorized under Code Section 40–5–58 or under Code Section 40–5–67.2 to obtain a habitual violator's probationary license, such person shall, if such person is a habitual violator as a result of two or more convictions for driving under the influence of alcohol or drugs, have an ignition interlock device installed and maintained in a motor vehicle or vehicles to the extent required by subsection (a) of Code Section 42–8–111 for a period of six months following issuance of the probationary license, and such person shall not during such six-month period drive any motor vehicle that is not so equipped, all as conditions of such probationary license. Following expiration of such six-month period with no violation of the conditions of the probationary license, the person may apply for a habitual violator probationary license without such ignition interlock device condition.

(4) In any case where installation of an ignition interlock device is required, failure to show proof of such device shall be grounds for refusal of reinstatement of such license or issuance of such habitual violator's probationary license or the immediate suspension or revocation of such license.

(c) Each resident of this state who is required to have an ignition interlock device installed pursuant to this article shall report to the provider center every 30 days for the purpose of monitoring the operation of each required ignition interlock device. If at any time it is determined that a person has tampered with the device, the Department of Driver Services shall be given written notice within five days by the probation officer, the court ordering the use of such device, or the interlock provider. If an ignition interlock device is found to be malfunctioning, it shall be replaced or repaired, as ordered by the court or the Department of Driver Services, at the expense of the provider.

(d)(1) If a person required to report to an ignition interlock provider as required by subsection (c) of this Code section fails to report to the provider as required or receives an unsatisfactory report from the provider at any time during the six–month period, the Department of Driver Services shall revoke such person's ignition interlock device limited driving permit immediately upon notification from the provider of the failure to report or failure to receive a satisfactory report. § 43–38–4. Board; composition; expenses; secretary; powers and duties

(a) There is created the Georgia Board of Private Detective and Security Agencies. The board shall consist of seven members, each of whom shall be appointed by the Governor. Each member shall serve for a term of four years. Four members shall be engaged in the contract private detective or contract private security business and shall have at least four years of experience in such business immediately preceding their appointment; provided, however, that on and after October 1, 1987, at least two members shall be engaged in the contract private security business. Two members shall be engaged in state, county, or municipal law enforcement and shall have at least four years of experience in governmental law enforcement immediately preceding their appointment. One member shall be appointed from the public at large. At the first meeting of the board held each year, the members shall elect a chairman to serve for one year. The Governor may remove any member of the board for neglect of duty, incompetence, or other unethical or dishonorable conduct. After such removal or after the creation of a vacancy due to death, resignation, or ineligibility, the Governor shall appoint a successor to serve the unexpired term. Appointees to the board shall, immediately after their appointment, take and subscribe to a written oath or affirmation required by law for all public officers.

§ 43–38–6. Licenses; application; qualifications; bond; fees; display; suspension; persons licensed in other states

(a) Any individual, firm, association, company, partnership, limited liability company, or corporation desiring to engage in the private detective or private security business in this state shall make a verified application to the division director for a license therefor. If the applicant is a firm, association, company, partnership, limited liability company, or corporation, the person filing the application on behalf of such firm, association, company, partnership, limited liability company, or corporation shall be a corporate officer of such corporation or an officer of such firm, association, partnership, or limited liability company; and such individual shall meet the qualifications set out in this Code section.

(b) Upon being satisfied of the good character, competency, and integrity of an applicant for licensure under this chapter or, if the applicant is a firm, association, company, partnership, limited liability company, or corporation, upon being satisfied of the good character, competency, and integrity of the corporate officer of such corporation or officer of such firm, association, partnership, or limited liability company, the board may grant a license to conduct a private detective or private security business to such

individual, firm, association, company, partnership, limited liability company, or corporation if:

(1) The applicant is at least 18 years of age;

(2) The applicant is a citizen of the United States or a registered resident alien;

(3) The applicant is of good moral character;

(4) The applicant has not been convicted of a felony or any crime involving the illegal use, carrying, or possession of a dangerous weapon or any crime involving moral turpitude; provided, however, that, if the applicant has been convicted of such crime, or has entered a plea of nolo contendere, or has entered a plea pursuant to Article 3 of Chapter 8 of Title 42 or otherwise been granted first offender treatment, the board may inquire into the nature of the crime, the date of conviction or plea, and other underlying facts and circumstances surrounding such criminal proceedings and, in its discretion, may grant a license to such applicant;

(5) The applicant has not committed an act constituting dishonesty or fraud;

(6) The applicant has satisfied the board that his or her private detective or private security business has a competent training officer and adequate training program with a curriculum approved by the board or that adequate training will be obtained from such other source as the board may approve;

(7) The applicant for a private detective company license has had at least two years' experience as an agent registered with a licensed detective agency, or has had at least two years' experience in law enforcement, or has a four-year degree in criminal justice or a related field from an accredited university or college; and the applicant for a security company license has had at least two years' experience as a supervisor or administrator in in-house security operations or with a licensed security agency, or has had at least two years' experience in law enforcement, or has a four-year degree in criminal justice or a related field from an accredited university or college;

(8) The applicants for private detective company licenses and security company licenses may be required to pass successfully a written examination as the board may prescribe; and

(9) The applicant meets such other qualifications as the board may prescribe by rule.

(c) The application for a license shall be made under oath on a form to be furnished by the division director. The application shall state the applicant's full name, age, date and place of birth; residences and employment within the past five years, with the names and addresses of employers; present occupation; date and place of conviction or arrest for any crime, including the plea of nolo contendere or a plea entered pursuant to Article 3 of Chapter 8 of Title 42 or other first offender treatment; and such additional information as the board may require to investigate the qualifications, character, competency, and integrity of the applicant. Each applicant shall submit with the application two complete sets of fingerprints on forms specified and furnished by the board and one photograph, two inches wide by three inches high, full face, taken within six months prior to the application; provided, however, that the board may waive the submission of fingerprints and photograph for any employee who has been employed by a person licensed under this chapter within the previous 12 months. The application shall contain such additional documentation as the board may prescribe by rule. The board shall have the discretion to deny a license to an applicant who fails to provide the information and supporting documentation required by this subsection.

(d)(1) In addition to the requirements enumerated in this Code section, each applicant for a license under this chapter shall provide satisfactory evidence to the board that the prospective licensee has posted or has made provision for the posting of a bond. The required bond shall be executed in favor of the state, in the amount of $ 25,000.00, with a surety company authorized to do business in this state and conditioned to pay damages not to exceed the amount of such bond to any person aggrieved by any act of the principal named in such bond, which act is in violation of this chapter and would be grounds for denial, suspension, or revocation of a license under Code Section 43–38–11. Immediately upon the granting of a license, such bond shall be filed with the division director by the licensee and shall be approved by the division director as to form and as to the solvency of the surety. The prospective licensee may file the required bond with the division director prior to the granting of a license for the division director's approval as provided in this Code section. In lieu of the required bond, a prospective licensee may submit to the board evidence of a policy of liability insurance in an amount of not less than $ 1 million insuring such prospective licensee against personal liability for damages arising out of acts of the insured or his employees. No licensee shall cancel or cause to be canceled a bond or liability insurance policy issued pursuant to this Code section unless the board is so informed in writing by certified mail or statutory overnight delivery at least 30 days prior to the proposed cancellation. In lieu of the required bond or liability insurance policy, the prospective licensee may submit a net worth affidavit, prepared using standard accounting procedures, which affidavit indicates that the prospective licensee has a net worth of more than $ 50,000.00. The board, in its discretion, may accept a financial affidavit in lieu of the bond or liability insurance policy required by this subsection. The board, in its discretion, may require licensees under this Code section to submit periodic financial updates to ensure continued financial responsibility. If the surety or licensee fails to submit, within ten days of the effective date of cancellation, a new bond or liability insurance policy or a net worth statement as outlined in this subsection, the board shall have the authority to revoke any license issued under this chapter.

(2) Licensees who have previously posted bonds or submitted net worth affidavits to comply with the provisions of this subsection may hereafter prove continued financial responsibility through the use of liability insurance policies in accordance with paragraph (1) of this subsection.

(e) Immediately upon receipt of a license certificate issued by the board pursuant to this chapter, the licensee shall post and at all times display such license in a conspicuous place at his place of business. A copy of the duplicate of the license certificate shall be conspicuously posted at each branch office.

(f) Notwithstanding any other provisions of this Code section, an applicant for a license shall agree that if such applicant makes a false statement in the application or if such applicant has been found to have been convicted of a felony and has not had all his or her civil rights restored pursuant to law, then the board shall be authorized to suspend any license granted to such applicant without a prior hearing as required in Code Section 43–38–11. Upon request, any such person shall be entitled to a hearing on such matter subsequent to the suspension.

(g) The board may grant a license provided in this Code section to a person who is licensed in another state or territory of the United States which has licensing requirements substantially similar to the licensing requirements provided in this Code section.

(h) The board may issue a temporary permit for not longer than 30 days to any person who is licensed in another state or territory of the United States which has licensing requirements substantially similar to the licensing requirements provided in this Code section if such person, in the course of an investigation which arose in the state in which he or she is licensed, finds it necessary to conduct an investigation in this state. Such temporary permit shall be limited to the scope of such investigation. No more than one temporary permit shall be issued in any 12 month period.

(i) The board may, in its discretion and in accordance with regulations adopted by the board, enter into limited license recognition agreements with any other state or the District of Columbia having licensure requirements substantially equal to the requirements provided by this chapter pursuant to which a person so licensed in such state or district may conduct an investigation

in this state directly related to an investigation which was initiated outside of this state; provided, however, that such privilege shall be limited to 30 days for each agency for each such investigation.

(a) Any employer may employ as many agents, guards, watchmen, or patrolmen as he or she deems necessary for the conduct of his or her business, provided that such employees meet the requirements and qualifications for licensure under this chapter.

(b)(1) Except as provided in paragraph (2) of this subsection, within 180 days of completing board mandated prelicensure training, potential licensees shall make application to be licensed with the board.

(2) Any guard, watchman, or patrolman who will be unarmed and who will be employed in the private security business shall not be required to be licensed by the board but shall be governed by Code Section 43–38–7.1.

(c)(1) Except as otherwise provided in paragraph (2) of subsection (b) of this Code section, upon being satisfied of the applicant"s character, competency, and eligibility for licensure, the board may license such applicant if her or she:

(A) Is at least 18 years of age;

(B) Is a citizen of the United States or a registered resident alien;

(C) Is of good moral character;

(D) Has not been convicted of a felony or any crime involving the illegal use, carrying, or possession of a dangerous weapon or any crime involving moral turpitude; provided, however, that, if the applicant has been convicted of such crime, or has entered a plea of nolo contendere to such crime, or has entered a plea pursuant to Article 3 of Chapter 8 of Title 42 or otherwise been granted first offender treatment, the board may inquire into the nature of the crime, the date of conviction or plea, and other underlying facts and circumstances surrounding such criminal proceedings and, in its discretion, may allow the applicant to be licensed;

(E) Has not committed an act constituting dishonesty or fraud; and

(F) Meets such other qualifications as the board may prescribe by rule.

(2) The board shall be authorized to require continuing education as a condition of renewal for all persons required to be licensed or registered with the board under this chapter. The board shall be authorized to promulgate rules and regulations addressing the requirement for continuing education and circumstances for which a waiver of this requirement may be granted.

(d) The license application shall be made under oath and on a form to be furnished by the division director. The application shall state the applicant"s full name, age, and date and place of birth; residences and employment within the past five years; experience in the position applied for or held; the date and place of conviction or arrest for any crime, including the entry of a plea of nolo contendere or the entry of a plea entered pursuant to Article 3 of Chapter 8 of Title 42 or other first offender treatment; and such other information as the board may require. The license application shall be accompanied by two sets of fingerprints of the applicant and one photograph of the applicant, two inches wide by three inches high, full face, and taken within six months prior to the application. The board shall have discretion to deny a license to any individual when the information and supporting documentation required by this subsection are not provided.

(e) Upon granting a license pursuant to this Code section, the board shall so notify the licensee. An employer shall notify the board within 30 days of the hiring or termination of employment of any employee licensed under this Code section.

(f) Upon receipt of a license card issued by the board pursuant to this chapter, the licensee shall maintain said card on his person at all times while on his post or at his place of employment and at all times when the licensee wears a uniform in the course of his employment in the private detective or private security business.

(g) Notwithstanding any other provisions of this Code section, any person who is to be licensed under this Code section shall agree that if such person makes a false statement in the application or if such person is found to have been convicted of a felony and has not had all his or her civil rights restored pursuant to law, then the board shall be authorized to suspend any license granted to such person without a prior hearing as required in Code Section 43–38–11. (a)(1) Any other law to the contrary notwithstanding, the minimum annual salary of each coroner in any of the counties in this state in the following population brackets shall be fixed according to the population of the county in which he or she serves, as determined by the United States decennial census of 1990 or any future such census. Except as otherwise provided in paragraph (2) of this subsection, each such coroner shall receive an annual salary, payable in equal monthly installments from the funds of the coroner's county, of not less than the amount fixed in the following schedule:

Population	Minimum Salary
0—11,889	$ 1,200.00
11,890—19,999	2,400.00
20,000—34,999	3,600.00

(2) On and after July 1, 2001, whenever the employees in the classified service of the State Personnel Administration receive a cost-of-living increase or general performance based increase of a certain percentage or a certain amount, the amounts fixed in the minimum salary schedule in paragraph (1) of this subsection, and in Code Section 45–16–11.1, or the amounts derived by increasing each of said amounts through the application of longevity increases pursuant to subsection (b) of this Code section, where applicable, shall be increased by the same percentage or same amount applicable to such state employees. If the cost-of-living increase or general performance based increase received by state employees is in different percentages or different amounts as to certain categories of employees, the amounts fixed in the minimum salary schedule in paragraph (1) of this subsection, and in Code Section 45–16–11.1, or the amounts derived through the application of longevity increases, shall be increased by a percentage or an amount not to exceed the average percentage or average amount of the general increase in salary granted to the state employees. The Office of Planning and Budget shall calculate the average percentage increase or average amount increase when necessary. The periodic changes in the amounts fixed in the minimum salary schedule in paragraph (1) of this subsection, and in Code Section 45–16–11.1, or the amounts derived through the application of longevity increases, as authorized by this paragraph shall become effective on the first day of January following the date that the cost-of-living increases received by state employees become effective; provided, however, that if the cost-of-living increases or general performance based increases received by state employees become effective on January 1, such periodic changes in the amounts fixed in the minimum salary schedule in paragraph (1) of this subsection, and in Code Section 45–16–11.1, or the amounts derived through the application of longevity increases, as authorized by this paragraph shall become effective on the same date that the cost-of-living increases or general performance based increases received by state employees become effective.

(3) The county governing authority may supplement the minimum annual salary of the coroner in such amount as it may fix from time to time; but no coroner's compensation supplement shall be decreased during any term of office. Any prior expenditure of county funds to supplement the coroner's salary in the manner authorized by this paragraph is ratified and confirmed. Nothing contained in this paragraph shall prohibit the General Assembly by local law from supplementing the annual salary of the coroner.

(b) The amounts provided in paragraph (1) of subsection (a) of this Code section and Code Section 45–16–11.1, as increased by paragraph (2) of subsection (a) of this Code section, shall be increased by multiplying said amounts by the percentage which equals 5 percent times the number of completed four-year terms of office served by any coroner after December 31, 2000, effective the first day of January following the completion of each such period of service.

(c) The minimum salaries provided for under this Code section shall be in addition to any fees paid by the county governing authority to the coroner on a per-call basis and in addition to any expenses.

(d) The minimum salaries provided for in this Code section shall be considered as salary only. Expenses for deputies, equipment, supplies, copying equipment, and other necessary and reasonable expenses for the operation of a coroner's office shall come from funds other than the funds specified as salary in this Code section.

(e) This Code section shall not be construed to reduce the salary of any coroner in office on July 1, 2001; provided, however, that successors to such coroners in office on July 1, 2001, shall be governed by the provisions of this Code section. All local legislation in effect on July 1, 2001, or enacted thereafter affecting compensation for coroners of the various counties shall be of full force and effect except where the same provides for a salary lower than provided in this Code section, in which event this Code section shall prevail.

In addition to the minimum salary provided for in Code Section 45–16–11, in any county which is the site of more than one state correctional institution or prison for adults or juveniles and which compensates the county coroner by salary, the state shall compensate the county coroner in the amount of $ 110.00 for each state inmate death in such county. The county coroner of such a county is authorized to accept the compensation provided in accordance with this Code section despite any local Act which requires such a coroner to send fees to the county treasury or the county governing authority.

§ 45–16–22. Duties of director of division

(a) The director of the division is authorized and directed to cooperate with and assist the peace officers in charge, medical examiners, and coroners of the state in making the facilities of the division available for the performing of medical examiners' inquiries on dead bodies as required by this article.

(b) The county governing authority shall after consulting with the coroner, if any, be authorized to appoint one or more local medical examiners who shall be licensed physicians or pathologists. The chief medical examiner may, at the request of a county governing authority, authorize one or more licensed physicians or pathologists at convenient locations throughout the state to act as local medical examiners in performing medical examiners' inquiries as required by this article. The chief medical examiner shall confer with local county officials in making appointments of regional and local medical examiners. Any regional or local medical examiner appointed by the chief medical examiner shall

have such jurisdiction within this state as designated by the chief medical examiner.

(c) Except as otherwise provided in this article, it shall be in the sole discretion of the medical examiner to determine whether or not an autopsy or limited dissection is required; provided, however, that the medical examiner shall give due consideration to the opinions of the coroner and the peace officer in charge regarding the requirements of accepted investigation techniques and the rules of evidence applicable thereto.

(d) In the event that any local medical examiner or regional medical examiner is unable or unwilling to serve in any case, the coroner or the peace officer in charge may call upon the chief medical examiner, who shall perform a medical examiner's inquiry or direct another medical examiner to perform such inquiry.

(e) For each external examination so performed, in cases where limited dissection or autopsy of the body is not required, the medical examiner shall receive the fee set in accordance with the provisions of Code Section 35–3–151. The fee in each case is to be paid from funds of the county in which the act was committed; or, if the county in which the act was committed is unknown, the fee shall be paid from funds of the county in which the body was found. In the event the place in which the act was committed is not known but is later established, the county in which the act was committed shall be responsible for payment of fees incurred by the medical examiner. Subject to funds being appropriated or otherwise available for such purpose, the chief medical examiner shall provide transportation of the deceased person to the site of the autopsy, if such autopsy is to be performed by a state or regional medical examiner employed by the state, and to return the body to the county where the death occurred.

(f) When death occurs in a hospital as a direct result and consequence of acts or events taking place in a county other than the one in which such death occurs, the body shall be returned to the county in which such acts or events took place. When a dead body is found in a county in which the acts or events leading to death did not occur, it shall be returned to the county in which the acts or events did occur, if known. The coroner or local medical examiner of the county in which such acts or events took place shall assume jurisdiction and the medical examiner's inquiry, if any performed, shall be paid for from funds of the county in which such acts or events took place.

(f.1) When death occurs in a hospital as a direct result and consequence of acts or events taking place in a county other than the one in which such death occurs, the hospital shall immediately notify the coroner or the county medical examiner of the county in which the acts or events resulting in the death occurred.

(g) In the event that a medical examiner's inquiry is performed by the chief medical examiner or an employee thereof, no fee therefor shall be imposed pursuant to this Code section. § 45–16–23. Delegation of powers to local medical examiners, forensic consultants, and medical examiner's investigators

(a) Notwithstanding any other provision of this chapter, any coroner or county medical examiner may delegate to a local medical examiner, forensic consultant, or medical examiner's investigator the power to perform those duties of such coroner or medical examiner specified in this Code section if the person to whom such power is thus delegated meets the applicable requirements of this Code section for the performance of such duties, but the performance of those delegated duties shall not in any manner infringe upon or diminish the authority of the peace officer in charge at the scene of the crime.

(b) A local medical examiner shall be a licensed physician appointed by the state medical examiner to perform scene investigations, external examinations, limited dissections, autopsies, or any combination of such duties.

(c) A forensic consultant shall be an expert in a field of forensic science, including but not limited to odontology or anthropology, appointed and authorized by the state medical examiner to examine human remains and evidence under the medical examiner's jurisdiction.

(d) A medical examiner's investigator shall be a person employed by a medical examiner to perform duties of such medical examiner with the same authority as the medical examiner while at the scene of death and during subsequent investigation, except that no medical examiner's investigator is authorized to make any arrest or perform official external examinations, limited dissections, or autopsies.

§ 45–16–24. Notices of death to coroners or county medical examiners; orders to conduct medical examiner's inquiries

(a) When any person dies in any county in this state:

(1) As a result of violence;

(2) By suicide or casualty;

(3) Suddenly when in apparent good health;

(4) When unattended by a physician;

(5) In any suspicious or unusual manner, with particular attention to those persons 16 years of age and under;

(6) After birth but before seven years of age if the death is unexpected or unexplained;

(7) As a result of an execution carried out pursuant to the imposition of the death penalty under Article 2 of Chapter 10 of Title 17;

(8) When an inmate of a state hospital or a state, county, or city penal institution; or

(9) After having been admitted to a hospital in an unconscious state and without regaining consciousness within 24 hours of admission,

it shall be the duty of any law enforcement officer or other person having knowledge of such death to notify immediately the coroner or county medical examiner of the county in which the acts or events resulting in the death occurred or the body is found. For the purposes of this Code section, no person shall be deemed to have died unattended when the death occurred while the person was a patient of a hospice licensed under Article 9 of Chapter 7 of Title 31.

(b) A coroner or county medical examiner who is notified of a death pursuant to subsection (a) of this Code section shall order a medical examiner's inquiry of that death.

(c) Whenever an affidavit is made and filed with a court having criminal jurisdiction attesting that a person came to his

death by foul play, that court may interrogate and examine witnesses, if any exist, as to the necessity of a medical examiner's inquiry. Should the court decide that a medical examiner's inquiry is essential to the ends of justice, such inquiry shall be ordered by that court.

(d) A medical examiner's inquiry required under this Code section shall be reduced to writing and filed as provided in Code Section 45–16–32. At the time of such filing, a copy of the medical examiner's inquiry into a death reported to a coroner or county medical examiner pursuant to paragraph (6) of subsection (a) of this Code section shall also be transmitted to the department of family and children services of the county in which the child resided at the time of death.

Laws 1953, Jan.-Feb. Sess., p. 602, § 8; Laws 1984, p. 812, § 2; Laws 1985, p. 1073, § 1; Laws 1990, p. 1735, § 3; Laws 1994, p. 391, § 1; Laws 2009, Act 29, § 1B, eff. July 1, 2009.

§ 45–16–25. Duties of coroner or county medical examiner upon receipt of notice

(a)(1) Upon receipt of the notice required by Code Section 45–16–24, the coroner or county medical examiner shall immediately take charge of the body. If a registered professional nurse authorized to make a pronouncement of death under Code Section 31–10–16 or a qualified physician is not available, a coroner, deputy coroner, or medical examiner's investigator may make a pronouncement of death at the investigation scene if, and only if, one or more of the following conditions is met:

(A) The body is in a state of rigor mortis with lividity present;

(B) The body is in a state of decomposition evidenced by a component of putrefaction;

(C) The body is skeletonized; or

(D) Death has been established by qualified emergency medical services personnel.

(2) It shall be the duty of a coroner notified as required by Code Section 45–16–24 to summon a medical examiner and proper peace officer. It shall be the duty of a county medical examiner so notified to summon a proper peace officer. When present at the scene of death, the peace officer shall have jurisdiction over the scene of death. The medical examiner or coroner and the peace officer shall together make inquiries regarding the cause, manner, and circumstances of death. If either the peace officer or medical examiner is not present at the scene of death, then whichever of the two officers is present shall have jurisdiction over the scene of death. If neither the peace officer nor the medical examiner is present at the scene of death in any county in which the office of coroner has not been replaced by a county medical examiner, the coroner shall assume the responsibility of such officers at the scene of death and shall have the body transported to a local medical examiner who shall conduct a medical examiner's inquiry. The medical examiner, at any time, to facilitate examination, when he or she deems it necessary, may have the body embalmed or retain it for refrigeration for preservation or to avoid the threat of infectious disease prior to release of the body to the next of kin. Such expense of embalming shall be paid by the county of the coroner's or medical examiner's jurisdiction.

(b) When positive identification of dead bodies has not been established conclusively through personal visual examination of the remains by persons well acquainted with the decedent in life or by comparison of fingerprints or footprints or by identification of unique physical characteristics, such as prosthetic appliances, or by comparison of skeletal X-rays, including previous fractures, or by amputations, the medical examiner must either chart or X-ray the decedent's dentition or call upon a licensed dentist of the medical examiner's choosing to carry out a dental examination of the body. This may be accomplished either by examination in situ or by removal of the jaws with teeth to the dentist's office. The dentist shall chart the deceased's dentition and make two copies, one of which shall be filed with the medical examiner's inquiry report to the division and the other with the Georgia Crime Information Center of the Georgia Bureau of Investigation. The dentist may, at his or her discretion, make such X-rays of the mouth as he or she deems necessary. The dentist shall be paid a fee as determined in accordance with Code Section 35–3–151. These fees shall be paid by the county of the coroner's or local medical examiner's jurisdiction.

(c) The coroner or county medical examiner shall, in the absence of the next of kin of the deceased person, take possession of all property of value found on such person, make an exact inventory thereof on his or her report, and surrender the same to the person entitled to its custody or possession. The coroner, medical examiner, or peace officer shall take possession of any objects, anatomical specimens, or articles which, in his or her opinion, may be helpful in establishing the cause of death, manner of death, or identification of the deceased; and in cooperation with a forensic laboratory he or she may make such tests and examinations of said objects, specimens, or articles as may be necessary or useful in determining the cause of death, manner of death, or the identity of the deceased. At his or her discretion, the medical examiner or coroner may dispose of such objects, specimens, or articles when the medical examiner's or coroner's need for their retention has ended. In the event that a criminal prosecution arises, all such objects and articles together with reports of any examinations made upon them shall be retained in the custody of the investigating agency or the forensic laboratory which conducted the examination until their production as evidence is required by the prosecuting officer or upon written order of the peace officer in charge or court having proper jurisdiction.

(d) The Georgia Bureau of Investigation is authorized to perform a post mortem examination and autopsy on a person whose death occurs within a state owned or leased building or on the curtilage of such building. The Georgia Bureau of Investigation shall have jurisdiction relating to the investigation of such a death, and this authority and jurisdiction shall supersede any other authority or jurisdiction provided for by this article relating to a post mortem examination or autopsy.

§ 45–16–25.1. Release of dead bodies

A dead body, other than skeletal remains, taken into custody under this article shall be released to the next of kin of the deceased, or to the agent of the next of kin, no later than 24 hours after the demand for release by that next of kin, or agent thereof, unless by that time the peace officer, medical examiner, or coroner has made a written finding that foul play may have been involved in the death of the deceased.

Laws 1983, p. 728, § 1; Laws 1990, p. 1735, § 3.

§ 45–16–26. When medical examiner may assume duties of coroner

When there is no coroner or deputy coroner in a county in which the office of coroner has not been replaced by a county medical examiner or when both are absent from the county when needed or will not or cannot perform the duties required under this article, the medical examiner shall assume the duties and responsibilities of the coroner. When the medical examiner is performing the duties of the coroner in such cases, such medical

examiner may sign the death certificate except when an inquest is held.

Laws 1953, Jan.-Feb. Sess., p. 602, § 22; Laws 1984, p. 812, § 3; Laws 1985, p. 843, § 6; Laws 1990, p. 1735, § 3.

§ 45–16–27. When inquests required; investigation fees and costs; photographs and video recordings not subject to disclosure

(a) Coroners shall require an inquest to be conducted in their respective counties as follows:

(1) When any person dies under any circumstances specified in paragraphs (1) through (8) of subsection (a) of Code Section 45–16–24; provided, however, that an inquest is not required to be held, although the coroner is authorized to hold an inquest, under the following circumstances:

(A) When upon the completion of the medical examiner's inquiry the peace officer in charge and the medical examiner are satisfied that, even though death resulted from violence, no foul play was involved. In this event, the peace officer in charge and the medical examiner shall make a written report of their investigation and findings to the division as set forth in Code Section 45–16–32 and upon their recommendation, the coroner shall make and file a proper death certificate;

(B) When there is sufficient evidence to establish the cause and manner of death, even though the medical examiner's inquiry revealed that death resulted from foul play;

(C) When no demand for an inquest is made within 30 days after the filing of the death certificate. However, if such demand is made by the party or parties affected by the death, the coroner is authorized to hold the inquest;

(D) When upon the completion of the medical examiner's inquiry the medical examiner and peace officer in charge are sufficiently satisfied that death resulted from natural causes, and that medical examiner or coroner is willing to and does sign and file a proper death certificate, and no demand for an inquest is made within 30 days thereafter;

(D.1) In cases of deaths resulting from an accident involving any civil aircraft, it shall be the responsibility of the peace officer in charge to notify the National Transportation Safety Board or the Federal Aviation Administration of such accident, to proceed to the scene and guard the area in such manner that no bodies, wreckage, cargo, or mail shall be moved or disturbed until authorized by a representative of the National Transportation Safety Board or the Federal Aviation Administration except to the extent necessary to remove persons injured or trapped, to protect the wreckage from further damage, or to protect the public from injury. Where it is necessary to move aircraft wreckage, mail, or cargo, sketches, descriptive notes, and photographs shall be made, if possible, of the original positions and condition of the wreckage and any significant impact marks. The coroner or medical examiner shall assist investigators from the National Transportation Safety Board or the Federal Aviation Administration as authorized by federal law;

(E) When after full and complete investigation no evidence of foul play is found in cases of hidden cause of death which fall under the jurisdiction of the coroner. The coroner shall be authorized to sign the death certificate on the basis of the information given to him in the reports of the peace officer in charge and the medical examiner, provided that, in such hidden causes of death, after a complete investigation, if sufficient medical history is obtained by the coroner, the peace officer in charge, or the medical examiner to disclose the cause of death and if the attending physician will sign the death certificate, such cases shall not come under the jurisdiction of the coroner; provided, further, that, if there are sufficient competent eyewitnesses to an act in the opinion of the peace officer in charge, such cases shall not come under the jurisdiction of the coroner; or

(F) In cases of deaths of personnel in the armed forces of the United States government resulting from airplane disasters involving airplanes of the armed forces, including crashes or explosions, which deaths shall not come under the jurisdiction of the coroner. It shall be the responsibility of the peace officer in charge to notify the proper armed forces of the United States government immediately of such airplane crashes or explosions in order that they may send their trained forces to the scene for investigation. It shall be the duty of the peace officer in charge, when notified of such crashes or explosions, to proceed to the scene and guard the area in such manner that no bodies or parts of said airplanes shall be moved or disturbed until the arrival of proper investigating officers from the armed forces of the United States government;

(2) When an inmate of a state hospital or a state, county, or city penal institution dies unexpectedly without an attending physician or as a result of violence. The chief medical examiner or his or her designee, regional medical examiner, or local medical examiner shall perform all medical examiners' inquiries. The coroner, in those counties in which such office has not been replaced by a local medical examiner, shall hold an inquest after receiving the written reports as set forth in Code Section 45–16–32;

(3) When ordered by a court in connection with a medical examiner's inquiry ordered by that court pursuant to subsection (c) of Code Section 45–16–24; or

(4) Notwithstanding any other provisions of this subsection, no person shall be deemed to have died unattended by a physician when the death occurred while the person was a patient of a hospice licensed under Article 9 of Chapter 7 of Title 31.

(b) On and after January 1, 2007, coroners shall be entitled to an investigation fee of $175.00 where no jury is impaneled or a fee of $250.00 where a jury is impaneled and shall be paid upon receipt of a monthly statement to the county treasury. A deputy coroner shall receive the same fee as the coroner for the performance of services in place of the coroner and shall be paid upon receipt of a monthly statement to the county treasury. Such fee shall be paid within ten days after receipt of the coroner's monthly statement by the county where the investigation or inquest is held except in counties where the coroner receives an annual salary, in which case no fee shall be imposed upon the county by such salaried coroner or deputy coroner.

(b.1) Any local Acts providing for the compensation of the various coroners shall remain in full force and effect, except in those instances where such local Acts provide for a salary in an amount which is less than the amount of compensation such coroner would be entitled to pursuant to subsection (b) of this Code section in which case the coroner may select on an annual basis beginning January 1, 2007, to be compensated pursuant to subsection (b) of this Code section or by the salary provided for by local Act.

(c) When a coroner or a medical examiner or a medical examiner from the office of chief medical examiner, as established in Code Section 35–3–153, conducts an investigation into the death of an individual, the coroner, medical examiner, or medical examiner from the office of chief medical examiner shall be authorized to issue subpoenas to compel the production of any books, records, including but not limited to medical records from hospitals, medical clinics, psychiatric hospitals, physicians' offices, chiropractors' offices, and any other health care delivery facility, or papers relevant to the cause of death including without limitation AIDS confidential information as defined by Code Section 31–22–9.1. Any books, records, or papers received by the coroner, medical examiner, or medical examiner from the office of chief medical examiner pursuant to the subpoena must be

regarded as confidential information and privileged and not subject to disclosure under Article 4 of Chapter 18 of Title 50. The actual costs of copying any books, records, or papers for the purposes of responding to a subpoena under this subsection shall be paid out of county funds to the person or entity required to respond to that subpoena, and the governing authority of the county of which that coroner or county medical examiner is a public officer shall pay those costs within 30 days after a bill therefor is submitted to the county. A medical examiner from the office of chief medical examiner shall pay the costs of copying from state funds within 30 days after a bill therefor is submitted to the state.

(d) Autopsy photographs shall not be subject to disclosure pursuant to Article 4 of Chapter 18 of Title 50; provided, however, that this subsection shall have no application to the disclosure of such photographs to law enforcement agencies and prosecutors for law enforcement purposes or, in closed criminal investigations, to medical schools, medical facilities, and physicians for medical purposes; to individuals who have secured a written release from the deceased's next of kin; or to the next of kin. It shall be the responsibility of the next of kin to show proof of the familial relationship. For purposes of securing a written release or when access to the photographs is requested by the next of kin, the deceased's next of kin shall be:

(1) The spouse of the deceased if living;

(2) If there is no living spouse of the deceased, an adult child of the deceased;

(3) If there is no living spouse or adult child, a parent of the deceased;

(4) If there is no living spouse, adult child, or parent, a sibling of the deceased;

(5) If there is no living spouse, adult child, parent, or sibling of the deceased, a grandparent of the deceased;

(6) If none of the above are living, an uncle of the deceased;

(7) If none of the above are living, an aunt of the deceased; or

(8) If none of the above are living, a first cousin of the deceased.

A superior court may, in closed criminal investigations, order the disclosure of such photographs upon findings in writing that disclosure is in the public interest and that it outweighs any privacy interest that may be asserted by the deceased's next of kin. In any such action, the court shall review the photographs in question in camera and may condition any disclosure on such measurers as the court may deem necessary to accommodate the interests of the parties before it.

(e)(1) Crime scene photographs and video recordings, including photographs and video recordings created or produced by a state or local agency or by a perpetrator or suspect at a crime scene, which depict or describe a deceased person in a state of dismemberment, decapitation, or similar mutilation including, without limitation, where the deceased person's genitalia are exposed, shall not be subject to disclosure pursuant to Article 4 of Chapter 18 of Title 50; provided, however, that this subsection shall not prohibit disclosure of such material to the deceased's next of kin or to an individual who has secured a written release from the next of kin. It shall be the responsibility of the next of kin to show proof of the familial relationship. For purposes of such access, the deceased's next of kin shall be:

(A) The spouse of the deceased if living;

(B) If there is no living spouse of the deceased, an adult child of the deceased; or

(C) If there is no living spouse or adult child, a parent of the deceased.

(2) Subject to the provisions of paragraph (3) of this subsection, in the case of closed criminal investigations a superior court may order the disclosure of such photographs or video recordings upon findings in writing that disclosure is in the public interest and outweighs any privacy interest that may be asserted by the deceased person's next of kin. In making such determination, the court shall consider whether such disclosure is necessary for public evaluation of governmental performance, the seriousness of the intrusion into the family's right to privacy, and whether such disclosure is the least intrusive means available considering the availability of similar information in other public records. In any such action, the court shall review the photographs in question in camera with the custodian of crime scene materials present and may condition any disclosure on such condition as the court may deem necessary to accommodate the interests of the parties.

(3) Prior to releasing any crime scene material described in paragraph (1) of this subsection, the custodian of such material shall give the deceased person's next of kin at least two weeks' notice. No court shall order a disclosure pursuant to paragraph (2) of this subsection which would disregard or shorten the duration of such notice requirement.

(4) The provisions of this subsection shall apply to all undisclosed material which is in the custody of a state or local agency on the effective date of this subsection and to any such material which comes into the custody of a state or local agency after such date.

(5) This subsection shall not apply to disclosure of crime scene material to counsel representing a convicted defendant in a habeas corpus action pursuant to Chapter 14 of Title 9, on an extraordinary motion for new trial under Code Section 5–5–40 or 5–5–41, or in a federal habeas corpus action under Section 2254 or 2255 of Title 28 of the United States Code for the purpose of preparing to file or litigating such proceedings. Counsel may disclose such materials to his or her client and any expert or investigator assisting counsel but shall not otherwise disseminate such materials, except to the extent they may be necessary exhibits in court proceedings. A request pursuant to this paragraph shall clearly state that such request is being made for the purpose of preparing to file and litigate proceedings enumerated in this paragraph.

(6) The director of the Georgia Bureau of Investigation and the Board of Public Safety shall promulgate rules and regulations governing the viewing of materials described in paragraph (1) of this subsection by bona fide credentialed members of the press.

Historical and Statutory Notes

Laws 2010, Act 414, § 2, provides:

"The General Assembly finds that photographs or video recordings of certain crime scene photos depict the deceased in graphic and often disturbing fashion. Such photographs or video may depict or describe the deceased nude, grossly dismembered, or decapitated. As such photographs or video recordings are highly sensitive depictions of the deceased which, if viewed, copied, or publicized, could result in trauma, sorrow, humiliation, or emotional injury to the immediate family of the deceased, as well as injury to the memory of the deceased. The legislature finds that the existence of certain publications and the Internet and the proliferation of personal computers throughout the world encourages and promotes the wide dissemination of photographs and video recordings 24 hours a day and that widespread unauthorized dissemination of such images would subject the immediate family of the deceased to continuous injury."

§ 45–16–27.1. When autopsies required

(a) Where a coroner or county medical examiner has been notified pursuant to paragraph (6) of subsection (a) of Code Section 45–16–24 of the death of any person after birth but before seven years of age whose death is unexpected or unexplained, the medical examiner's inquiry required by Code Section 45–16–25 shall include an autopsy unless that inquiry shows that such death was expected or explainable with a reasonable degree of medical certainty.

(b) The provisions of this Code section shall apply notwithstanding subsection (b) of Code Section 45–16–22 or any other provision of this article.

Laws 1990, p. 1735, § 3; Laws 2002, p. 415, § 45.

§ 45–16–28. Authority to perform autopsy

In the case of death of any person under such circumstances as would not require a medical examiner's inquiry under Code Section 45–16–24, any physician who is duly licensed under the laws of this state or any other state having licensing requirements equal to or greater than those imposed by this state shall be deemed to have been legally authorized to perform an autopsy upon the body of a deceased person when such autopsy has been consented to by the person assuming custody of the body for the purposes of burial, such as the husband, wife, father, mother, child, guardian, next of kin, or, in the absence of any of the foregoing, a friend of such deceased person charged by law with the responsibility of burial. If two or more of such persons assume custody of the body, the consent of one of them shall be deemed sufficient legal authorization for the performance of the autopsy.

Laws 1953, Jan.-Feb. Sess., p. 602, § 6; Laws 1990, p. 1735, § 3.

§ 45–16–29. Removal of body prior to investigation prohibited

No person shall move or authorize the removal of any body from the place where the same is found until the investigation is completed and such removal is authorized by the coroner or medical examiner present at such investigation; or, if no such coroner or medical examiner is present, the peace officer shall authorize such removal; provided, however, that this Code section shall not apply to the removal of a body where the death occurred while the person was a patient of a hospice licensed under Article 9 of Chapter 7 of Title 31. If the death resulted from an accident involving the operation of civil aircraft, no body shall be removed until authorized by the representative of the National Transportation Safety Board or the Federal Aviation Administration.

No person shall move or transport a body across a Georgia state line until the investigation of the case and the medical examiner's inquiry are complete and until the removal of the body is authorized by the coroner or medical examiner. Except when the conduct is a violation of Code Section 16–10–94, any person who violates this Code section shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than $ 500.00 or more than $ 1,000.00 or 60 days in jail, or both.

When the deceased body lies in a place inconvenient for holding a medical examiner's inquiry, the medical examiner or coroner shall be allowed to remove the body to the autopsy room of the nearest public hospital or morgue. If neither the coroner nor the medical examiner is immediately available, the peace officer may assume the authority to have the body moved to such facility. When such facility is not reasonably available, the body may be removed to such other suitable place as may be designated by the coroner or the medical examiner or by the peace officer in charge in the absence of the coroner or medical examiner. If the peace officer in charge is present, no such body shall be removed until photographs of the body and surrounding premises have been made and a thorough investigation of the premises has been made by the proper investigating authorities.

The coroner or county medical examiner may file all original reports with the clerk of the superior court of the county. In cases where such report indicates a suspicion of foul play, the medical examiner and peace officer in charge shall transmit any specimens, samples, or other evidence to a forensic laboratory for analysis. In cases where reports indicating foul play are verified by the forensic laboratory, the laboratory shall provide a completed lab report to the appropriate prosecuting attorney where the acts or events leading to the death occurred.

Miscellaneous Offenses and Penalties

§ 46–2–90. Liability for unlawful acts

If any company under the jurisdiction of the commission does, causes to be done, or permits to be done any act which is prohibited, forbidden, or declared to be unlawful, or fails to do any act which is required either by a law of this state or by an order of the commission, such company shall be liable to the persons affected thereby for all loss, damage, or injury caused thereby or resulting therefrom. An action to recover for such loss, damage, or injury may be brought in any court of competent jurisdiction by any such person. In case of recovery, if the jury finds that such act or failure to act was willful, it may fix a reasonable attorney's fee, which shall be taxed and collected as part of the costs of the case.

Laws 1907, p. 72, § 9.

Formerly Civil Code 1910, § 2666; Code 1933, § 93–415.

§ 46–2–91. Civil penalty for violation of laws or regulations

(a) Any person, firm, or corporation (referred to in this Code section as a "utility") subject to the jurisdiction of the commission, which utility willfully violates any law administered by the commission or any duly promulgated regulation issued thereunder or which fails, neglects, or refuses to comply with any order after notice thereof, shall be liable to a penalty not to exceed $ 15,000.00 for such violation and an additional penalty not to exceed $ 10,000.00 for each day during which such violation continues.

(b)(1) The commission, after a hearing conducted after not less than 30 days' notice, shall determine whether any utility has willfully violated any law administered by the commission or any duly promulgated regulation issued thereunder, or has failed, neglected, or refused to comply with any order of the commission. Upon an appropriate finding of a violation, the commission may impose by order such civil penalties as are provided by subsection (a) of this Code section. In each such proceeding, the commission shall maintain a record as provided in paragraph (8) of subsection (a) of Code Section 50–13–13 including all pleadings, a transcript of proceedings, a statement of each matter of which the commission takes official notice, and all staff memoranda or data submitted to the commission in connection with its consideration of the case. All penalties and interest thereon (at the rate of 10 percent per annum) recovered by the commission shall be paid into the general fund of the state treasury.

(2) Any party aggrieved by a decision of the commission may seek judicial review as provided in subsection (c) of this Code section.

(c)(1) Any party who has exhausted all administrative remedies available before the commission and who is aggrieved by a final decision of the commission in a proceeding described in subsection (b) of this Code section may seek judicial review of the final order of the commission in the Superior Court of Fulton County.

(2) Proceedings for review shall be instituted by filing a petition within 30 days after the service of the final decision of the commission or, if a rehearing is requested, within 30 days after the decision thereon. A motion for rehearing or reconsideration after a final decision by the commission shall not be a prerequisite to the filing of a petition for review. Copies of the petition shall be served upon the commission and all parties of record before the commission.

(3) The petition shall state the nature of the petitioner's interest, the facts showing that the petitioner is aggrieved by the decision, and the ground, as specified in paragraph (6) of this subsection, upon which the petitioner contends that the decision should be reversed. The petition may be amended by leave of court.

(4) Within 30 days after service of the petition, or within such further time as is stipulated by the parties or as is allowed by the court, the agency shall transmit to the reviewing court the original or a certified copy of the entire record of the proceedings under review. By stipulation of all parties to the review proceedings, the record may be shortened. A party unreasonably refusing to stipulate that the record be limited may be taxed for the additional costs. The court may require or permit subsequent corrections or additions to the record.

(5) If, before the date set for hearing, application is made to the court for leave to present additional evidence, and it is shown to the satisfaction of the court that the additional evidence is material and there were good reasons for failure to present it in the proceedings before the agency, the court may order that the additional evidence be taken before the commission upon such procedure as is determined by the court. The commission may modify its findings and decision by reason of the additional evidence and shall file that evidence and any modifications, new findings, or decisions with the reviewing court.

(6) The review shall be conducted by the court without a jury and shall be confined to the record. The court shall not substitute its judgment for that of the commission as to the weight of the evidence on questions of fact. The court may affirm the decision of the commission or remand the case for further proceedings. The court may reverse the decision of the commission if substantial rights of the petitioner have been prejudiced because the commission's findings, inferences, conclusions, or decisions are:

(A) In violation of constitutional or statutory provisions;

(B) In excess of the statutory authority of the commission;

(C) Made upon unlawful procedure;

(D) Clearly not supported by any reliable, probative, and substantial evidence on the record as a whole; or

(E) Arbitrary or capricious.

(7) A party aggrieved by an order of the court in a proceeding authorized under subsection (b) of this Code section may appeal to the Supreme Court of Georgia or to the Court of Appeals of Georgia in accordance with Article 2 of Chapter 6 of Title 5, the "Appellate Practice Act."

(d) The commission may file in the superior court in the county in which the person under order resides or in the county in which the violation occurred or, if the person is a corporation, in the county in which the corporation maintains its principal place of business a certified copy of a final order of the commission unappealed or of a final order of the commission affirmed upon appeal, whereupon the court shall render judgment in accordance therewith and notify the parties. The judgment shall have the same effect, and all proceedings in relation thereto shall thereafter be the same, as though the judgment had been rendered in an action duly heard and determined by the court.

§ 46–2–92. Penalties; proceedings to recover

(a) Every company under the jurisdiction of the commission, and all officers, agents, and employees of every such company, shall obey, observe, and comply with every order made by the commission under authority of law. Any company under the jurisdiction of the commission, or any officer, agent, or employee thereof, who or which violates any provision of this Code section, or who or which fails, omits, or neglects to obey, observe, and comply with any rule, regulation, order, direction, or requirement of the commission, shall forfeit to the state a sum of not more than $5,000.00 for each offense, the amount to be fixed by the presiding judge. Every violation of this Code section or any other Code section, or of any rule, regulation, order, direction, or requirement of the commission shall be a separate and distinct offense; in case of a continued violation, every day a violation thereof takes place shall be deemed a separate and distinct offense.

(b) An action for the recovery of the penalty provided in subsection (a) of this Code section may be brought in the county of the principal office in this state of such company, or in the county of the state where such violation occurs and such wrong is perpetrated, or in any county in this state through which the company operates. Where the violation consists of an excessive charge for the carriage of freight or passengers or for any other service rendered, as such violation is described in Code Section 46–9–250, an action may be brought in any county in which the charges are made, or through which counties it was intended that such passengers or freight should have been carried, or through which counties such company operates. Any action pursuant to this Code section shall be brought in the name of the state by direction of the Governor.

(c) Any proceeding to enforce the penalty provided in subsection (a) of this Code section may be tried at the first term of the court to which it is brought and shall be given precedence over other business by the presiding judge. The court shall not be adjourned until such proceeding is legally continued or disposed of. The decision in such case may be taken to the Court of Appeals as in other cases.

General Provisions

§ 46–5–1. Power of eminent domain; occupation of land and railroad rights-of-way regulated; powers of county or municipal authorities; construction of telegraph or telephone lines

(a)(1) Any telegraph or telephone company chartered by the laws of this or any other state shall have the right to construct, maintain, and operate its lines and facilities upon, under, along, and over the public roads and highways and rights of way of this state with the approval of the county or municipal authorities in charge of such roads, highways, and rights of way. The approval of such municipal authorities shall be limited to the process set forth in paragraph (3) of subsection (b) of this Code section, and the approval of the county shall be limited to the permitting process set forth in subsection (c) of this Code section. Upon making due compensation, as defined for municipal authorities in paragraph (9) of subsection (b) of this Code section and as provided for counties in subsection (c) of this Code section, a telegraph or telephone company shall have the right to construct, maintain, and operate its lines through or over any lands of this state; on, along, and upon the right of way and structures of any railroads; and, where necessary, under or over any private lands; and, to that end, a telegraph or telephone company may have and exercise the right of eminent domain.

(2) Notwithstanding any other law, a municipal authority or county shall not:

(A) Require any telegraph or telephone company to apply for or enter into an individual license, franchise, or other agreement with such municipal authority or county; or

(B) Impose any occupational license tax or fee as a condition of placing or maintaining lines and facilities in its public roads and highways or rights of way, except as specifically set forth in this Code section.

(3) A county or municipal authority shall not impose any occupational license, tax, fee, regulation, obligation, or requirement upon the provision of the services described in paragraphs (1) and (2) of Code Section 46–5–221, including any occupational license, tax, fee, regulation, obligation, or requirement specifically set forth in any part of this chapter other than Part 4.

(4) Whenever a telegraph or telephone company exercises its powers under paragraph (1) of this subsection, the posts, arms, insulators, and other fixtures of its lines shall be erected, placed, and maintained so as not to obstruct or interfere with the ordinary use of such railroads or public roads and highways, or with the convenience of any landowners, more than may be unavoidable. Any lines constructed by a telegraph or telephone company on the right of way of any railroad company shall be subject to relocation so as to conform to any uses and needs of such railroad company for railroad purposes. Such fixtures, posts, and wires shall be erected at such distances from the tracks of said railroads as will prevent any and all damage to said railroad companies by the falling of said fixtures, posts, or wires upon said railroad tracks; and such telegraph or telephone companies shall be liable to said railroad companies for all damages resulting from a failure to comply with this Code section.

(5) No county or municipal authority shall impose upon a telegraph or telephone company any build-out requirements on network construction or service deployment, and, to the extent that a telegraph or telephone company has elected alternative regulation pursuant to Code Section 46–5–165, such company may satisfy its obligations pursuant to paragraph (2) of Code Section 46–5–169 by providing communications service, at the company's option, through any affiliated companies and through the use of any technology or service arrangement; provided, however, that such company shall remain subject to its obligations as set forth in paragraphs (4) and (5) of Code Section 46–5–169.

(b)(1) Except as set forth in paragraph (6) of this subsection, any telegraph or telephone company that places or seeks to place lines and facilities in the public roads and highways or rights of way of a municipal authority shall provide to such municipal authority the following information:

(A) The name, address, and telephone number of a principal office and local agent of such telegraph or telephone company;

(B) Proof of certification from the Georgia Public Service Commission of such telegraph or telephone company to provide telecommunications services in this state;

(C) Proof of insurance or self-insurance of such telegraph or telephone company adequate to defend and cover claims of third parties and of municipal authorities;

(D) A description of the telegraph or telephone company's service area, which description shall be sufficiently detailed so as to allow a municipal authority to respond to subscriber inquiries. For the purposes of this paragraph, a telegraph or telephone company may, in lieu of or as supplement to a written description, provide a map on 8 ½ by 11 inch paper that is clear and legible and that fairly depicts the service area within the boundaries of the municipal authority. If such service area is less than the boundaries of an entire municipal authority, the map shall describe the boundaries of the geographic area to be served in clear and concise terms;

(E) A description of the services to be provided;

(F) An affirmative declaration that the telegraph or telephone company shall comply with all applicable federal, state, and local laws and regulations, including municipal ordinances and regulations, regarding the placement and

maintenance of facilities in the public rights of way that are reasonable, nondiscriminatory, and applicable to all users of the public rights of way, including the requirements of Chapter 9 of Title 25, the "Georgia Utility Facility Protection Act"; and

(G) A statement in bold type at the top of the application as follows: "Pursuant to paragraph (2) of subsection (b) of Code Section 46–5–1 of the Official Code of Georgia Annotated, the municipal authority shall notify the applicant of any deficiencies in this application within 15 business days of receipt of this application."

(2) If an application is incomplete, the municipal authority shall notify the telegraph or telephone company within 15 business days of the receipt of such application; such notice shall specifically identify all application deficiencies. If no such notification is given within 15 business days of the receipt of an application, such application shall be deemed complete.

(3) Within 60 calendar days of the receipt of a completed application, the municipal authority may adopt such application by adoption of a resolution or ordinance or by notification to the telegraph or telephone company. The failure of a municipal authority to adopt an application within 60 calendar days of the receipt of a completed application shall constitute final adoption of such application.

(4) If it modifies its service area or provisioned services identified in the original application, the telegraph or telephone company shall notify the municipal authority of changes to the service area or the services provided. Such notice shall be given at least 20 days prior to the effective date of such change. Such notification shall contain a geographic description of the new service area or areas and new services to be provided within the jurisdiction of the affected municipal authority, if any. The municipal authority shall provide to all telegraph and telephone companies located in its rights of way written notice of annexations and changes in municipal corporate boundaries which, for the purposes of this Code section, shall become effective 30 days following receipt.

(5) An application adopted pursuant to this Code section may be terminated by a telegraph or telephone company by submitting a notice of termination to the affected municipal authority. For purposes of this Code section, such notice shall identify the telegraph or telephone company, the affected service area, and the effective date of such termination, which shall not be less than 60 calendar days from the date of filing the notice of termination.

(6) Any telegraph or telephone company that has previously obtained permits for the placement of its facilities, has specified the name of such telegraph or telephone company in such permit application, has previously placed its facilities in any public right of way, and has paid and continues to pay any applicable municipal authority's occupational license taxes, permit fees, franchise fees, except as set forth in paragraph (8) of this subsection, or, if applicable, county permit fees shall be deemed to have complied with this Code section without any further action on the part of such telegraph or telephone company except as set forth in paragraphs (8), (9), (11), and (17) of this subsection.

(7) Any telegraph or telephone company that has placed lines and facilities in the public roads and highways or rights of way of a municipal authority without first obtaining permits or otherwise notifying the appropriate municipal authority of its presence in the public roads and highways or rights of way shall provide the information required by paragraph (1) of this subsection, if applicable, to such municipal authority on or before October 1, 2008. As of October 1, 2008, if any telegraph or telephone company, other than those who meet the requirements of paragraph (6) of this subsection, has failed or fails to provide the information required by paragraph (1) of this subsection to the municipal authority in which its lines or facilities are located, such municipal authority shall provide written notice to such telegraph or telephone company giving that company 15 calendar days from the date of receipt of such notice to comply with subsection (b) of this Code section. In the event the 15 calendar day cure period expires without compliance, such municipal authority may petition the Georgia Public Service Commission which shall, after an opportunity for a hearing, order the appropriate relief.

(8)(A) In the event any telegraph or telephone company has an existing, valid municipal franchise agreement as of January 1, 2008, the terms and conditions of such existing franchise agreement shall only remain effective and enforceable until the expiration of the existing agreement or December 31, 2012, whichever shall first occur.

(B) In the event any telegraph or telephone company is paying an existing occupational license tax or fee, based on actual recurring local services revenues, as of January 1, 2008, such payment shall be considered the payment of due compensation without further action on the part of the municipal authority. In the event that the rate of such existing tax or fee exceeds 3 percent of actual recurring local service revenues, that rate shall remain effective until December 31, 2012; thereafter, the payment by such telegraph or telephone company at the rate of 3 percent shall be considered the payment of due compensation without further action on the part of the municipal authority.

(9) As used in this Code section, "due compensation" for a municipal authority means an amount equal to no more than 3 percent of actual recurring local service revenues received by such company from its retail, end user customers located within the boundaries of such municipal authority. "Actual recurring local service revenues" means those revenues customarily included in the Uniform System of Accounts as prescribed by the Federal Communications Commission for Class "A" and "B" companies; provided, however, that only the local service portion of the following accounts shall be included:

(A) Basic local service revenue, as defined in 47 C.F.R. 32.5000;

(B) Basic area revenue, as defined in 47 C.F.R. 32.5001;

(C) Optional extended area revenue, as defined in 47 C.F.R. 32.5002;

(D) Public telephone revenue, as defined in 47 C.F.R. 32.5010;

(E) Local private line revenue, as defined in 47 C.F.R. 35.5040; provided, however, that the portion of such accounts attributable to audio and video program transmission service where both terminals of the private line are within the corporate limits of the municipal authority shall not be included;

(F) Other local exchange revenue, as defined in 47 C.F.R. 32.5060;

(G) Local exchange service, as defined in 47 C.F.R. 32.5069;

(H) Network access revenue, as defined in 47 C.F.R. 32.5080;

(I) Directory revenue, as defined in 47 C.F.R. 32.5320; provided, however, that the portion of such accounts attributable to revenue derived from listings in portion of directories not considered white pages shall not be included;

(J) Nonregulated operating revenue, as defined in 47 C.F.R. 32.5280; provided, however, that the portion of such accounts attributable to revenues derived from private lines shall not be included; and

(K) Uncollectible revenue, as defined in 47 C.F.R. 32.5300.

Any charge imposed by a municipal authority shall be assessed in a nondiscriminatory and competitively neutral manner.

(10) Any due compensation paid to municipal authorities pursuant to paragraph (9) of this subsection shall be in lieu of any other permit fee, encroachment fee, degradation fee, disruption fee, business license tax, occupational license tax, occupational license fee, or other fee otherwise permitted pursuant

to the provisions of subparagraph (A) of paragraph (7) of Code Section 36–34–2 or Code Section 32–4–92 et seq. or any other provision of law regardless of nomenclature.

(11) A telegraph or telephone company with facilities in the public rights of way of a municipal authority shall begin assessing due compensation, as defined in subsection (a) of this Code section, on subscribers on the date that service commences unless such company is currently paying a municipal authority's occupational license tax. Such due compensation shall be paid directly to each affected municipal authority within 30 calendar days after the last day of each calendar quarter. In the event that due compensation is not paid on or before 30 calendar days after the last day of each calendar quarter, the affected municipal authority shall provide written notice to such telegraph or telephone company, giving such company 15 calendar days from the date such company receives such notice to cure any such nonpayment. In the event the due compensation remitted to the affected municipal authority is not postmarked on or before the expiration of the 15 day cure period, such company shall pay interest thereon at a rate of 1 percent per month to the affected municipal authority. If the 15 day cure period expires on a Saturday, a Sunday, or a state legal holiday, the due date shall be the next business day. A telegraph or telephone company shall not be assessed any interest on late payments if due compensation was submitted in error to a neighboring municipal authority.

(12) Each municipal authority may, no more than once annually, audit the business records of a telegraph or telephone company to the extent necessary to ensure payment in accordance with this Code section. As used in this Code section, "audit" means a comprehensive review of the records of a company which is reasonably related to the calculation and payment of due compensation. Once any audited period of a company has been the subject of a requested audit, such audited period of such company shall not again be the subject of any audit. In the event of a dispute concerning the amount of due compensation due to an affected municipal authority under this Code section, an action may be brought in a court of competent jurisdiction by an affected municipal authority seeking to recover an additional amount alleged to be due or by a company seeking a refund of an alleged overpayment; provided, however, that any such action shall be brought within three years following the end of the quarter to which the disputed amount relates, although such time period may be extended by written agreement between the company and such affected municipal authority. Each party shall bear the party's own costs incurred in connection with any dispute. The auditing municipal authority shall bear the cost of the audit; provided, however, that if an affected municipal authority files an action to recover alleged underpayments of due compensation and a court of competent jurisdiction determines the company has underpaid due compensation due for any 12 month period by 10 percent or more, such company shall be required to pay such municipal authority's reasonable costs associated with such audit along with any due compensation underpayments; provided, further, that late payments shall not apply. All undisputed amounts due to a municipal authority resulting from an audit shall be paid to the municipal authority within 45 days, or interest shall accrue.

(13) The information provided pursuant to paragraph (1) of this subsection and any records or information furnished or disclosed by a telegraph or telephone company to an affected municipal authority pursuant to paragraph (12) of this subsection shall be exempt from public inspection under Code Section 50–18–70. It shall be the duty of such telegraph or telephone company to mark all such documents as exempt from Code Section 50–18–70, et seq., and the telegraph or telephone company shall defend, indemnify, and hold harmless any municipal authority and any municipal officer or employee in any request for, or in any action seeking, access to such records.

(14) No acceptance of any payment shall be construed as a release or as an accord and satisfaction of any claim an affected municipal authority may have for further or additional sums payable as due compensation.

(15) Any amounts overpaid by a company as due compensation shall be deducted from future due compensation owed.

(16) A telegraph or telephone company paying due compensation pursuant to this Code section may designate that portion of a subscriber's bill attributable to such charge as a separate line item of the bill and recover such amount from the subscriber.

(17) Nothing in this Code section shall affect the authority of a municipal authority to require telegraph or telephone companies accessing the public roads and highways and rights of way of a municipal authority to obtain permits and otherwise comply with the reasonable regulations established pursuant to paragraph (10) of subsection (a) of Code Section 32–4–92.

(18) If a telegraph or telephone company does not have retail, end user customers located within the boundaries of a municipal authority, then the payment by such company at the same rates that such payments were being made as of January 1, 2008, to a municipal authority for the use of its rights of way shall be considered the payment of due compensation; provided, however, that at the expiration date of any existing agreement for use of such municipal rights of way or December 31, 2012, whichever is earlier, the payment at rates in accordance with the rates set by regulations promulgated by the Department of Transportation shall be considered the payment of due compensation. Provided, further, that if a telegraph or telephone company begins providing service after January 1, 2008, and such telegraph or telephone company does not have retail, end user customers located within the boundaries of a municipal authority, the payment by such company at rates in accordance with the rates set by regulations promulgated by the Department of Transportation to a municipal authority for the use of its rights of way shall be considered the payment of due compensation.

(19) Nothing in this Code section shall be construed to affect any franchise fee payments which were in dispute on or before January 1, 2008.

(c) If a telegraph or telephone company accesses the public roads and highways and rights of way of a county and such county requires such telegraph or telephone company to pay due compensation, such due compensation shall be limited to an administrative cost recoupment fee which shall not exceed such county's direct, actual costs incurred in its permitting process, including issuing and processing permits, plan reviews, physical inspection and direct administrative costs; and such costs shall be demonstrable and shall be equitable among applicable users of such county's roads and highways or rights of way. Permit fees shall not include the costs of highway or rights of way acquisition or any general administrative, management, or maintenance costs of the roads and highways or rights of way and shall not be imposed for any activity that does not require the physical disturbance of such public roads and highways or rights of way or does not impair access to or full use of such public roads and highways or rights of way. Nothing in this Code section shall affect the authority of a county to require a telegraph or telephone company to comply with reasonable regulations for construction of telephone lines and facilities in public highways or rights of way pursuant to the provisions of paragraph (6) of Code Section 32–4–42.

(2) Any person who violates this Code section by avoiding or causing another to avoid lawful charges for any telecommunication service which lawful charges are in an amount in excess of $ 10,000.00 commits a felony and shall be punished by a fine of not more than $ 5,000.00 or imprisoned for not less than one nor more than five years, or both.

The amount of statutory damages shall be determined by the court as the court considers just;

(C) In any case where the court finds that any of the violations of this Code section were committed willfully and for the purposes of commercial advantage or financial gain, the court in its discretion may increase the award of statutory damages by an amount of not more than $ 50,000.00 for each unlawful telecommunication device involved in the action; or

(b) Such persons, corporations, and other entities shall update such plans at least every 24 months.

(c) Such original and updated plans shall be approved by the commission within a reasonable time upon a determination that the plans are reasonably effective in identifying the family violence shelters in the state and in maintaining the confidentiality of the location and address of such family violence shelters. Such injunction shall be dissolved by the court if a full trial on the merits is not scheduled within such period as may be specified by the court not to exceed 30 days.

(e) In the event that a person applies to a local exchange telephone company for use of the local exchange telephone company's facilities for the purpose of transmitting a recorded commercial message, the local exchange telephone company shall have the authority to review the message and deny the applicant's request for facilities if the message appears to violate the provisions of this Code section.

(C) The ADAD equipment will operate unattended or is not so designed and equipped with an automatic clock and calendar device that it will not operate unattended, even in the event of power failures;

(D) Such use involves either the random or sequential dialing of telephone numbers;

(E) The telephone number required to be stated in subparagraph (G) of this paragraph is not one which during normal business hours is promptly answered in person by a person who is an agent of the person on whose behalf the automatic calls are made and who is willing and able to provide information concerning the automatic calls;

(F) The automatic dialing and recorded message player does not automatically and immediately terminate its connection with any telephone call within ten seconds after the person called fails to give consent for the playing of a recorded message or hangs up his or her telephone;

(G) The recorded message fails to state clearly the name and telephone number of the person or organization initiating the call within the first 25 seconds of the call and at the conclusion of the call; or

(H) Such use involves calls to telephone numbers which at the request of the customer have been omitted from the telephone directory published by the local exchange company serving the customer or involves calls to hospitals, nursing homes, fire protection agencies, or law enforcement agencies;

(3)(A) A person may give consent to a call made with ADAD equipment when a line operator introduces the call and states an intent to play a recorded message. Any such consent shall apply only to one particular call and shall not constitute prior consent to receive further calls through the use of such ADAD equipment.

(B) Any person wishing to receive telephone calls through the use of ADAD equipment shall give his or her written consent to the person using, employing or directing another person to use, or contracting for the use of such ADAD equipment. Any forms used for such written consent by any person using, employing or directing another person to use, or contracting for the use of such ADAD equipment shall clearly and conspicuously state its purpose and effect and clearly and conspicuously give notice of how the consent may be withdrawn. A record of such written consent shall be maintained by the person to whom consent is given and shall be made available to the commission or its authorized representative, without further action, during normal business hours and following reasonable notice. Such consent shall, unless withdrawn, be valid for a period of two years from the date on which it is executed; and such record of written consent shall be maintained by the person to whom consent is given for at least the same period of time. Any consent to receive telephone calls through the use of ADAD equipment shall be void and withdrawn on the fifteenth day following the receipt of a letter withdrawing such consent. It shall be unlawful for any person to whom written consent is given to fail to maintain the record of such written consent for the time period required by this paragraph or to prevent or hinder the commission or its authorized representative from inspecting any such record of written consent.

(b) It shall not be unlawful for any person to use, to employ or direct another person to use, or to contract for the use of ADAD equipment in any manner covered by the provisions of subparagraphs (a)(2)(B) through (a)(2)(G) of this Code section when:

(1) Calls are made with ADAD equipment by a nonprofit organization, or by an individual using such calls other than for commercial profit-making purposes, and the calls do not involve the advertisement or offering for sale, lease, or rental of goods, services, or property;

(2) Calls made with ADAD equipment relate to payment for, service of, or warranty coverage of previously ordered or purchased goods or services; or

(3) Calls made with ADAD equipment relate to collection of lawful debts.

(c) It shall be unlawful for any person to connect any ADAD equipment to any telephone line in this state for the purpose of making telephone calls to persons in this state through the use of ADAD equipment unless a permit has been issued for such ADAD equipment by the commission. Any person desiring to use ADAD equipment in this state shall make application for a permit to the commission on forms prescribed by the commission and shall pay a fee as prescribed by the commission for such

permit. Permits shall be renewed biennially as prescribed by the commission and upon payment of a renewal fee. The fees charged shall cover the administrative cost for the issuance of such permits. Permits shall be subject to suspension or revocation for any violation of this Code section.

(d) The provisions of this Code section shall supersede any prior rule, regulation, or order of the commission governing the use of ADAD equipment but shall not prohibit or supersede any future rule, regulation, or order of the commission governing the use of ADAD equipment except to the extent that any such rule, regulation, or order directly conflicts with this subsection. Except for criminal sanctions, the commission is charged with the responsibility of enforcing this Code section; and the commission shall require local exchange companies to file with the commission appropriate tariff revisions to implement this subsection. Any person who operates or utilizes ADAD equipment in violation of the provisions of this Code section shall be subject to disconnection of telephone service if the violation does not cease within ten days from the date of notification to such person by the local exchange company; and the tariff revisions filed by local exchange companies shall provide for the giving of such notification by local exchange companies and for such disconnection of service.

(e) Any person who violates any provision of this Code section shall be guilty of a misdemeanor.

Laws 1987, p. 1159, § 1; Laws 1990, p. 8, § 46.

(a) As used in this Code section, the term:

(1) "ADAD equipment" means any device or system of devices which is used, whether alone or in conjunction with other equipment, for the purpose of automatically selecting or dialing telephone numbers and disseminating prerecorded messages to the numbers so selected or dialed.

(2) "976 number" means any seven-digit telephone number the first three digits of which are 976 or any other combination of numbers and for which a per-call fee is charged for calling such telephone number.

(b)(1) It shall be unlawful for any person making use of a 976 number for the receipt of incoming calls to use, to employ or direct another person to use, or to contract for the use of ADAD equipment for the purpose of soliciting any person to call such 976 number.

(2) It shall be unlawful for any person making use of a 976 number for the receipt of incoming calls to use, to employ or direct another person to use, or to contract for the use of the United States mail for the purpose of soliciting any person to call such 976 number.

(c) No telephone exchange company shall provide access to a 976 number or numbers to any person who solicits calls to such number or numbers through the use of ADAD equipment or through the use of the United States mail. The telephone exchange companies shall, upon the order of the commission, withdraw access to a 976 number or numbers from any person if calls to such number or numbers are solicited by ADAD equipment or are solicited through the use of the United States mail.

(d) The provisions of this Code section shall supersede any rule, regulation, or order governing the use of 976 numbers if such is in conflict with this Code section. Except for criminal sanctions, the commission is charged with the responsibility of enforcing this Code section. Any person who violates any provision of this Code section shall be subject to disconnection of 976 number telephone service if the commission determines that any violation has occurred and upon the commission's, thereafter, issuing an order directing such disconnection.

(e) Any person who violates any provision of subsection (b) of this Code section shall be guilty of a misdemeanor.

Laws 1988, p. 1246, § 1.

§ 46–5–25. Telephonic transmission of unsolicited commercial facsimile messages prohibited

(a) As used in this Code section, the term "telefacsimile" shall refer to any process by which electronic signals are transmitted by any telephone system for conversion into written text.

(b) It shall be unlawful for any person to initiate the transmission of, employ or direct another person to initiate the transmission of, or contract for the initiation of the transmission of an unsolicited facsimile message for the commercial purpose of advertising or offering the sale, lease, rental, or gift of any goods, services, or real or personal property.

(c)(1) Subsection (b) of this Code section shall not apply where the recipient has consented to the receipt of one or more telefacsimile messages or where there exists a prior contractual or business relationship between the recipient and the initiator or the initiator's principal.

(2) The exception provided for in paragraph (1) of this subsection shall not apply where the recipient has notified the initiator or the initiator's principal that the recipient does not wish to receive further telefacsimile messages from the initiator or the initiator's principal.

(d) Any person who violates this Code section shall be guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed $1,000.00. Each transmission of a facsimile message in violation of this Code section shall constitute a separate offense.

(e) The commission is charged with the responsibility of civil enforcement of this Code section and the commission shall require local exchange companies to file with the commission appropriate tariff revisions to implement this subsection. Any person who violates the provisions of this Code section shall be subject to disconnection of telephone service if the violation does not cease within ten days from the date of notification to such person by the local exchange company; and the tariff revisions filed by local exchange companies shall provide for the giving of such notification by local exchange companies and for such disconnection of service.

Laws 1990, p. 252, § 1.

§ 46–5–26. Telephone utilities or companies to provide access to live telephone operator

(a) Each telecommunications utility and telecommunications company that provides operator service shall ensure that a caller may obtain access to a live operator through a method designed to be easily and clearly understandable and accessible to the caller. A telecommunications utility or telecommunications company shall submit to the Public Service Commission the method by which the telecommunications utility or telecommunications company shall provide access to a live operator for review, except for a telecommunications utility or telecommunications company whose operator services are under the jurisdiction, regulation, and rules of the Public Service Commission. This Code section applies regardless of the method by which the telecommunications utility or telecommunications company provides the operator service. The requirements of this Code section shall not apply to telephones located in prisons or jail facilities or to wireless telecommunication services. For the purpose of this Code section, "operator services" means services that are provided when a caller dials "0".

(b) The failure of a telecommunications utility or telecommunications company to provide access to a live operator as required

in subsection (a) of this Code section shall not serve as the basis for a cause of action for personal injuries or damage to property.

Laws 1994, p. 520, § 1.

§ 46–5–27. Regulation of telephone solicitations; violations

(a) The General Assembly finds that:

(1) The use of the telephone to market goods and services is pervasive now due to the increased use of cost-effective telemarketing techniques;

(2) Over 30,000 businesses actively telemarket goods and services to business and residential customers;

(3) Every day, over 300,000 solicitors place calls to more than 18 million Americans, including citizens of this state;

(4) Telemarketing, however, can be an intrusive and relentless invasion of the privacy and peacefulness of individuals;

(5) Many citizens of this state are outraged over the proliferation of nuisance calls from telemarketers;

(6) Individuals' privacy rights and commercial freedom of speech can be balanced in a way that accommodates both the privacy of individuals and legitimate telemarketing practices; and

(7) It is in the public interest to establish a mechanism under which the individual citizens of this state can decide whether or not to receive telemarketing calls.

(b) As used in this Code section, the term:

(1) "Caller identification service" means a type of telephone service which permits telephone subscribers to see the telephone number of incoming telephone calls.

(2) "Residential, mobile, or wireless subscriber" means a person who has subscribed to telephone service from a local exchange company or mobile or wireless telephone service provider or other persons living or residing with such person.

(3) "Telephone solicitation" means any voice communication over a telephone line for the purpose of encouraging the purchase or rental of, or investment in, property, goods, or services, but does not include communications:

(A) To any residential, mobile, or wireless subscriber with that subscriber's prior express invitation or permission;

(B) By or on behalf of any person or entity with whom a residential, mobile, or wireless subscriber has a prior or current business or personal relationship; or

(C) By or on behalf of a charitable organization which has filed a registration statement pursuant to Code Section 43–17–5, is exempt from such registration under paragraphs (1) through (6) of subsection (a) of Code Section 43–17–9, or is exempt from such registration as a religious organization or agency referred to in paragraph (2) of Code Section 43–17–2.

Such communication may be from a live operator, through the use of ADAD equipment as defined in Code Section 46–5–23, or by other means.

(c) No person or entity shall make or cause to be made any telephone solicitation to the telephone line of any residential, mobile, or wireless subscriber in this state who has given notice to the commission, in accordance with regulations promulgated under subsection (d) of this Code section, of such subscriber's objection to receiving telephone solicitations.

(d)(1) The commission shall establish and provide for the operation of a data base to compile a list of telephone numbers of residential, mobile, and wireless subscribers who object to receiving telephone solicitations. It shall be the duty of the commission to have such data base in operation no later than January 1, 1999.

(2) Such data base may be operated by the commission or by another entity selected by and awarded a contract by the commission.

(3) No later than January 1, 1999, the commission shall promulgate regulations which:

(A) Require each local exchange company to inform its residential, mobile, or wireless subscribers of the opportunity to provide notification to the commission or its contractor that such subscriber objects to receiving telephone solicitations;

(B) Specify the methods by which each residential, mobile, or wireless subscriber may give notice to the commission or its contractor of his or her objection to receiving such solicitations and methods for revocation of such notice;

(C) Specify the length of time for which a notice of objection shall be effective and the effect of a change of telephone number on such notice;

(D) Specify the methods by which such objections and revocations shall be collected and added to the data base;

(E) Specify the methods by which any person or entity desiring to make telephone solicitations will obtain access to the data base as required to avoid calling the telephone numbers of residential, mobile, or wireless subscribers included in the data base; and

(F) Specify such other matters relating to the data base that the commission deems desirable.

(4) If, pursuant to 47 U.S.C. Section 227(c)(3), the Federal Communications Commission establishes a single national data base of telephone numbers of subscribers who object to receiving telephone solicitations, the commission shall include the part of such single national data base that relates to Georgia in the data base established under this Code section.

(e) The commission may provide by rule or regulation for administrative fees to be imposed upon:

(1) A residential, mobile, or wireless subscriber for each notice of inclusion in the data base established under this Code section; provided, however, that the commission shall not set this fee in an amount greater than $5.00; and

(2) A person or entity desiring to make telephone solicitations for access to or for electronic copies of the data base established under this Code section.

(f)(1) Information contained in the data base established under this Code section shall be used only for the purpose of compliance with this Code section or in a proceeding or action under subsection (h) or (i) of this Code section. Such information shall not be subject to public inspection or disclosure under Article 4 of Chapter 18 of Title 50.

(2) No person shall knowingly compile or disseminate or compile and disseminate information obtained from the data base for any reason other than those legitimate purposes established by law. Any person found guilty of violating this subsection shall be guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed $1,000.00. Each instance of an unauthorized disclosure of information from the data base shall constitute a separate offense.

(g)(1) Any person or entity who makes a telephone solicitation to the telephone line of any residential, mobile, or wireless subscriber in this state shall, at the beginning of such call, state clearly the identity of the person or entity initiating the call.

(2) No person or entity who makes a telephone solicitation to the telephone line of a residential, mobile, or wireless subscriber in this state shall knowingly utilize any method to block or otherwise circumvent such subscriber's use of a caller identification service.

(h) The administrator appointed pursuant to subsection (g) of Code Section 10–1–395 shall have authority to initiate proceedings, pursuant to Code Section 10–1–397, relating to a knowing violation or threatened knowing violation of subsection (c) or (g) of this Code section. Such proceedings include without limitation

proceedings to issue a cease and desist order, to issue an order imposing a civil penalty up to a maximum of $ 2,000.00 for each knowing violation, and to seek additional relief in any superior court of competent jurisdiction. Such actions shall be brought in the name of the state. The provisions of Code Sections 10–1–398, 10–1–398.1, and 10–1–405 shall apply to proceedings initiated by the administrator under this subsection. The administrator is authorized to issue investigative demands, issue subpoenas, administer oaths, and conduct hearings in the course of investigating a violation of subsection (c) or (g) of this Code section, in accordance with the provisions of Code Sections 10–1–403 and 10–1–404.

(i) Any person who has received more than one telephone solicitation within any 12 month period by or on behalf of the same person or entity in violation of subsection (c) or (g) of this Code section may either bring an action to enjoin such violation; bring an action to recover for actual monetary loss from such knowing violation or to receive up to $ 2,000.00 in damages for each such knowing violation, whichever is greater; or bring both such actions.

(j) It shall be a defense in any action or proceeding brought under subsection (h) or (i) of this Code section that the defendant has established and implemented, with due care, reasonable practices and procedures to effectively prevent telephone solicitations in violation of this Code section.

(k) No action or proceeding may be brought under subsection (h) or (i) of this Code section:

(1) More than two years after the person bringing the action knew or should have known of the occurrence of the alleged violation; or

(2) More than two years after the termination of any proceeding or action by the State of Georgia, whichever is later.

(*l*) A court of this state may exercise personal jurisdiction over any nonresident or his or her executor or administrator as to an action or proceeding authorized by this Code section in accordance with the provisions of Code Section 9–10–91.

(m) The remedies, duties, prohibitions, and penalties of this Code section are not exclusive and are in addition to all other causes of action, remedies, and penalties provided by law.

(n) No provider of telephone caller identification service shall be held liable for violations of this Code section committed by other persons or entities.

(h) Every deliberate violation of this Code section is grounds for a civil suit by the aggrieved subscriber against the service supplier responsible for the violation.

The commission may, at any time after notice and opportunity to be heard and for reasonable cause, suspend, revoke, alter, or amend any certificate issued under this article, under the "Motor Carrier Act of 1929," under the "Motor Carrier Act of 1931," or under prior law, if it shall be made to appear that the holder of the certificate has willfully violated or refused to observe any of the lawful and reasonable orders, rules, or regulations prescribed by the commission or any of the provisions of this article or any other law of this state regulating or taxing motor vehicles, or both, or if in the opinion of the commission the holder of the certificate is not furnishing adequate service.

"(b) If and when the commissioner shall undertake to revoke or modify any certificate on account of the public interest on the ground that the traffic conditions are such as not to justify the number of motor carriers which have been granted certificates over the route or routes in question, the preference shall be given to certificates in order of the time of their

issuance, so that those which have been issued later in time shall, other things being equal, be canceled rather than those issued earlier in time."

The 2005 amendment by Act 68 substituted "commission" for "commissioner" each place it appeared.

§ 46–7–6. Transfer of certificate

Any certificate issued pursuant to this article may be transferred or hypothecated upon application to and approval by the commission, and not otherwise.

§ 46–7–7. Considerations determining granting of certificate

(a) The commission shall issue a certificate to a person authorizing transportation as a motor common or contract carrier of passengers or household goods subject to the jurisdiction of the commission if it finds that the person is fit, willing, and able to provide the transportation to be authorized by the certificate and to comply with regulations of the commission. Fitness encompasses three factors:

(1) The applicant's financial ability to perform the service it seeks to provide;

(2) The applicant's capability and willingness to perform properly and safely the proposed service; and

(3) The applicant's willingness to comply with the laws of Georgia and the rules and regulations of the commission.

(b) The initial burden of making out a prima-facie case that an applicant is fit to provide such service rests with the applicant.

(c) Upon an applicant making out a prima-facie case as to the carrier's ability to provide the service, the burden shifts to protestant to show that the authority sought should not be granted.

(d) A protest of a motor carrier of passengers or of household goods to an application will not be considered unless the protesting carrier:

(1) Possesses authority from the commission to handle, in whole or in part, the authority which is being applied for and is willing and able to provide service and has performed service during the previous 12 month period or has actively in good faith solicited service during such period;

(2) Has pending before the commission an application previously filed with the commission for substantially the same authority; or

(3) Is granted by the commission leave to intervene upon a showing of other interests which in the discretion of the commission would warrant such a grant.

(e) The commission may issue a certificate without a hearing if the application is unprotested or unopposed.

§ 46–7–8. Rules as to application for certificate

The commission shall adopt rules prescribing the manner and form in which motor carriers of passengers or household goods shall apply for certificates required by this article. Such rules shall require that the application be in writing, under oath, and that the application:

(1) Contain full information concerning the applicant's financial condition, the equipment proposed to be used, including the size, weight, and capacity of each vehicle to be used, and other physical property of the applicant;

(2) State the complete route or routes over which the applicant desires to operate and the proposed time schedule of the operation; and

(3) Contain any such other or additional information as the commission may order or require.

(2) A fee of $ 150.00 to accompany each application for a certificate, or amendment to an existing certificate, where the applicant owns or operates six to 15 motor vehicles;

(3) A fee of $ 200.00 to accompany each application for a certificate, or amendment to an existing certificate, where the applicant owns or operates more than 15 motor vehicles;

(4) A fee of $ 75.00 to accompany each application for transfer of a certificate;

(5) A fee of $ 50.00 to accompany each application for intrastate temporary emergency authority under Code Section 46–7–13; and

(6) A fee of $ 50.00 to accompany each application for a motor carrier of property permit.

The commission, upon the filing of a petition for a certificate, shall fix a time and place for hearing thereon and shall, at least ten days before the hearing, give notice thereof by advertising the same at the expense of the applicant in a newspaper in Atlanta, in which sheriffs' notices are published. § 46–7–11. Certificate refused or revoked; new application

When a petition for a certificate under this article has been in whole or in part denied by the commission, or has been granted by the commission, and the order of the commission granting same has been quashed or set aside by a court of competent jurisdiction, a new application by the same petitioner or applicant therefor shall not be again considered by the commission within

three months from the date of the order denying the same or the judgment of the court quashing or setting aside the order.

§ 46–7–12. Certificate of indemnity insurance; self insurance

(a) No motor carrier of household goods or passengers shall be issued a certificate unless there is filed with the commission a certificate of insurance for such applicant or holder on forms prescribed by the commission evidencing a policy of indemnity insurance by an insurance company licensed to do business in this state, which policy must provide for the protection, in case of passenger vehicles, of passengers and the public against injury proximately caused by the negligence of such motor carrier, its servants, or its agents; and, in the case of vehicles transporting household goods, to secure the owner or person entitled to recover against loss or damage to such household goods for which the motor carrier may be legally liable . The commission shall determine and fix the amounts of such indemnity insurance and shall prescribe the provisions and limitations thereof. The insurer shall file such certificate. The failure to file any form required by the commission shall not diminish the rights of any person to pursue an action directly against a motor carrier's insurer.

(b) The commission shall have power to permit self–insurance, in lieu of a policy of indemnity insurance, whenever in its opinion the financial ability of the motor carrier so warrants.

(c) It shall be permissible under this article for any person having a cause of action arising under this article to join in the same action the motor carrier and the insurance carrier, whether arising in tort or contract.

§ 46–7–12.1. Motor carrier transportation contract; indemnity clause

(a) As used in this Code section, the term:

(1) "Motor carrier transportation contract" means a contract, agreement, or understanding covering:

(A) The transportation of property for compensation or hire by the motor carrier;

(B) Entrance on property by the motor carrier for the purpose of loading, unloading, or transporting property for compensation or hire; or

(C) A service incidental to activity described in subparagraph (A) or (B) of this paragraph, including, but not limited to, storage of property.

Motor carrier transportation contract shall not include the Uniform Intermodal Interchange and Facilities Access Agreement administered by the Intermodal Association of North America or other agreements providing for the interchange, use, or possession of intermodal chassis, containers, or other intermodal equipment.

(2) "Promisee" means the promisee and any agents, employees, servants, or independent contractors who are directly responsible to the promisee except for motor carriers party to a motor carrier transportation contract with a promisee and such motor carrier's agents, employees, servants, or independent contractors directly responsible to such motor carrier.

(b) Notwithstanding any provision of law to the contrary, a provision, clause, covenant, or agreement contained in, collateral to, or affecting a motor carrier transportation contract that purports to indemnify, defend, or hold harmless, or has the effect of indemnifying, defending, or holding harmless, the promisee from or against any liability for loss or damage resulting from the negligence or intentional acts or omissions of the promisee is against the public policy of this state and is void and unenforceable.

Historical and Statutory Notes

The 2009 amendment by Act 114 rewrote the section which had read:

"(a) No motor common carrier or motor contract carrier shall be issued a permit unless there is filed with the state revenue commissioner a certificate of insurance for such applicant or holder on forms prescribed by the commissioner evidencing a policy of indemnity insurance by an insurance company licensed to do business in this state, which policy must provide for the protection of passengers in the case of passenger vehicles and for protection of the public against injury proximately caused by the negligence of such motor common or motor contract carrier, its servants, or its agents. The state revenue commissioner shall determine and fix the amounts of such indemnity insurance and shall prescribe the provisions and limitations thereof. The insurer shall file such certificate. The failure to file any form required by the state revenue commissioner shall not diminish the rights of any person to pursue an action directly against a motor common or motor contract carrier's insurer.

"(b) The state revenue commissioner shall have power to permit self–insurance, in lieu of a policy of indemnity insurance, whenever in his or her opinion the financial ability of the motor common or motor contract carrier so warrants.

"(c) It shall be permissible under this article for any person having a cause of action arising under this article to join in the same action the motor common or motor contract carrier and the insurance carrier, whether arising in tort or contract."

Laws 2009, Act 114, § 10(a), provides:

"(a) Section 3 of this Act shall become effective on July 1, 2009, and shall apply to contracts entered into on or after such date."

§ 46–7–13. Temporary emergency authority

Notwithstanding any other provision of law to the contrary, in order to authorize the provision of passenger or household goods service for which there is an immediate and urgent need to a point or points, or within a territory, with respect to which there is no motor common or contract carrier service capable of meeting such need, upon receipt of an application for temporary emergency authority and upon payment of the appropriate fee as fixed by statute, the commission, under the authority of this Code section, may, in its discretion and without a hearing or other prior proceeding, grant to any person temporary motor carrier authority for such service. The order granting such authority shall contain the commission's findings supporting its determination under the authority of this Code section that there is an unmet immediate and urgent need for such service and shall contain such conditions as the commission finds necessary with respect to such authority. Unless otherwise provided in this Code section, such emergency temporary motor carrier authority, unless suspended or revoked for good cause within such period, shall be valid for such time as the commission shall specify but not for more than an aggregate of 30 days. Such authority shall in no case be renewed and shall create no presumption that corresponding permanent authority will be granted thereafter, except that, where a motor carrier granted temporary emergency motor carrier authority under the provisions of this Code section makes application during the period of said temporary emergency authority for permanent motor common or contract carrier authority corresponding to that authorized in its temporary emergency authority, the temporary emergency motor carrier authority will

be extended to the finalization of the permanent authority application unless sooner suspended or revoked for good cause within the extended period.

A motor common or contract carrier of passengers may discontinue its entire service on any route upon 30 days' published notice to be prescribed by the commission, and thereupon its certificate therefor shall be canceled. A motor common or contract carrier of passengers may discontinue any part of its service on any route upon 30 days' published notice, subject, however, to the right of the commission to withdraw its certificate for such route if, in the opinion of the commission, such diminished service is not adequate or is no longer compatible with the public interest.

The State of Georgia fully occupies and preempts the entire field of regulation over limousine carriers as regulated by this article; provided, however, that the governing authority of any county or municipal airport shall be authorized to permit any limousine carrier doing business at any such airport and may establish fees as part of such permitting process; provided, further, that such fees shall not exceed the airport's approximate cost of permitting and regulating limousine carriers; and provided, further, that such governing authorities of such airports shall accept a chauffeur's permit issued by the Department of Driver Services to the driver and evidence of a certificate issued to the limousine carrier by the Public Service Commission as adequate evidence of sufficient criminal background investigations and shall not require any fee for any further criminal background investigation. The list of licensed limousine carriers on the website of the Public Service Commission shall be sufficient evidence that a limousine carrier has a certificate issued by the Public Service Commission.

Reciprocal Agreements

§ 46–7–90. Penalties; hearings; judicial review

(a) Any motor or common contract carrier subject to the jurisdiction of the commission, which carrier willfully violates any law administered by the commission or any duly promulgated regulation issued thereunder or which fails, neglects, or refuses to comply with any order after notice thereof, shall be liable to a penalty not to exceed $15,000.00 for such violation and an additional penalty not to exceed $10,000.00 for each day during which such violation continues.

(b)(1) The commission, after a hearing conducted after not less than 30 days' notice, shall determine whether any carrier has willfully violated any law administered by the commission or any duly promulgated regulation issued thereunder, or has failed, neglected, or refused to comply with any order of the commission. Upon an appropriate finding of a violation, the commission may impose by order such civil penalties as are provided by subsection (a) of this Code section or by subsection (a) of Code Section 46–7–91. In each such proceeding, the commission shall maintain a record as provided in paragraph (8) of subsection (a) of Code Section 50–13–13 including all pleadings, a transcript of proceedings, a statement of each matter of which the commission takes official notice, and all staff memoranda or data submitted to the commission in connection with its consideration of the case. All penalties and interest thereon (at the rate of 10 percent per annum) recovered by the commission shall be paid into the general fund of the state treasury.

(2) Any party aggrieved by a decision of the commission may seek judicial review as provided in subsection (c) of this Code section.

(c)(1) Any party who has exhausted all administrative remedies available before the commission and who is aggrieved by a final decision of the commission in a proceeding described in subsection (b) of this Code section may seek judicial review of the final order of the commission in the Superior Court of Fulton County.

(2) Proceedings for review shall be instituted by filing a petition within 30 days after the service of the final decision of the commission or, if a rehearing is requested, within 30 days after the decision thereon. A motion for rehearing or reconsideration after a final decision by the commission shall not be a prerequisite to the filing of a petition for review. Copies of the petition shall be served upon the commission and all parties of record before the commission.

(3) The petition shall state the nature of the petitioner's interest, the facts showing that the petitioner is aggrieved by the decision, and the ground, as specified in paragraph (6) of this subsection, upon which the petitioner contends that the decision should be reversed. The petition may be amended by leave of court.

(4) Within 30 days after service of the petition, or within such further time as is stipulated by the parties or as is allowed by the court, the agency shall transmit to the reviewing court the original or a certified copy of the entire record of the proceedings under review. By stipulation of all parties to the review proceedings, the record may be shortened. A party unreasonably refusing to stipulate that the record be limited may be taxed for the additional costs. The court may require or permit subsequent corrections or additions to the record.

(5) If, before the date set for hearing, application is made to the court for leave to present additional evidence, and it is shown to the satisfaction of the court that the additional evidence is material and there were good reasons for failure to present it in the proceedings before the agency, the court may order that the additional evidence be taken before the commission upon such procedure as is determined by the court. The commission may modify its findings and decision by reason of the additional evidence and shall file that evidence and any modifications, new findings, or decisions with the reviewing court.

(6) The review shall be conducted by the court without a jury and shall be confined to the record. The court shall not substitute its judgment for that of the commission as to the weight of the evidence on questions of fact. The court may affirm the decision of the commission or remand the case for further proceedings. The court may reverse the decision of the commission if substantial rights of the petitioner have been prejudiced because the commission's findings, inferences, conclusions, or decisions are:

(A) In violation of constitutional or statutory provisions;

(B) In excess of the statutory authority of the commission;

(C) Made upon unlawful procedure;

(D) Clearly not supported by any reliable, probative, and substantial evidence on the record as a whole; or

(E) Arbitrary or capricious.

(7) A party aggrieved by an order of the court in a proceeding authorized under subsection (b) of this Code section may appeal to the Supreme Court of Georgia or to the Court of Appeals of Georgia in accordance with Article 2 of Chapter 6 of Title 5, the "Appellate Practice Act."

The commission may assess the person, firm, or corporation an amount sufficient to cover the reasonable expense of investigation incurred by the commission. The commission may also assess interest at the rate specified in paragraph (1) of subsection (b) of Code Section 46–7–90 on any fine or assessment imposed, to commence on the day the fine or assessment becomes delinquent. All fines, assessments, and interest collected by the commission shall be paid into the general fund of the state treasury. Any party aggrieved by a decision of the commission under this subsection may seek judicial review as provided in subsection (c) of Code Section 46–7–90.

(b) Any person, firm, or corporation who knowingly and willfully issues, publishes, or affixes or causes or permits the issuance, publishing, or affixing of any oral or written advertisement, broadcast, or other holding out to the public, or any portion thereof, that the person, firm, or corporation is in operation as a household goods carrier for hire without having a valid certificate issued by the commission is guilty of a misdemeanor. Road Tax on Motor Carriers

§ 48–9–30. Definitions

As used in this article, the term:

(1) "Motor carrier" means any person who operates or causes to be operated any motor vehicle, as defined in this Code section, on any highway in this state.

(2) "Motor fuel" means any liquid, regardless of its composition or properties, used to propel a motor vehicle.

(3) "Motor vehicle" means any passenger vehicle that has seats for more than 20 passengers in addition to the driver and any vehicle or combination of vehicles used, designed, or maintained for transportation of property and having two axles and a gross vehicle weight exceeding 26,000 pounds or having three or more axles regardless of weight. The term "motor vehicle" does not mean:

(A) School buses;

(B) Vehicles operated by the state, any political subdivision of the state, or the United States; or

(C) Transit buses operated exclusively within this state.

(4) "Operations" means operation of any motor vehicle, whether loaded or empty, whether or not for compensation, and whether owned by or leased to the motor carrier who operates it or causes it to be operated.

Laws 1968, p. 360, § 1; Laws 1978, p. 309, § 2; Laws 1979, p. 5, § 103; Laws 1981, p. 1857, § 43; Laws 1992, p. 2095, § 2.

Formerly Code 1933, § 91A–5101.

§ 48–9–31. Levy of road tax

A road tax for the privilege of using the streets and highways of this state is imposed upon every motor carrier. The tax shall be equivalent to the taxes imposed by Article 1 of this chapter and shall be calculated on the amount of motor fuel used by the motor carrier in its operations within this state. Except as credit for certain taxes as provided in this article, the tax imposed on motor carriers by this Code section is in addition to taxes imposed on motor carriers by any other law.

Formerly Code 1933, § 91A–5102.

§ 48–9–32. Payment of road tax and calculation of amount of motor fuel used in State

For the purposes of making payment of taxes and filing reports pursuant to this article, the year is divided into four quarters of three consecutive months each. The first quarter of the year shall consist of the months of January, February, and March. The road tax shall be paid by each motor carrier to the commissioner on or before the last day of the month immediately following the quarter with respect to which tax liability under this article accrues and shall be calculated upon the amount of motor fuel used by the motor carrier in its operations within this state during the quarter ending on the last day of the preceding month. The amount of motor fuel used in the operations of any motor carrier within this state shall be the proportion of the total amount of motor fuel used in its entire operations within and outside this state which the total number of miles traveled within this state bears to the total number of miles traveled within and outside this state.

Laws 1968, p. 360, § 3; Laws 1978, p. 309, § 2.

Formerly Code 1933, § 91A–5103.

§ 48–9–33. Reports of motor carriers

Every motor carrier subject to the road tax imposed by this article shall make to the commissioner on or before the last day of April, July, October, and January such reports of its operations during the quarter of the year ending on the last day of the preceding month as the commissioner requires. The commissioner may by regulation permit motor carriers having an annual road tax not in excess of an amount set by the commissioner to file annual reports. The commissioner by regulation may exempt from the reporting requirements of this Code section motor carriers all of whose operations are within this state.

Laws 1968, p. 360, § 6; Laws 1978, p. 309, § 2; Laws 1990, p. 799, § 6.

Formerly Code 1933, § 91A–5106.

§ 48–9–34. Joint reports by motor carriers

(a) Two or more motor carriers regularly engaged in the transportation of passengers on through buses and on through

tickets in pool service, at their option and with the consent of the commissioner, may make joint reports of their entire operations in this state. The road taxes imposed by this article shall be calculated on the basis of the joint reports as though the motor carriers were a single motor carrier. The motor carriers making the reports shall be jointly and severally liable for the taxes.

(b) Joint reports authorized by this Code section shall show the total number of miles traveled in this state and the total number of gallons of motor fuel purchased in this state by the reporting motor carriers. Credits or refunds to which the motor carriers are entitled shall not be allowed as credits or refunds to any other motor carrier. Motor carriers filing joint reports, however, shall permit all motor carriers engaged in this state in pool operations with them to join in filing joint reports.

Laws 1968, p. 360, § 8; Laws 1978, p. 309, § 2.

Formerly Code 1933, § 91A–5108.

§ 48–9–35. Credit for payment of motor fuel tax

Every motor carrier subject to the road tax shall be entitled to a credit on the tax equivalent to the amount of motor fuel tax imposed by Article 1 of this chapter on all motor fuel purchased by the motor carrier during the quarter within this state for use in operations either within or outside this state when the motor fuel tax imposed by this state has been paid by the motor carrier. Evidence of the payments of the motor fuel tax in the form required by the commissioner shall be furnished by each motor carrier claiming the credit allowed. When the amount of the credit to which any motor carrier is entitled for any quarter exceeds the amount of the road tax for which the carrier is liable for same quarter, the excess may be allowed pursuant to regulations promulgated by the commissioner as a credit on the road tax for which the motor carrier would be otherwise liable for the subsequent quarter or quarters. Allowed credits may be carried forward and utilized no later than the succeeding two calendar years.

Laws 1968, p. 360, § 4; Laws 1978, p. 309, § 2.

Formerly Code 1933, § 91A–5104.

§ 48–9–36. Refunds to motor carriers

(a) Any motor carrier which accrues credits in excess of 2,000 gallons in any quarter under Code Section 48–9–35 shall be entitled to a refund of the credits subject to the conditions set forth in this Code section.

(b) All applications for refunds must be filed with the commissioner within 180 days from the end of any quarter in which credits are accumulated. Applications shall be in the form prescribed by the commissioner, shall be sworn to, and shall be supported by evidence satisfactory to the commissioner.

(c) Any motor carrier entitled to a refund may give a bond in an amount of not less than $ 1,000.00 payable to the state and conditioned that the motor carrier will pay all road taxes due and to become due under this article. As long as the bond remains in force, the commissioner may issue refunds to the motor carrier in the amounts appearing to be due on applications without first auditing the records of the motor carrier. The bond shall be in the form and with such surety as required by the commissioner.

(d) The commissioner shall not issue refunds in excess of the amount of the bond or bonds except after audit of the applicant's records. Except as otherwise provided by the commissioner, sufficient records must be produced in this state for audit.

(e) To enable the commissioner to make the refunds authorized by this Code section, the Office of the State Treasurer, under warrants drawn by the Governor, shall remit to the commissioner, from funds appropriated by law for that purpose, an amount equivalent to the refunds. Before the Governor issues a warrant for this purpose, he shall require that the commissioner certify the name of each applicant and the amount to which he is entitled. The refunds provided by this Code section shall be nonassignable.

(f) Refunds claimed and paid pursuant to this Code section shall bear no interest.

Formerly Code 1933, § 91A–5105.

§ 48–9–37. Leased motor vehicles

(a) The lessee of a motor vehicle, but not the lessor of a motor vehicle, shall be deemed a motor carrier for the purposes of this article unless otherwise specifically provided in this Code section.

(b) A lessor of motor vehicles may be deemed a motor carrier with respect to motor vehicles leased to others by him and with respect to motor fuel consumed by the motor vehicles when the lessor supplies or pays for the motor fuel consumed by the motor vehicles or makes rental or other charges calculated to include the cost of the motor fuel. The commissioner shall provide by rules and regulations for the presentation to other motor carriers and to the general public of satisfactory evidence and identification of the motor carrier status. Any lessee motor carrier may exclude from his reports pursuant to this article motor vehicles of which he is the lessee when the motor vehicles have been leased from a lessor who is a motor carrier pursuant to this Code section.

(c) Subsections (a) and (b) of this Code section shall govern primary liability of lessors and lessees of motor vehicles pursuant to this article. If a lessor or lessee who is primarily liable fails in whole or in part to discharge this liability, the failing party or other lessor or lessee party to the transaction shall be jointly and severally responsible and liable for compliance with this article and for the payment of any tax due pursuant to this article. The aggregate amount of any taxes collected by the state pursuant to this article, however, shall not exceed the total amount of tax due on the account of the transaction in question together with any costs and penalties imposed.

Formerly Code 1933, § 91A–5107.

§ 48–9–38. Registration card, vehicle identification marker, fees, temporary permits and temporary authorizations

(a) Unless otherwise excluded from the scope of this article, no motor carrier shall operate or cause to be operated in this state any motor vehicle unless and until he has:

(1) Registered with the commissioner and secured a motor carrier registration card. A duplicate of the registration card shall be carried in each motor vehicle at all times in this state; and

(2) Secured from the commissioner an identification marker for each motor vehicle. The identification marker shall be attached or affixed to the motor vehicle in the place and manner prescribed by the commissioner so that the marker is clearly displayed at all times.

(b) Registration cards and identification markers shall be issued on an annual basis as of January 1 of each year and shall be valid until the next succeeding December 31. The commissioner, in his discretion, may authorize renewal of registration cards and identification markers without the necessity of issuing new cards and markers. All registration cards and identification markers issued by the commissioner shall remain the property of the state and may be recalled for any violation of this article or of the

regulations promulgated under this article. The commissioner shall not issue a registration card or an identification marker to any motor carrier who has outstanding motor carrier, motor fuel, sales, or income tax liabilities or other penalties or fees owed to the Department of Transportation of this state unless the liabilities are being appealed as provided by law.

(c) Prior to the issuance of each identification marker, a fee of $ 3.00 shall be paid to the commissioner. Upon application for identification markers by a motor carrier, the applicant shall declare the type of fuel used in vehicles for which identification markers are to be issued and any other information that the commissioner may require for the effective administration of this article.

(d) The commissioner may authorize a motor vehicle to be operated in an emergency without a registration card and identification marker for a period not in excess of 30 days. The authorization shall be granted by letter or facsimile message.

(e) A motor carrier may obtain a temporary permit which shall be good for one motor vehicle for a period of ten consecutive days beginning and ending on the dates specified on the face of the permit. Temporary permits are to be obtained by motor carriers having only infrequent trips into and through this state. The fee for the permit shall be $ 16.00 and no reports shall be required from such motor carriers. Temporary permits shall be issued in lieu of annual registration required under this article. A temporary permit shall be carried in the vehicle for which it was issued at all times when the vehicle is in this state. The commissioner may issue a temporary permit by facsimile message or letter.

Formerly Code 1933, § 91A–5109.

§ 48–9–39. Failure to carry identification card or display identification marker

(a) It shall be unlawful for any person to operate or cause to be operated on any highway in this state any motor vehicle that does not carry the registration card required by Code Section 48–9–38 or any motor vehicle that does not display in the manner prescribed by the commissioner the identification marker that Code Section 48–9–38 requires to be displayed.

(b) Any person who violates subsection (a) of this Code section shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than $ 50.00 nor more than $ 200.00. Each day's operation in violation of this Code section shall constitute a separate offense.

Formerly Code 1933, § 91A–9920.

§ 48–9–40. Keeping and preservation of records; estimate of amount of road tax due

(a) Every motor carrier shall keep such records as may be necessary for the effective administration of this article and for the reporting and justification of the amount of tax liability pursuant to this article. All such records shall be kept in the form required by the commissioner and shall be safely preserved for a period of three years in such a manner as to ensure their security and availability for inspection by the commissioner or his authorized agents. Upon application in writing after an audit of the motor carrier's records has been made, the commissioner may consent to the destruction of the records within the three-year period.

(b) The commissioner and his authorized agents and representatives may inspect during regular business hours the books and records of any motor carrier subject to the road tax imposed by this article.

(c) Whenever any motor carrier neglects or refuses to file any report or neglects or refuses to keep records as prescribed by this article, the commissioner, using the best information available, shall estimate, determine, and fix the amount of taxes and penalties payable by the motor carrier under this article. In any action or proceeding under this Code section, any assessment by the commissioner shall constitute prima-facie evidence of the claim of the state. The burden of proof shall be upon the motor carrier to show that the assessment was incorrect or contrary to law.

(d) The commissioner may enter into agreements with the appropriate authorities of other jurisdictions having statutes similar to this article for the cooperative audit of motor carriers' reports and returns. In performing any such audit or part of an audit, the officers and employees of the other jurisdiction or jurisdictions shall be deemed authorized agents of this state for such purpose.

49-4-15 Fraud in obtaining public assistance; repayment

Article 7

49-4-146.1 Unlawful to obtain benefits and payments under certain circumstances; penalties; procedures

Article 1

General Provisions

§ 49-4-15. Fraud in obtaining public assistance; repayment

(a) Any person who by means of a false statement, failure to disclose information, or impersonation, or by other fraudulent device, obtains or attempts to obtain, or any person who knowingly or intentionally aids or abets such person in the obtaining or attempting to obtain:

(1) Any grant or payment of public assistance, food stamps, or medical assistance (Medicaid) to which he is not entitled;

(2) A larger amount of public assistance, food stamp allotment, or medical assistance (Medicaid) than that to which he is entitled; or

(3) Payment of any forfeited grant of public assistance;

or any person who, with intent to defraud the department, aids or abets in the buying or in any way disposing of the real property of a recipient of public assistance shall be guilty of a misdemeanor unless the total amount of the value of public assistance, food stamps, and medical assistance (Medicaid) so obtained exceeds $ 500.00, in which event such person shall be guilty of a felony and, upon conviction thereof, shall be punished by imprisonment for not less than one nor more than five years. In determining the amount of value of public assistance, food stamps, and medical assistance obtained by false statement, failure to disclose information, or impersonation, or other fraudulent device, the total amount obtained during any uninterrupted period of time shall be treated as one continuing offense.

(b) It shall be a fraudulent device within the meaning of subsection (a) of this Code section, and punishable as therein provided, for any person:

(1) Knowingly to use, alter, or transfer food stamp coupons or authorizations to purchase food stamp coupons in any manner not authorized by law;

(2) Knowingly to possess food stamp coupons or authorizations to purchase food stamp coupons when he or she is not authorized by law to possess them;

(3) Knowingly to possess or redeem food stamp coupons or benefits when he or she is not authorized by law to possess or redeem them; or

(4) Knowingly to use or redeem food stamp coupons or benefits in any manner or for purposes not authorized by law.

(c) (1) Any person who obtains any payment of public assistance to which he is not entitled or in excess of that to which he is entitled shall be liable to the state for the amount of such overpayment.

(2) Any person who intentionally, with knowledge of the fraud, aids or abets any recipient of public assistance in obtaining or attempting to obtain any payment of public assistance to which the recipient is not entitled or a payment in excess of that to which he is entitled shall also be liable to the state for the amount of such payment.

(3) Any person who receives any payment of public assistance to which he is not entitled or in excess of that to which he is entitled shall be liable to the state for the amount of such overpayment.

(4) Subject to the limitations provided in this paragraph, the amount of such overpayment may be recovered by civil action and, if the person receiving such overpayment continues on assistance, by proportionate reduction of future public assistance grants, in accordance with regulations of the board which shall conform to the federal Social Security Act [1] and federal regulations promulgated pursuant thereto, until the excess amount has been paid. In any case in which, under this subsection, a person is liable to repay any sum, such sum may be collected without interest by civil action brought in the name of the department. Any repayment required by this subsection may be waived by the department, and the method of repayment, if any, including recoupments from current assistance grants, shall be determined by the department. Recoupment may be initiated without regard to whether the department has obtained a judgment in a civil action but shall not be initiated prior to notice and an opportunity for a hearing in accordance with this article. The department shall make such waivers and determinations of repayment and the manner of repayment in accordance with regulations of the board which shall conform to the federal Social Security Act and the federal regulations promulgated pursuant thereto.

(d) Any felony offense under this Code section may be prosecuted by accusation as provided in Code Section 17-7-70.1.

(e) (1) Prior to the filing of an accusation or the return of an indictment, a prosecuting attorney may defer further prosecution of such accusation or indictment and shall have the authority to enter into a consent agreement with the individual in which such individual admits to any overpayment, consents to disqualification for such period of time as is or may hereafter be provided by law, and agrees to repay, as restitution, such overpayment. Such agreement may provide for a lump sum repayment, installment payments, formula reduction of benefits, or any combination thereof. Such agreement shall toll the running of the statute of limitations for such offense for the period of the agreement. A consent agreement entered into in accordance with this subsection shall not constitute a criminal charge.

(2) Any such agreement shall be filed in the criminal docket of the court having jurisdiction over the violation of this Code section without the necessity of the state filing an accusation or an indictment being returned by a grand jury. The clerk shall enter upon the docket "CONSENT AGREEMENT NOT A CRIMINAL CHARGE."

(3) Upon successful completion of the terms and conditions of the consent agreement, criminal prosecution of the individual for such offense shall be barred; provided, however, that nothing in this paragraph shall prohibit the state from introducing evidence of such offense as a similar transaction in any

subsequent prosecution or for the purpose of impeachment. The successful completion of the terms and conditions of the agreement shall not be considered a criminal conviction.

(4) If the individual fails to comply with the terms of such consent agreement, the state may proceed with a criminal prosecution.

(f) Any person convicted of an offense stated in this Code section shall, upon the first such conviction, be ineligible to receive any form of public assistance or food stamps for a period of one year. For a second such conviction, such person shall be barred from receiving any form of public assistance or food stamps in this state for life; provided, however, that nothing in this subsection shall be construed so as to preempt any other law or regulation which would require an earlier denial of such benefits.

1 42 U.S.C.A. § 301 et seq.

Historical and Statutory Notes

Laws 1996, p. 1517, § 3, provides:

"No later than July 1, 1996, the Department of Human Resources shall request from the appropriate federal agencies any waivers necessary to implement any part of this Act. Each portion of this Act for which such waiver is required shall become effective only if the waiver is obtained, and in that event shall become effective upon the ninetieth day following the receipt of such waiver. The remainder of this Act shall become effective July 1, 1996."

The waivers referred to in Laws 1996, p. 1517, § 3, were applied for with regard to the public assistance provisions of subsec. (f) of this section. Subsequently, passage of the federal "Personal Responsibility and Work Opportunity Reconciliation Act of 1996" eliminated the need for the waivers, and the public assistance provisions of subsec. (f) therefore did not take effect.

Article 7

Medical Assistance Generally

§ 49-4-146.1. Unlawful to obtain benefits and payments under certain circumstances; penalties; procedures

(a) As used in this Code section, the term:

(1) "Agent" means any person who has been delegated the authority to obligate or act on behalf of a provider.

(2) "Convicted" means that a judgment of conviction has been entered by any federal, state, or other court, regardless of whether an appeal from that judgment is pending.

(3) "Indirect ownership interest" means any ownership interest in an entity that has an ownership interest in the provider entity. The term includes an ownership interest in any entity that has an indirect ownership interest in the provider entity.

(4) "Managing employee" means a general manager, business manager, administrator, director, or other individual who exercises operational or managerial control over, or who directly or indirectly conducts, the day-to-day operation of the institution, organization, or agency.

(5) "Payment" includes a payment or approval for payment, any portion of which is paid by the Georgia Medicaid program, or by a contractor, subcontractor, or agent for the Georgia Medicaid program pursuant to a managed care program operated, funded, or reimbursed by the Georgia Medicaid program.

(6) "Person" means any person, firm, corporation, partnership, or other entity.

(7) "Person with an ownership or control interest" means a person who:

(A) Has ownership interest totaling 5 percent or more in a provider;

(B) Has an indirect ownership interest equal to 5 percent or more in a provider;

(C) Has a combination of direct and indirect ownership interests equal to 5 percent or more in a provider;

(D) Owns an interest of 5 percent or more in any mortgage, deed of trust, note, or other obligation secured by the provider entity if that interest equals at least 5 percent of the value of the property or assets of the provider;

(E) Is an officer or director of a provider that is organized as a corporation; or

(F) Is a partner in a provider entity that is organized as a partnership.

(8) "Provider" means an actual or prospective provider of medical assistance under this chapter. The term "provider" shall also include any managed care organization providing services pursuant to a managed care program operated, funded, or reimbursed by the Georgia Medicaid program.

(b) It shall be unlawful:

(1) For any person or provider to obtain, attempt to obtain, or retain for himself, herself, or any other person any medical assistance or other benefits or payments under this article, or under a managed care program operated, funded, or reimbursed by the Georgia Medicaid program, to which the person or provider is not entitled, or in an amount greater than that to which the person or provider is entitled, when the assistance, benefit, or payment is obtained, attempted to be obtained, or retained, by:

(A) Knowingly and willfully making a false statement or false representation;

(B) Deliberate concealment of any material fact; or

(C) Any fraudulent scheme or device; or

(2) For any person or provider knowingly and willfully to accept medical assistance payments to which he or she is not entitled or in an amount greater than that to which he or she is entitled or knowingly and willfully to falsify any report or document required under this article.

(c) Any person violating paragraph (1) or (2) of subsection (b) of this Code section shall be guilty of a felony and, upon conviction thereof, shall be punished for each offense by a fine of not more than $ 10,000.00, or by imprisonment for not less than one year nor more than ten years, or by both such fine and imprisonment. In any prosecution under this Code section, the state has the burden of proving beyond a reasonable doubt that the defendant intentionally committed the acts for which he or she is charged.

(c.1)(1) Any person committing abuse shall be liable for a civil monetary penalty equal to two times the amount of any excess benefit or payment. This penalty shall be collected on the same terms as a penalty imposed pursuant to subsection (d) of this Code section, except as to the amount specified in items (1) and (2) of that subsection, but shall not be imposed cumulatively with a penalty under such subsection.

(2) Abuse is defined as a provider knowingly obtaining or attempting to obtain medical assistance or other benefits or payments under this article to which the provider knows he or she is not entitled when the assistance, benefits, or payments are greater than an amount which would be paid in accordance with those provisions of the department's policies and procedures manual which are adopted pursuant to public notice, and the assistance, benefits, or payments directly or indirectly result in unnecessary costs to the medical assistance program. Isolated instances of unintentional errors in billing, coding, and costs reports shall not constitute abuse. Miscoding shall not constitute abuse if there is a good faith basis that the codes used were appropriate under the department's policies and proce-

dures manual and there was no deceptive intent on the part of the provider.

(d) In addition to any other penalties provided by law, each person violating subsection (b) of this Code section shall be liable to a civil penalty equal to the greater of (1) three times the amount of any such excess benefit or payment or (2) $ 1,000.00 for each excessive claim for assistance, benefit, or payment. Additionally, interest on the penalty shall be paid at the rate of 12 percent per annum from the date of payment of any such excessive amount, or from the date of receipt of any claim for an excessive amount when no payment has been made, until the date of payment of such penalty to the department.

(e)(1) Whenever the commissioner proposes to recover an amount provided for in subsection (d) of this Code section, he shall give 30 days' written notice of his intended actions. The notice shall inform the person in violation of subsection (b) of this Code section of his right to a hearing, the method by which he may obtain a hearing, and that he may be represented by an authorized representative, such as legal counsel, relative, friend, or other spokesman, or that he may represent himself.

(2) All hearings held by virtue of this subsection shall be conducted in the same manner as any other contested case within the department and shall be subject to the rules and regulations regarding hearings within the department. As in all contested cases within the department, the person against whom the commissioner is proceeding under this subsection shall have the right to appeal any adverse administrative decision to the superior court of the county of his residence or to the Superior Court of Fulton County once he exhausts all administrative remedies within the department.

(3) If the person against whom the commissioner is proceeding under this subsection fails to request a hearing or fails to exhaust all administrative remedies within the department, then his case shall be treated as an unappealed administrative decision. In any unappealed administrative decision where the aggrieved party fails to request a hearing or fails to exhaust all administrative remedies, the commissioner shall issue an order to the person against whom the commissioner is proceeding, directing payment of any amount found to be due pursuant to subsection (d) of this Code section within ten days after service of the order. Upon failure to comply with the commissioner's order, the commissioner may issue a certificate to the clerk of the superior court of the county of residence of the person who is the subject of the order. A copy of such certificate shall be served upon the person against whom the order was entered. Thereupon, the clerk shall immediately enter upon his record of docketed judgments the name of the person so indebted, that the debt is owed to the state, a designation of the statute under which such amount is found to be due, the amount due, and the date of the certification. Such entry shall have the same force and effect as the entry of a docketed judgment in the superior court. Such entry on the docket by the commissioner shall be without prejudice to the right of the aggrieved party to contest such entry by affidavit of illegality or as otherwise provided by law.

(f) The department may refuse to accept a statement of participation, deny a request for reinstatement, refuse to exercise its option to renew a statement of participation, suspend or withhold those payments arising from fraud or willful misrepresentation under the Medicaid program, or terminate the participation of any provider other than a natural person if that provider or any person with an ownership or control interest or any agent or managing employee of such provider has been:

(1) Convicted of violating paragraph (1) or (2) of subsection (b) of this Code section;

(2) Convicted of committing any other criminal offense related to any program administered under Title XVIII, XIX, or XX of the Social Security Act of 1935,[1] as amended; or

(3) Excluded or suspended from participation in the medicare program for fraud or abuse.

In making a decision pursuant to this subsection, the department shall consider the facts and circumstances of the specific case, including but not limited to the nature and severity of the crime or violation and the extent to which it adversely affected medical assistance recipients and the program.

(g) The department shall refuse to accept a statement of participation, deny a request for reinstatement, refuse to exercise its option to renew a statement of participation, or terminate the participation of any provider who is a natural person if that provider or any agent or managing employee of such provider has been convicted of:

(1) Violating subsection (b) of this Code section; or

(2) Committing any other criminal offense related to any program administered under Title XVIII, XIX, or XX of the Social Security Act of 1935, as amended.

(h) The department shall reinstate a provider whose participation in the medical assistance program was terminated pursuant to subsection (f) or (g) of this Code section if the conviction upon which the termination was based is reversed or vacated or if the decision of the administrative law judge is reversed in accordance with the department's rules and regulations.

(i) It shall be the duty of the department to identify and investigate violations of this article and to turn over to the prosecuting attorney, for prosecution, any information concerning any recipient of medical assistance who violates this article.

Subsec. (j) effective January 1, 2010.

(j) As necessary to enforce the provisions of this article, the department or its duly authorized agents may submit to the state revenue commissioner the names of applicants for medical assistance or other benefits or payments provided under this article, as well as the relevant income threshold specified therein. If the department elects to contract with the state revenue commissioner for such purposes, the state revenue commissioner and his or her agents or employees shall notify the department whether or not each submitted applicant's income exceeds the relevant income threshold provided. The department shall pay the state revenue commissioner for all costs incurred by the Department of Revenue pursuant to this subsection. No information shall be provided by the Department of Revenue to the department without an executed cooperative agreement between the two departments. Any tax information secured from the federal government by the Department of Revenue pursuant to express provisions of Section 6103 of the Internal Revenue Code may not be disclosed by the Department of Revenue pursuant to this subsection. Any person receiving any tax information under the authority of this subsection is subject to the provisions of Code Section 48–7–60 and to all penalties provided under Code Section 48–7–61 for unlawful divulging of confidential tax information.

CHAPTER 4A

DEPARTMENT OF JUVENILE JUSTICE

Section

49–4A–9 Children who have previously been adjudged to have committed act which is a felony

§ 49–4A–9. Children who have previously been adjudged to have committed act which is a felony

(a) Any child who has previously been adjudged to have committed an act which is a felony if tried in a superior court and who, on a second or subsequent occasion, is convicted of a felony in a superior court may, in the discretion of the court, be sentenced into the custody of the department as otherwise provided by law or be committed as a youthful offender as authorized in Chapter 7 of Title 42; provided, further, that any child convicted of a felony punishable by death or by confinement for life shall only be sentenced into the custody of the Department of Corrections.

(b) Any final order of judgment by the court in the case of any such child shall be subject to such modification from time to time as the court may consider to be for the welfare of such child. No commitment of any child to any institution or other custodial agency shall deprive the court of jurisdiction to change the form of the commitment or transfer the custody of the child to some other institution or agency on such conditions as the court may see fit to impose, the duty being constant upon the court to give to all children subject to its jurisdiction such oversight and control in the premises as will be conducive to the welfare of the child and the best interests of the state; provided, however, that the release or parole of any child committed to the department for detention in any of its institutions under the terms of this chapter during the period of one year from the date of commitment shall be had only with the concurrence and recommendation of the commissioner or the commissioner's designated representative; provided, further, that upon releasing or paroling any child adjudicated delinquent for the commission of a designated felony act as defined in Code Section 15–11–63 and committed to the department for detention in any of its institutions under the terms of this chapter, the department shall provide notice to any person who was the victim of the child's delinquent acts that the child is being released or paroled. As long as a good faith attempt to comply with the notice requirement of this subsection has been made, the department and employees of the department shall not be liable for damages incurred by reason of the department's failure to provide the notice required by this subsection.

(c) After the expiration of one year from the date of commitment, the committing court shall review the case and make such order with respect to the continued confinement or release of the child back to the committing court for further disposition as the court deems proper.

(d) In the event adequate facilities are not available, the department shall have the right to transfer youths committed to the department under this Code section to the Department of Corrections for incarceration in an appropriate facility designated by the Department of Corrections.

(e) Any child under 17 years of age who is sentenced in the superior court and committed to the department may be eligible to participate in all youth development center programs and services including community work programs, sheltered workshops, special state sponsored programs for evaluation and services under the Division of Rehabilitation Services of the Department of Labor and the Department of Behavioral Health and Developmental Disabilities, and under the general supervision of youth development center staff at special planned activities outside of the youth development center. When such a child sentenced in the superior court is approaching his or her seventeenth birthday, the department shall notify the court that a further disposition of the child is necessary. The department shall provide the court with information concerning the participation and progress of the child in programs described in this subsection. The court shall review the case and determine if the child, upon becoming 17 years of age, should be placed on probation, have his or her sentence reduced, be transferred to the Department of Corrections for the remainder of the original sentence, or be subject to any other determination authorized by law.
